Dear Sir,

Re: Advertising on False Pretense

We, Clover Pakistan Limited (the “**Company**”) would like to inform the Stock Exchange and public at large that the Company has been informed that some miscreants are illegally carrying out advertisements for publicity of food products of the Company which are completely false, fake and misleading. The advertisements contain false statements which are tantamount to misrepresentation and misleading information to consumers / the public at large. The above actions have no nexus to the Company and we are investigating the matter further to determine what legal steps may be taken. The Company confirms that it is exploring its food business segment and has not launched any product line so far.

Yours sincerely,

Zeeshan Ul Haq
Company Secretary
