**RE: TRADING VOLUME AND PRICE OF ISL**

This refers to your letter No.SMD/SSED/ISL/256/2016/4114-15-16 dated March 30, 2016.

We would like to inform you of the following;

On March 5, 2016 Minister of State and Chairman Board of Investment Dr. Miftah Ismail formally inaugurated ISL's capacity expansion at its state-of-the-art steel complex in Karachi. The Rs.3.2 billion expansion increased ISL's production capacity to over 500,000 MT of which 400,000 MT can be galvanized. A number of notable dignitaries attended the event including a delegation of Sumitomo Corporation-Japan, JFE Steel-Japan and Counsel Generals of Japan and Germany. The print media covered the event and reported in their publication of March 8, 2016. Press clippings of Business Recorder and DAWN are enclosed for your reference.

In addition, the National Tariff Commission of Pakistan issued public notices to initiate investigations against the dumping of Galvanized Coils and Cold Rolled Coils from China Ukraine. As a result of preliminary investigation antidumping duty @ 8.31% to 19.04% was imposed on the import of Cold Rolled Coils from China & Ukraine. This decision is being considered a positive signal for local steel industry (Copies of notices by National Tariff Commission are enclosed).

As per our understanding of the Clause 5.19.15 and Section 101(4) of the Securities Act, 2015, we reported following purchase(s) of shares by ISL's director and chief executive in the stock market and statutory returns were filed with the Securities & Exchange Commission of Pakistan:

Further, Mr. Samir M. Chinoy, a member of sponsoring family and who is an employee of the ISL bought =4,600,000= shares as detailed in **Annexure-I**.

According to Section 101(2) of the Securities Act, 2015 a director, executive officer or substantial shareholder of a listed company shall give notice in writing to the company in the case of any change in his beneficial ownership of the company. According to Section 101(4) of the said Act, the term “executive officer” includes but not limited to the chief executive, chairman, chief financial officer, secretary, auditor or any other officer of the company as may be prescribed by the Commission.

As stated above, we have duly reported the change in beneficial ownership of our Director and Chief Executive. According to our understanding, Mr. Samir Chinoy did not fall in the definition of “Executive Officer”, as such the change in his beneficial ownership was not reported.

*Beside above development, “International Steels Limited (ISL) and its management is not aware of any other development. Apparently the market forces of demand and supply causes the volatility.*

We understand that proper compliance was made in accordance with the Pakistan Stock Exchange Rules and Securities Act, 2015. However, in case our understanding was incorrect then we would request you to kindly condone our lack of understanding.

Thanking you,

Yours faithfully,  
For INTERNATIONAL STEELS LTD.,

## CORPORATE WATCH

▶ **SSGC reported Rs3.8bn loss in FY14**  
**KARACHI:** Sui Southern Gas Company Ltd (SSGC) reported results for FY13 and FY14 on Monday.

The utility's bottom-line deteriorated over the years as profit-after-tax dropped 90 per cent year-on-year to Rs248 million (earnings per share Rs0.3) in FY13, whereas it reported a loss of Rs3.8 billion (loss per share Rs4.3) in FY14.

The company's top-line grew at a rate of 4.4pc over the three-year period, but rising cost of goods sold and finance cost weighed on earnings. Sales for FY13 and FY14 stood at Rs164bn and Rs177bn.

The company stated: "As described in unconsolidated financial statements, trade debts include receivables of Rs41.3m for FY14 and Rs44.33m for FY13 from K-Electric and Rs16.9m and Rs12.7m for the same period from Pakistan Steel Corp." —Equities Correspondent

▶ **IFC wins award from Infrastructure Journal**  
**ISLAMABAD:** International Finance Corporation, a member of the World Bank Group, has won an award from Infrastructure Journal magazine, a leading sector publication, for arranging \$122 million in debt financing for a new hydropower plant in Pakistan, said a press release on Monday.

The project involves the construction and operation of a hydro plant on the Poonch River, which is expected to help ease crippling power shortages and meet demand for over 430,000 individual residential customers.

▶ **ISL plant expansion**  
**KARACHI:** International Steels Ltd (ISL) inaugurated its capacity expansion at its plant on March 5, 2016. The Rs3.2 billion expansion of its state-of-the-art complex comprised conversion of the compact cold rolling mill (CCM) to a twin-stand reversing mill, adding a second galvanising line and the installation and commissioning of the first Colour coating steel plant in the country, said a press release. The ISL production capacity increased to 500,000 tonnes.

