MACRO PERSPECTIVE

After achieving a growth rate of 5.8% in FY18 - the highest in 13 years and up from 5.3% in FY17, Gross Domestic Product (GDP) is likely to slow down to 5.0% in FY19 on the back of rising inflation, large twin deficits and lower output in the agriculture sector.

The challenges on the external front have increased to alarming levels in 1QFY19. The Current Account Deficit (CAD) reached USD 2.72 billion (5.3% of GDP) in 2MFY19 as opposed to USD 2.47 billion (4.6% of GDP) in the corresponding period last year. The primary reason for this deterioration is an upsurge in import bills by 10.92% to USD 9.95bn vs USD 8.97bn in the same period last year. Moreover, higher remittances (up by 13.44%) could not ease the Balance of Payment (BOP) issue. Consequently, foreign reserves have fallen to USD 14.89 billion (-9.23% YoY) by end of 1QFY19.

On the fiscal front, Federal Board of Revenue (FBR) collected total tax revenue of PKR 836 billion in 1QFY19 as against PKR 766 billion during the same period of the previous fiscal year. The tax collection has increased by 9.2% YoY, but fell short of first quarter target by PKR 56 billion. In

addition to disappointing collection results, the number of income tax filers also fell short of expectations due to which the Government announced a two-month extension in the deadline to file tax returns for FY18.

During 1QFY19, average Consumer Price Index (CPI) clocked in at 5.6% as compared to 3.4% in SPLY. The jump is even more pronounced in core inflation (up by 7.7% YoY) - a key measure reflecting the underlying inflationary pressures in the economy. Moreover, State Bank of Pakistan (SBP) has adjusted the average inflation (CPI) projections and inflation is now expected to fall in the revised forecast range of 6.5%-7.5% in FY19. This upward revision is due to following factors: (i) Higher than anticipated increase in international Oil Prices (Up 42.32% YoY). (ii) An upward revision in domestic gas prices (Up to 143%). (iii) Further increase in regulatory duties on imports (iv) 16.92% YoY depreciation of the PKR against USD.

Therefore to ensure macroeconomic stability, State Bank of Pakistan (SBP) raised the policy rate by 100bps to 8.5% in its monetary policy statement of September 2018.

Agriculture sector growth is expected to remain below its target in FY19 mainly due to the looming water crisis, which is likely to constrain agriculture production. In addition, as per latest information, cotton production is expected to miss its FY19 target of 14.4 million bales by ~4 million bales, which will further hinder agriculture growth.

The large scale manufacturing sector (LSM) which constitutes 80% of total manufacturing and 11% of the overall GDP, exhibited a marginal growth of 0.5% YoY during the first month of FY19, yet it decently grew by 6.99% MoM. The major sectors that showed growth included electronics (11.74%), engineering products (13.18%), automobiles (9.75%), and rubber products (8.31%).

On the other hand, the LSM sectors that showed negative growth were wood products (55.64% YoY), pharmaceuticals (10.80% YoY), fertilizers (6.81% YoY), and iron and steel products (2.77% YoY).

In our view, PKR-USD depreciation of 19.89% in 9MCY18 will relieve some pressure on the Current Account. Furthermore, a possible bailout by the IMF, financial assistance from friendly countries (China, UAE) with expected improvement in remittances from overseas Pakistanis may provide a much needed breather to the external account.

Lastly, CPEC investments will continue to play a major role in attracting investment in Pakistan and provide support to the deteriorating external account. Furthermore, the circular debt situation in the power sector has again reached alarming levels and concrete steps are required. However, given the limited fiscal space, any one-off settlement seems unlikely. Overall, clarity about the economic policies and reforms of the Current government will remain a key determinant of macro performance.

EQUITY MARKET REVIEW

During 1QFY19, KSE-100 index started the fiscal year at 41,910 points and ended the period at 40,999, exhibiting a decline of 2.18%. Gains seen in the first week after elections (+5%) have reversed in the last two months of 1QFY19. This decline can be largely attributed to faltering investor confidence stemming from lack of policy clarity (Increase in gas prices and budgetary amendments regarding tax filers) and growing economic concerns (BOP, currency movement) which worsened SBP's forex reserves that fell below US\$10bn (Two-month import cover). Owing to this, Moody's downgraded outlook on Pakistan to negative and continuous foreign selling from emerging market (US \$189mn net outflow from the Pakistani stock market) resulted in reduced trading volumes.

Moving ahead, we believe that drastic and unprecedented economic reforms are on the cards under the Incumbent government. Austerity measures (curb in PSDP and unproductive spending),

strict steps against rampant corruption, call for across the board accountability, radical efforts to expand the tax base and focus on addressing core issues (health, education, justice, and unemployment) will determine the overall performance of the economy and the direction of equity markets. Furthermore, sector specific policies such as those for cements (Dam, PSDP), autos (interest rate, auto policy), fertilizer (subsidy), and steel (import duties) among others, will set the tone of the market. Recovering of wealth parked abroad and the role of overseas Pakistanis will remain a key component of government policy.

These above reforms announced by current government were unprecedented in political history of Pakistan and likely to slow down the economic growth in FY19. However, development on reforms will have positive impact in the long term.

The increasing level of inflation is expected to warrant further hikes in discount rates, where we expect another hike of 100bps in the upcoming Monetary Policy Statement (MPS). We believe this will have a negative impact on the market as investors will realign their portfolios from equity market to debt market for higher yield. However, the KSE-100 index currently trades at a forward PE of ~6.94x with a dividend yield of 7.09%, which offers a significant discount compared to MSCI Emerging Markets Index and regional economies.

MONEY MARKET REVIEW

During 1QFY19, The State Bank of Pakistan (SBP) carried out 7 T-bills auctions where the government managed to raise PKR 4.61 trillion. During this period, weighted average yield on 3, and 6 months T-bills were at 7.60% and 7.85% respectively up from 5.84% and 5.88% during the corresponding period last year.

SBP conducted auctions of PIBs and managed to raise PKR 20.59 billion during 1QFY19. The PIBs auction maintained an upward trend where weighted average maturities yield on 5-year PIB increased to 9.25%, up from 6.89% in the corresponding period of last year.

The Government announced Monetary Policy Statement on September 29, 2018, where the committee decided to change the policy rate by 100bps to 8.5%. State Bank of Pakistan conducted 15 open market operations (OMOs) of different maturities and injected average amount of PKR 855.06 billion per OMO at an average cut-off yield of 7.43%.

State Bank of Pakistan (SBP) will raise Rs 4.9 trillion by sale of three to 20-year Pakistan Investment Bonds (PIBs) and three to 12-month treasury bills during 2QFY19 to pay back the maturing debt of Rs 4.44 trillion. In addition, SBP will raise another Rs 150 billion through the auction of 10-year PIBs at a floating rate.

FUTURE OUTLOOK

Overall, we believe that the economic outlook for FY19 remains challenging. Real growth is expected to slow down its momentum as average inflation is expected to remain above its target due to recent PKR depreciation. It is also likely that an IMF program with stringent conditions will remain a major issue to deal with for the current Government. Current account deficit remains a grave concern and needs urgent remedial measures to boost foreign inflow and control unproductive imports. Key risks can stem from any increase in international oil prices and uncertainty in emerging market. There is hope that Overseas Pakistanis might support the incumbent government and increasing remittances will provide some respite. Pakistan has managed to get US\$6bn support package from Saudi Arabia. The support package comprises i) US\$3bn for balance of payment support and ii) deferred payment facility up to US\$3bn for oil imports. Aforementioned financial assistance from KSA will ease pressure to some extent pertaining to the external account in the near term. The impact of measures being announced by the Government is yet to be seen and will majorly influence any possible improvement in the economy.

Continuous surge rise in oil price and aggressive stance on interest rates in upcoming monetary policy meeting will keep the market heavy weighted sectors (Banks, Exploration & Production) in the limelight.

We believe a significant reversal in equity market will be more dependent on liquidity rather than valuations (The KSE-100 Index trading at a Price-to-earnings (P/E) and Dividend Yield (DY) of 6.94x and 7.09% respectively as compared to Emerging Market P/E and DY of 13.32x and 2.70% respectively).

On the fixed income side, the rapid surge in interest rates has made the situation severe. Yields on 6 Month T-Bills have surged from under 6% in 2017 to around 9% currently and are likely to be in double digits by the end of 2018. Therefore, equity markets will have to offer more to entice investors as competing asset classes (Pakistan Investment Bonds, Income Funds, National Saving Certificates and Bank Deposit) are beginning to offer attractive yields.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) FOR THE FIRST QUARTER ENDED SEPTEMBER 30, 2018

1 LEGAL STATUS AND NATURE OF BUSINESS

AKD Cash Fund (the Fund) was established under a Trust Deed executed between AKD Investment Management Limited (AKDIML) as the Management Company and Central Depository Company of Pakistan Limited (CDC) as the Trustee. The Securities and Exchange Commission of Pakistan (SECP) authorized constitution of the Trust Deed on August 15, 2011 in accordance with the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (NBFC Rules). The Initial Public Offering (IPO) of the Fund was made during the period from January 19, 2012 to January 20, 2012. The Fund commenced operations from January 21, 2012. In accordance with the Trust Deed, the first accounting period of the Fund commenced on the date on which the Fund property was first transferred to the Trustee i.e. January 19, 2012.

The Management Company of the Fund has been licensed to act as an Asset Management Company under the NBFC Rules through a certificate of registration issued by the SECP. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block 8, Clifton, Karachi in the province of Sindh.

The Fund is an open ended mutual fund and is listed on the Pakistan Stock Exchange Limited. Units are offered for public subscription on a continuous basis. The units are transferable and can also be redeemed by surrendering to the Fund.

The principal activity of the Fund is to make investments in market treasury bills and bank deposits. Title of the assets of the Fund are held in the name of Central Depository Company of Pakistan Limited as Trustee of the Fund. The Fund is classified as a "Money Market Fund".

The Pakistan Credit Rating Agency Limited (PACRA) has assigned Asset Manager Rating of 'AM3++' to the Management Company dated August 10, 2018. PACRA has also assigned fund stability rating of "AA+(f)" to the fund dated June 30, 2018.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and
- the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and the requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the

requirements of the Trust Deed differ from the IFRS standards, the provisions of and directives issued under the Companies Act, 2017, part VIII A of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed have been followed.

These condensed interim financial statements are unaudited.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted for the preparation of these condensed interim financial statements are the same as those applied in the preparation of the published financial statements of the Fund for the year ended June 30, 2018 except the following.

During the current period IFRS-9 became applicable, according to the standard, all equity investments are to be measured at fair value in the statement of financial position with value change recognized in profit or loss. Standard also retains an option in respect of equity investments (other than held for trading) for which the entity may elect to report value change in 'other comprehensive income'. For the purpose of measurement of debt instruments, SECP vide its letter to MUFAP dated November 21, 2017 relaxed the applicability of IFRS-9 impairment requirements for debt securities on mutual funds and deferred it till further instructions. As at June 30, 2018 and September 30, 2018 all the investment of the Fund were classified in 'Financial assets at fair value through profit or loss'.

		742	759

- 7.1** The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) with effect from June 13, 2013. As the asset management services rendered by the Management Company of the Fund were already subject to provincial sales tax on services levied by the Sindh Revenue Board, which is being charged to the Fund, the Management Company was of the view that further levy of FED was not justified.

On September 4, 2013, a Constitutional Petition was filed in the Honourable Sindh High Court (SHC) jointly by various asset management companies, together with their representative Collective Investment Schemes through their trustees, challenging the levy of FED.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

In view of the above, the Fund discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution the provision for FED made till September 30, 2018 amounting to Rs 0.67 million (2018: Rs 0.67 million) is being retained in the financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been recorded in the financial statements of the Fund, the net asset value of the Fund as at September 30, 2018 would have been higher by Re 0.2191 per unit (2018: Re 0.2155 per unit).

- 7.2** The Management Company has charged remuneration at the rate of 0.4% per annum of the average daily Net Assets. The remuneration is paid to the Management Company on a monthly basis in arrears.
- 7.3** During the period, Sindh Sales Tax on management remuneration has been charged at the rate of 13% (2018: 13%).

AKD Cash Fund - Quarterly Report September 2018

- 7.4** In accordance with the provisions of the NBFC Regulations (as amended vide S.R.O 1160(I) / 2015 dated November 25, 2015), the Management Company of the Fund is entitled to reimbursement of fees and expenses in relation to registrar services, accounting, operation and valuation services related to the Fund up to a maximum of 0.1% of the average annual net assets of the Scheme or actual, whichever is less. Accordingly, the Management Company has charged expenses at the rate of 0.1% per annum of the average annual net assets of the Fund being lower than actual expenses chargeable to the Fund for the year.

	858	821

- 10.1** As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, was required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by the MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments but were pass through investment vehicles and did not employ workers. The SRB held that mutual funds were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act. Thereafter, MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on CISs/mutual funds, MUFAP recommended that, as a matter of abundant caution, provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the SWWF Act (i.e. starting from May 21, 2015).

In the repealed Companies Ordinance, 1984 and the now applicable Companies Act, 2017, mutual funds have not been included in the definition of "financial institutions". The MUFAP has held the view that SWWF is applicable on asset management companies and not on mutual funds.

Had the provision for SWWF not been recorded in the financial statements of the Fund for the period from May 21, 2015 to September 30, 2018, the net asset value of the Fund as at September 30, 2018 would have been higher by Re 0.13 per unit (2018: Rs 0.12 per unit).

11 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments as at September 30, 2018 and June 30, 2018.

12 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unitholders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2019 to the unit holders in the manner as explained above, no provision for taxation has been made in these financial statements during the period.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

14 TOTAL EXPENSE RATIO

The Total Expense Ratio (TER) of the Fund as at September 30, 2018 is 1.39% (annualised) which includes 0.27% (annualised) representing government levies on the Fund such as sales taxes, annual fee payable to the SECP, etc. This ratio is within the maximum limit of 2% prescribed under the NBFC Regulations.

15 TRANSACTIONS WITH RELATED PARTIES / CONNECTED PERSONS

Related parties / connected persons of the Fund include AKD Investment Management Limited (being the Management Company) and its related entities, Central Depository Company of Pakistan Limited (being the Trustee of the Fund), other collective investment schemes managed by the Management Company, any entity in which the Management Company, its CISs or their connected persons have material interest, any person or trust beneficially owning (directly or indirectly) ten percent or more of the capital of the Management Company or the net assets of the Fund, directors and key management personnel of the Management Company.

Transactions with related parties / connected persons are in the normal course of business, at contracted rates and terms determined in accordance with market rates.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provisions of the NBFC Regulations and the Trust Deed respectively.

The details of transactions carried out by the Fund with related parties / connected persons and balances with them are as follows:

16 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets are based on the quoted market prices at the close of trading on the period end date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets, including their levels in the fair value hierarchy.
