**AKD Islamic Stock Fund (AKDISSF)**

For the FY20, the return of AKD Islamic Stock Fund stood at -14.05% compared to the benchmark KMI-30 Index return of 1.62%.

**MACRO PERSPECTIVE**

Stringent measures adopted by the PTI led government during its initial two years cultivated fruits during FY20 as both the Fiscal and Current Account Deficits were restricted to 8.1% and 1.1% of Gross Domestic

Product (GDP) respectively, as compared to 8.9 % and 4.8% in FY19. Improvement in former can be attributed to austerity measures taken by the government while latter improved on the back of a decrease in balance of trade and improvement in remittances during the period. However, the government's precautionary approach to COVID19 led to a country wide lockdown which brought almost all economic activities to a halt, resulting in a decline in GDP by 0.38% YoY.

The Current Account Deficit (CAD) for FY20 stood at \$2.97 billion (1.1% of GDP) as compared to \$13.43 billion (4.8% of GDP) in the same period last year (SPLY), exhibiting a decline of 77.89% YoY. This improved performance is attributed to decrease in the imports of goods by 18.22% YoY to \$42.42 billion from \$51.87 billion, along with an increase in remittances of 6.35% YoY to \$23.12 billion. However, due to the shutdown in export destinations coupled with lockdowns in Pakistan amid spread of COVID-19 pandemic, exports of goods remained depressed and declined by 7.21% YoY to \$22.51 billion from \$24.26 billion, SPLY. Foreign Direct Investment (FDI) registered a growth of 88.03% YoY to \$2.56 billion which helped the Central Bank in building country's Foreign Exchange Reserves up by \$4.40 billion to \$18.89 billion.

On fiscal front, the Federal Board of Revenue (FBR) managed to collect around PKR 3.998 trillion during FY20, i.e. PKR 89 billion above its revised target of PKR 3.908 trillion, as compared to PKR 3.83 trillion in the same period last year. The tax collection remained below the initial target of PKR 5.55 trillion (12.6% of GDP), making it difficult for the government to execute development spending. Moreover, the government has set a revenue collection target of PKR 4.96 trillion for FY21, up by 24.16% as compared to FY20 collection, which appears ambitious keeping in view the current economic slowdown despite an encouraging improvement in economic numbers as COVID-19 cases recede.

As per Pakistan Bureau of Statistics (PBS), the average National Consumer Price Index (NCPI) in FY20 was recorded at 10.74% YoY as compared to 6.80% YoY, SPLY. Core Inflation, calculated by excluding food and energy, clocked in at 7.09% YoY and 6.34% YoY for Urban and Rural areas respectively, as compared to 5.10% YoY and 4.08% YoY, SPLY. Following a decrease in the economic activity due to the country-wide lockdown amidst Covid-19, the State Bank of Pakistan (SBP) took an unorthodox step of slashing the policy rate by 625 bps cumulatively to 7.00% from 13.25% in order to revive halted economic activities in the country.

According to the Economic Survey of FY20, the agriculture sector grew by 2.67%YoY. The crops witnessed a positive growth of 2.98% during FY20 mainly due to positive growth of 2.90% YoY in key agricultural crops. Wheat being the most important crop of Rabi, showed growth of 2.5% to reach 24.95 million tons. Rice production increased by 2.9% to 7.41 million tons and Maize production by 6.0% to 7.24 million tons. However, Cotton production declined by 6.9% to 9.18 million bales while the Sugarcane production declined by 0.4% to 66.88 million tons.

The Large Scale Manufacturing (LSM) sector, which constitutes 77.05% of the total Manufacturing and 8.9% of GDP, witnessed a decrease of 10.17% for FY20. During the period under review, major contribution towards the negative growth came from Automobile (Weight: 4.613%), Textile (Weight: 20.92%), Electronics (Weight: 1.96%) and Coke and Petroleum Products (Weight: 5.514%) as the sectors decreased by 43.78%, 10.37%, 34.82% and 20.10% respectively. However, some of the decrease was compensated by positive performance from Fertilizer (Weight: 4.441%), Paper and Board (Weight: 2.314%) and Rubber Products (Weight: 0.262%) which grew by 4.39%, 2.25% and 2.91% respectively during FY20.

Furthermore, Pakistan was able to attract net \$2.56 billion in Foreign Direct Investment (FDI) during FY20, up by 88.03% YoY as compared to \$1.36 billion recorded during FY19 owing to low base effect. This was on the back of a number of reasons including uncertainty of PKR/US, delay in finalization of IMF program, vulnerable twin deficit, downgrading of Pakistan's credit rating by Fitch Ratings in December 2018 and dampened investor confidence. Major increase in FDI came in the Power sector (majorly coal fired power plant) and Communication sector with increase in net inflows by \$1.09 billion (~336% YoY) and \$719.61 million (~1292% YoY) respectively. On the other hand, Personal Services, Beverages, Chemicals, and Transport Equipment-cars, witnessed a cumulative net decrease in FDI of \$346.12 million during FY20. As far as investing countries were concerned, major increase in FDI was witnessed from China, Malta and Norway by \$713.33 million (+60% YoY), \$362.15 million (+30% YoY) and 286.06 million (24% YoY).

During the period under review, the local currency had a volatile year as PKR appreciated by 4.15% during 1QFY20 owing to expected inflows from the International Monetary Fund and multilateral lenders. However, PKR depreciated by 7.74% during 2HFY20 after shutdown of economic activities as provinces announced lockdown to contain the spread of Corona Virus in the country. USD PKR rate closed at PKR 167.86 during FY20 as compared to previous year closing rate PKR 163.75, registering depreciation of 2.45% YoY.

### **EQUITY MARKET REVIEW**

After two years aggregate downward trajectory of 27.20% for FY18 and FY19, the local bourse stayed flat with a disappointing return of 1.53% (-3.1% in dollar terms) during FY20 to close at 34,422 points as compared to last year close of 33,902 points. During 1HFY20, market posted a return of 20.16% owing to improvement in economic numbers; however, it succumbed to selling pressure during 2HFY20 as shutdown of economic activities amid lockdown due to Covid-19 pandemic hit the KSE-100 Index. With the widespread of Covid-19 in the country, market plunged by 28.24% QoQ during 3QFY20. Moreover, timely monetary easing by the Central Bank (cumulative reduction in policy rate by 625bps), and the government's incentive package for the construction sector and business friendly policies for the businesses provided impetus to the local bourse in 4QFY20, and resulted in recouping investors' losses of 3QFY20.

Average daily turnover during FY20 clocked in at 196.53 million shares, up by 26.63%YoY as compared to 155.21 million shares recorded during FY19. Investors' attention shifted towards top tier stocks as ratio of turnover for KSE-100 improved to 68.92% in FY20 as compared to 62.26% SPLY. Average daily traded value improved to PKR 7.22 billion, up by 13.44% as compared to PKR 6.36 billion recorded during FY19. Foreign investors continued to remain the net sellers in the Equity market with net selling of \$284.83 million during FY20, taking the cumulative outflow since FY16 to \$1.86 billion. Banks/DFI and Mutual Funds also offloaded their positions during FY20 with net selling of \$55.40 million and \$50.22 million respectively. Much of the selling was absorbed by Individuals and Insurance Companies with net buying of \$213.23 million and \$127.64 million respectively.

There was major outperformance witnessed in different sectors during FY20 which helped the KSE-100 Index maintain its momentum. Sectors like, Cement, Pharmaceuticals, Food & Personal Care Products, Chemical, Fertilizer and Technology and Communication sector outperformed the benchmark index as market capitalization increased by 33.31%, 56.42%, 10.78%, 12.34%, 7.31% and 35.31% respectively. On the other hand Tobacco, Commercial Banks, Oil and Gas Exploration Companies, Power Generation & Distribution and Textile Composite sector remained the worst performers with a decrease in market capitalization by 40.41%, 16.70%, 14.26%, 19.19% and 8.15% respectively. Total Market Capitalization ratio to GDP has decreased to 15.65% as compared to 18.14% and 24.90% recorded during FY19 and FY18 respectively.