**ABU DHABI:** The United Arab Emirates' energy minister said on Monday that current, low oil prices are forcing many producers to freeze output but that a correction in prices would take time.

Opec leader Saudi Arabia and non-Opec producer Russia, the world's two largest oil exporters, agreed last month to freeze output at January levels to prop up prices if other nations agreed to join the first global oil pact in 15 years.

"I believe that the current oil prices are forcing everyone to freeze so I think it is happening as we speak. It doesn't make any sense for anyone to increase production at the current prices," Suhail bin Mohammed al-Mazrouei told reporters.

## SSAI urges govt to resolve water issue

### RECORDER REPORT

**KARACHI:** President of Site Superhighway Association of Industry (SSAI), Mehtab Uddin Chawla has urged Governor Sindh Dr Ishratul Ibad Khan and Chief Minister Syed Qaim Ali Shah to resolve the issue of water shortage being faced by the industry.

Expressing concerns over persisting water shortage, he said that industrialists in Site Superhighway industrial area are compelled to buy water at a very high rate from tankers' mafia to keep their units operating.

He further said that the Site Superhighway industries are not getting water from KWSB since long and the only source of water was tankers, adding that now the industrial estate is facing a drought-like situation.

He lamented that strong water tanker mafia is taking full advantage of the situation and charging exorbitant rates for supplying water.

He claimed that a large number of units including export-oriented ones have been shut down owing to water scarcity and several others are at the verge of closure.

In a press statement issued here, Bilawal Bhutto Zardari said that terrorists were targeting the innocent and peaceful citizens and attempting to frighten the people.—NNI

## Couple killed for 'honour'

### RECORDER REPORT

**KARACHI:** A newly-wed couple was found murdered inside their house in Orangi Town on Monday.

An official at Mominabad police station told Business Recorder that the victims, identified as Khanullah and his wife Shabeena, were allegedly

gunned down by their relatives in the name of honour. Empty bullet cases of 9mm pistol were found from the crime scene.

The couple originally hailed from North Waziristan Agency and were residing in a rented house in Orangi No 10 Janghal Goth area.

The bodies were handed over

to their heirs after medico-legal formalities from Abbasi Shaheed Hospital (ASH).

"The father of the victim Shabeena came to us and lodged an FIR 38/2016 against some relatives. Police is trying to apprehend the culprits behind the murder," the official said.

**KARACHI:** International Steels Limited (ISL) inaugurated its capacity expansion at its state-of-the-art steel complex in Karachi on March 5.

The Rs 3.2 billion expansion increased ISL's production capacity to over 500,000MT of which 400,000MT can be galvanized.

The expansion comprised converting its state-of-the-art Compact Cold Rolling Mill (CCM) to a twin stand reversing mill, adding a second Galvanizing line and the successful installation and commissioning of the first Colour Coating Steel Plant in the country.

The factory is fully compliant to the National Environment Quality Standards. Daily require-

ments of 340,000 gallons of industrial water is taken from the subsoil and filtered rather than further taxing the overloaded water supply system of the city. This expansion will allow added impetus and confidence to the downstream engineering and construction sector, and has also resulted in ISL being able to meet 100 percent of the coated steel demand of the country.

Minister of State and Chairman Board of Investment Dr Miftah Ismail inaugurated the complex. A number of notable dignitaries attended the event including a delegation of over 13 members from Sumitomo Corporation and JFE steel Japan. Other notables included the Counsel Generals of Japan and Germany.—PR

## Female agri workers Call for legislation to ensure proper wages

### RECORDER REPORT

**HYDERABAD:** A large number of female agriculture workers from different villages of Matari and other districts joined a rally to mark International Women Day.

The rally organised by Sindh Community Foundation (SCF) which attracted women workers, mostly cotton pickers and those work in agriculture sector. The rally was attended by civil society and labor rights activists Punhal Sario of Sindh Hari Porhyat Council—SHPC, Javed Hussain of Sindh Community Foundation, Dr. Ashothama of Human Rights Commission of Pakistan, Razaq Umrani of HANDS, Beena of SPARC, and Fareeda Chana of Green Works Foundation.

Cotton is one of the major cash crops of Sindh province and women have more to say about their wages.

