MATERIAL INFORMATION.

Dear Sirs,

We would like to convey certain material information regarding our subsidiary, Engro Fertilizers Limited (EFert).

In 2010, the Government had diverted 60 MMSCFD (million cubic feet of gas per day) from Mari gas field for use in the Guddu power plant. However, a recent ECC decision has reverted the 60 MMSCFD back from Guddu as it is presently not being used there. The Ministry of Petroleum & Natural Resources has decided to provide this 60 MMSCFD of gas to EFert till start of gas off-takes by the upcoming new Guddu 747 MW power plant. Certain procedural requirements are still required to be carried out prior to the flow of this gas. Once provided, this additional gas alongwith the existing supplies will enable production from both of EFert's urea plants at around 80-85% of capacity.

Yours sincerely

ANDALIB ALAVI