After the outbreak of COVID-19 in the country and the closure of economic activities, the Government of Pakistan (GoP) took some unprecedented steps and skipped imposition of additional new taxes in the Budget FY21. Prior to that GoP had announced a PKR 1.2 trillion relief package including PKR 100 billion exporter refunds, PKR 150 billion deferred interest payments for SMEs, and subsidized electricity for consumers who use less than 300 units of electricity. Moreover, government has expanded the outreach of Prime Minister's "Ehsaas Programme" by increasing the total allocation to PKR 208 billion as compared to PKR 187 billion in FY19. All the steps helped to recuperate investors' confidence due to expected increase in demand.

In terms of valuation, KSE-100 Index closed at forward Price to Earnings Multiple of 6.22x, 50% discount as compared to MSCI Emerging Market P/E of 12.45x and offering a healthy dividend yield of 6.86%. Furthermore, Benchmark index closed at a forward Price to Book Multiple of 0.85x, 40% as compared to MSCI Emerging Market P/B of 1.41x.

### **MONEY MARKET REVIEW**

During FY20, twenty-seven (27) T-Bill auctions were conducted, where the State Bank of Pakistan managed to raise PKR 14.35 trillion cumulatively. Weighted average yield of the 3 months, 6 months, and 12 months period were 12.23%, 12.13%, and 11.98% respectively, as compared to 9.69%, 9.76%, and 6.57% respectively for same period last year. It is pertinent to note however that the yield curve has been on a declining

trend since touching its high of 13.75%, 13.95% and 14.22% for 3 months, 6 months and 12 months T-Bills respectively, depicting an inversion in the yield curve within the short tenure papers as well.

To further address demand for liquidity, the SBP conducted twelve (12) auctions of Pakistan Investment Bonds (PIBs) and was successful in raising PKR 2.07 trillion during FY20 with weighted average yield of the 3 years, 5 years, and 10 years of 11.59%, 11.29%, and 11.18%, as compared to 9.97%, 10.02%, and 10.93% respectively, during the same period last year. It is pertinent to note that bids were accepted in 20 years PIB with the weighted average yield of 11.02%. Moreover, the SBP carried out a fresh issue of the 15 years PIB with a weighted average yield of 12.80%. During 1QFY21, weighted average yields for 3 years, 5 years, 10 years, and 20 years PIBs rose by 37.77 bps, 9.46 bps, 11.9 bps, and 3.98 bps respectively to 8.20%, 8.45%, 8.99%, and 10.55%.

During FY20, the Monetary Policy Committee (MPC) cut the policy rate cumulatively by 525 bps to 7.00% amid the Covid-19 pandemic with an aim to cushion the slowdown in growth rate while maintaining its inflation outlook. The SBP conducted 106 Open Market Operations (OMO) in FY20 of different maturities, in which it injected an average amount of PKR 625.10 billion per OMO at an average cut-off yield of 12.36%, and mopped up an average amount of PKR 202.37 billion per OMO at an average cut-off yield of 11.05%.

As per the auction target calendar for September - November 2020, the SBP targets to raise PKR 420 billion by issuing 3 -20 years Fixed Rate PIBs and PKR 2.35 trillion by issuing 3 -12-months T-Bills to pay back the maturing debt of PKR 3.12 trillion. In addition, SBP targets to raise another PKR 660 billion through the auction of a 3 - 10 years Floating Rate PIBs.

The Board will also like to thank the investors for their confidence in the Company.

### **FUTURE OUTLOOK**

During 2MFY21, Current Account balance witnessed a surplus of \$805 million. Turnaround in the situation can be attributed to an increase in remittances on the back of hindrance over informal channel owing to closure of air travel and lockdown. Going forward, textile exports are expected to increase owing to various incentives offered to the sector in the form of low energy tariff which will provide further cushion to the Current Account balance. Resultantly, pressure on the Current Account will lessen the chances of any ad-hoc devaluations, however, gradual devaluation of ~5% cannot be ruled out.