Participants demanded for pro-women legislation with recognition of informal labor into policy to protect their social safety net and increase wages and for social and economic protection.

Pakistan's most important industrial and export sector, textile and clothing (T&C) industry rely on these women workers, who are being deprived of their wages, despite the fact they take risk to collect cotton in scorching heat.

Javed Hussain says: "Although these women are responsible for the industry's growth, they remain poor and exploited as their wages are extremely low. That is why they have weak bargaining power and their health suffers from a hazardous working environment that involves excessive use of poisonous pesticides."

ADC No. 35/2015/NTC/CRC  
Government of Pakistan  
National Tariff Commission

**Notice of Preliminary Determination  
in Anti-dumping Investigation against Dumped Imports of Cold Rolled Coils/Sheets into  
Pakistan Originating in and/or Exported from the Peoples' Republic of China and Ukraine**

The National Tariff Commission (the "Commission") initiated an anti-dumping investigation on July 16, 2015, under Section 23 of the Anti-Dumping Duties Ordinance, 2015 (now enacted as Anti-Dumping Duties Act, 2015) after establishing that the application lodged by Aisha Steel Mills Limited Karachi (the "Applicant"), on behalf of domestic industry producing Cold Rolled Coils/Sheets ("CR Coils/Sheets") was in accordance with Section 20 and 24 of the Ordinance. The investigation concerns dumping of CR Coils/Sheets, originating in and/or exported from the People's Republic of China and Ukraine (the "Exporting Countries") into Pakistan and material injury caused therefrom to the domestic industry producing CR Coils/Sheets. In accordance with provisions of the Anti-Dumping Duties Act, 2015 (the "Act") and Anti-Dumping Duties Rules, 2001 (the "Rules"), the Commission has, after investigation, determined the following on preliminary basis:

**Product under Investigation:** The product being dumped into Pakistan is Cold Rolled Coils/Sheets of: primary and secondary quality with a thickness of 0.15-2.50 mm and width of above 600 mm originating in and/or exported from the Exporting Countries and is classified under Pakistan Customs Tariff Heading Nos. 7209.1690, 7209.1790, 7209.1890, 7209.1610, 7209.1710, 7209.1810, 7209.2690, 7209.2790, 7209.2890, 7209.2610, 7209.2710 and 7209.2810 (the "investigated product").

**Period of Investigation (POI):** For determination of dumping and injury, the POI is as follows:

For determination of dumping:	From April 1, 2014 to March 31, 2015
For determination of injury:	From April 1, 2012 to March 31, 2015

**Determination of Dumping:** Individual dumping margins in this preliminary determination are determined for producers of the investigated product from the Exporting Countries on the basis of the information provided by them. However, residual dumping margins/duty rates for non-cooperating exporters/producers have been determined as the highest dumping margin of the exporter/producer of the respective country.

**Injury to the domestic industry:** Injury to the domestic industry has been determined in accordance with Part VI of the Act. The Commission has on preliminary basis established that the domestic industry suffered material injury on account of increase in volume of dumped imports, price undercutting, price depression, price suppression, decline in market share, profits, sales, capacity utilization, return on investment, and negative effect on cash flow, inventories and ability to raise capital. The Commission has also examined factors other than dumped imports under Section 18(2) and Section 18 (3) of the Act, which could at the same time cause injury to the domestic industry. Analysis showed that the domestic industry has not been suffered material injury due to others factors.

**Imposition of Provisional Anti-Dumping Duty:** In reaching this preliminary determination, the Commission is satisfied that the investigated product has been imported from the Exporting Countries at dumped prices. However, for the purpose of imposition of lesser duty in terms of Section 43 (1) of the Act, the Commission has calculated injury margin to ascertain whether a lower duty would be adequate to remove injury being suffered by the domestic industry due to dumped imports of investigated product from the Exporting Countries. In order to prevent material injury during the course of this investigation, the Commission, pursuant to the powers conferred upon it under Section 43 of the Act, has decided to impose provisional anti-dumping duty at the rates

mentioned below on C&F value in *ad val.* terms on imports of CR Coils/Sheets importable from the Exporting Countries for a period of four months effective from the date of publication of notice in the press, on the following exporters/producers, however, it would not be levied in terms of Section 51(1) e of the Act on imports that are to be used as inputs in products destined solely for exports:
