## B. Investment in Nishat Power Limited

Nishat Power Limited (NPL) is a public limited company incorporated in February 2007, formed under the Power Policy 2002 as an Independent Power Producer (IPP). It is a subsidiary of Nishat Mills Limited ("the Company"). It is currently listed on the Pakistan Stock Exchange Limited.

The principal activity of the Company is to build, own, operate and maintain a fuel fired power plant based on Reciprocating Engine Technology having gross capacity of 200MW ISO in Jamber Kalan, Tehsil Pattoki, District Kasur, Punjab, Pakistan.

NPL has a chronic problem with its trade debt balances which fluctuate routinely due to delay in payments from the NTDC. This creates liquidity problems for NPL due to which it has to borrow funds from Banks and Financial Institutions to meet its working capital requirements.

The Company feels that it can benefit itself from this opportunity by lending surplus funds to NPL at a rate higher than the interest payable by the Company on its borrowing. The average interest rate of the Company is very low due to optimal mix of borrowings, availability of subsidized loans and good credit rating of the Company. The average borrowing rate of the Company was 3.17% per annum for the half year ended December 31, 2016.

In 2009, the Company provided similar working capital loan of Rs. 1.5 billion to NPL at the interest rate of 3 month KIBOR + 200 bps for five years. NPL made all payments of interest and principal against this loan in a timely manner.

After the expiry of five years, the Company obtained approval from its Board of Directors on 14 February 2014 and from its shareholders on 31 March 2014 to make an investment up to Rs. 1.5 billion in NPL in the form of working capital loan at the interest rate of 3 month KIBOR + 200 bps as and when required by NPL. The loan was repayable within the period of 3 years starting from the date of approval by shareholders. However, the Company did not make the investment in NPL against the said approval during the 3 years' period since the funds were not required by NPL.

Since the approval of shareholders for investment in NPL in the form of working capital loan has lapsed and considering the present average borrowing cost of the Company and the return offered to the Company by Banks on term deposits, the management of the Company has again proposed to seek the approval of Directors and shareholders for the renewal of the working capital loan of Rs 1.5 billion to NPL for a further period of one year on the same interest rate as approved by the shareholders in their meeting held on 31 March 2014. Repayment of the principle amount of loan shall be made within one year from the date of approval by the members while payment of interest due shall be made on monthly basis. The

# NISHAT MILLS LIMITED

management expects the transaction to be beneficial for the Company as this will enhance the return on surplus funds available with the Company.

The directors have carried out necessary due diligence for the proposed investment. The duly signed recommendation of the due diligence report shall be made available to the members for inspection in the annual general meeting. The latest annual audited financial statements shall be available for inspection in the annual general meeting.
