All brick kilns converted to zigzag tech in Punjab: minister

ISLAMABAD: In an ambitious yet impressive move, the Punjab government has successfully converted around 8,000 of its functional brick kilns over eco-friendly zigzag technology during past six months. Special Assistant to the Prime Minister (SAPM) on Climate Change Malik Amin Aslam on Sunday in an exclusive chat with APP appreciated the Punjab government for its great accomplishment against environmental challenges on the direction of the Prime Minister to purge the province from the menace of hazardous smog creating conventional brick kilns.

Amin said conversion of around 8,000 brick kilns across the province to Zigzag technology which was 100 per cent of the existing kilns to environment friendly technology was a great achievement. He said efforts had been continued since 2017 but faced many challenges where the Punjab government has achieved this goal through continuous hard work of last six months.

"All 8,000 strong kilns have been converted to modern technology. The new technology will emit 60 less carbon emissions and help save 30 per cent more savings for kiln owners," Malik Amin Aslam said. He urged that the rest of the provinces should follow the example of Punjab and use Zig Zag technology to contain dark emissions causing serious pollution and respiratory diseases among the masses.

The PM's aide mentioned that the government has provided subsidy for adopting latest technology.

During conversion, he said the internal system of the kiln is replaced by Zigzag technology. It merits mentioning here that Natural Draught Zigzag Firing kiln is a continuous, cross draught, moving fire kiln in which the air flows in a zigzag path due to the draught provided by a chimney.

The International Centre for Integrated Mountain Development (ICIMOD) and National Energy Efficiency and Conservation Authority (NEECA) provided the technical assistance to brick kilns.

owners which was supported by the Punjab Environmental Protection Department (EPTD) and Provincial Disaster Management Authority (PDMA) Punjab.

President All Pakistan Brick Kiln Association Shabbir Khan Niaz said the conversion was not an easy process as traditional brick kilns owners lacked expertise and experience to adopt the modern technology and also lacked adequate resources to initiate shifting to modern technology overnight.

He said, "I raised the issue at repeated forums where SAPM Malik Amin Aslam and Ministry of Climate Change extended great support in this regard."

Niaz said at least Rs 2.5 million was required to build a zigzag brick kiln where the banks were not ready to provide loan facility to brick kiln owners. He added that the provincial government took the matter sincerely and developed a proper and convenient financing mechanism to support brick kiln owners in this regard. "It took a great effort

to convince the brick kiln owners to adopt eco-friendly zigzag technology. I have a simple and crisp reason that our kiln's dark smoke is causing deaths of innocent masses and we cannot afford to spoil a human life at the cost of money. We should behave responsibly and should adopt the technology as a humanitarian course," he proudly explained his effort.

According to the PDMA's data there were a total of 8147 brick kilns existed in the Punjab province out of which only 7,986 were functional and 161 were nonoperational ones. The provincial government after stakeholder engagement and special packages managed 100 per cent conversion of functional brick kilns to zigzag technology.

An ICIMOD official told that a zigzag brick kiln was not only emitting 60 per cent less carbon emissions rather also consuming 40 per cent less coal and helping in halving 90 per cent A plus or good quality which were merely 70 per cent in the case of conventional brick kilns. —APP

President urges adherence to SOPs during majalis

ISLAMABAD: President Dr Arif Alvi on Sunday, in a telephonic conversation with Allama Sajid Naqvi, stressed upon strict observance of standard operating procedures (SOPs) during Ramadan-ul-Mubarak and Majalis to contain spread of coronavirus.

During the conversation, the president further said that people should wear face masks and observe social distancing. The elderly people should perform religious duties at homes.

Allama Sajid Naqvi assured the president of complete observance of SOPs during Majalis, a press release said.

The president urged all to advise people to stick to these SOPs.

He underlined the need for acting upon the advice of Holy Prophet (Peace Be Upon Him) with regard to pandemic.

He said the nation with united stand has to overcome the trying times of coronavirus pandemic. The president also contacted Madama Hafize Jalandhari and said that ulama should advise the faithful to observe SOPs in mosques. —APP

Covid-19 pandemic APCPLA praises role of Army

FAISALABAD: Zonal

View Chairman All Pakistan Cotton Power Association (APCPLA) Misha Kauri said that the role of Pakistan Army in saving the people from the Corona epidemic is commendable.

Precious lives are being saved by strictly enforcing SOPs, in which the people should extend all possible cooperation to the army to prevent the situation from deteriorating further. For the first time in Pakistan, more than 200 people have lost their lives in 24 hours, which is very worrying. Talking in the business community, he said that the army has been called in to assist the civil administration so that the

people can be persuaded to implement the SOPs.

He said that the army was not exempt from infection but was still risking its life to save the people. We pray without a doubt. He said that people in Pakistan have become victims of this epidemic to a dangerous extent, while the number of positive cases has risen to alarming levels, which is much higher than last year. The government should reduce or eliminate taxes on all essential equipment, including oxygen, masks and healthcare equipment, to ensure their availability. Taxes on the importation of corona vaccine should be reduced and the private sector should be encouraged to prepare locally, so that the supply of coronavirus vaccine can be abundant at low cost. —PR
