

For Immediate Release

Date: July 22, 2019

Avanceon has been awarded contract for the provision Master SCADA for Food Port Terminal Facilities at an international seaport in GCC

Avanceon is going to play a crucial role in ensuring food security for a large middle eastern country

Avanceon bags a contract for the provision of Master SCADA for Food Security Terminal Port facilities and warehouses going to be developed and constructed at one of the largest regional sea port. The contract is a part of Government's efforts to achieve independence in achieving total food security for millions of its inhabitants. Once complete, these facilities will provide enough supply chain and stockpile for years for each commodity being processed and stored.

Avanceon scope of work includes design, engineering, supply, installation, testing and commissioning of Master SCADA for the facilities & warehouses. This also includes an end to end Integration with all Sugar, Edible Oil, Rice & Animal Feeds Process plants, Utilities, Building Management System (BMS), Power Management System (PMS), Silos, Conveyors, Bucket Elevators, Warehouses, Computer Integrated Manufacturing System (CIMS), Vessel Booking Systems, Asset Management and Enterprise Resource Planning (ERP) system as per approved design and architecture.

The project is expected to conclude by the end of 2020.

At the signing of the contract, Avanceon's Head of Middle East - Sarmad M. Qureshi has said;

"Middle East is in a phase of expanding & penetrating into their Food Processing, Storage and Port handling facilities to secure a better future and supply chains. This is one of its unique kind of highly complex & technical project which will also include sales order processing of food commodities to manufacturing of various food recipes till the delivery mechanisms to their wholesale clients and our system will contribute to it accordingly, we are excited to be part of it."

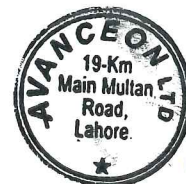

---End of Press Release---