After Torrential Rain and floods in Karachi, The Prime Minister announced a historic PKR1.1 trillion development package to transform Karachi in the next 3 years to tackle the city's civic issues and includes key projects relating to cleaning of drains, sewerage treatment and disposal, water supply, roads, and mass transit. The breakup of the package includes: 1) Water supply of PKR 92 billion 2) Solid Waste Management, storm water drains clearance and resettlement projects of PKR 267 billion 3) Sewage treatment plans of PKR 141 billion, 4) Road Projects of PKR 41 billion and 5) mass transit including rail and road of PKR 572 billion. The announced Package along with Construction Package announced at start of 4th quarter will bode well for the economy. Primary beneficiaries of the announced package will be the cement and steel sectors.

As per the World Health Organization (WHO) briefing, Pakistan is among the top five Countries which have taken successful and effective measures combating the Covid-19 pandemic in a timely manner. WHO Director-General Dr. Tedros Adhanom Ghebreyesus in a recent press briefing remarked that Pakistan has used the infrastructure it developed in its fight against polio to tackle COVID-19. Pakistan has seen a steady decline in the number of positive cases in the past few weeks after which the government lifted most of the country's remaining corona virus restrictions. By mid of September, Pakistan recovery percentage stood at 96% with total recoveries and confirmed cases of 289,806 and 302,020 respectively. Daily Infection ratio has also been decreasing where current active cases stood at 5,831.

Due to increasing concern over ballooning circular Debt, Government of Pakistan has been in talks with Independent Power Producers (IPPs) to re-negotiate the contractual terms of their respective power purchase agreements. In a more encouraging development followed by an "in-principal/MoU" understanding, many IPPs have agreed to revise down their capacity payments and share efficiency gains above the benchmark tariff efficiency levels. Moreover, IPPs have also agreed to convert their contract to "Take and Pay basis" from "Take or Pay" after development of Competitive trading agreement. Such extraordinary reforms in the power sector will limit the increase of circular debt and increase the efficiency of energy chain in the country. It is further pertinent to note that the key issue of outstanding dues has also been addressed in the same principle agreement in which the government would pay all dues.

The Supreme Court (SC) of Pakistan announced its verdict for the long awaited decision of Gas Infrastructure Cess (GIDC). The SC decision was in favor of the Government and Industries were thereby directed to pay the whole amount due till July 31st, 2020 within 24 months of the date. SC also restrained the government from charging any further GIDC until the amount collected till date is spent on projects as defined in the GIDC Act, 2015. While the SC had ruled in favor of the Government there remained contentious issues as far as industries were concerned including applicability of this decision on exporters and more importantly the timeline provided by the SC to ensure receipt of all dues. In this connection, the Government for example, rejected the request of fertilizer manufacturer to extend the deadline to 10 years. Fertilizer manufacturers have warned about increasing the urea price by PKR 100/bag and PKR 500/bag depending upon the installment time of 2 year and 10 years respectively. Moreover, any increase in the urea prices can exert a potentially high inflationary pressure on the food inflation of the country. The recent developments and the verdict of the decision will put the sector under limelight during the upcoming year.

With a significant reduction in the interest rates, and the overall slowdown in the economy, Pakistan's equity market has become attractive for many investors and thus managed to attract liquidity where all other asset classes were selectively unable to excite fresh liquidity during the initial widespread of the Covid-19 pandemic. With that, PSX may continue to attract further liquidity compared to other asset classes through mutual funds and insurance companies. Foreign interest has rejuvenated where FIPI has witnessed inflow of USD 6.85mn during the month of August where we remain optimistic about future inflows due to our current PKR/USD parity and interest rate scenarios globally.

During FY21, output of major crops is likely to decrease due to the locust attacks and seasonal rains. Industrial sector is expected to resume growth after two years of a consecutive decline (FY19-20) contributing positively to our expected real GDP growth of 2.0% for FY21, as per State Bank of Pakistan. We expect that the current negative interest rate regime will be helpful in providing soft financing to the corporate sector. Moreover, the Real Effective Exchange Rate (REER) of 93.02 implies stable Dollar parity, and a very low probability of further Rupee depreciation.

On the Fixed Income Front, Recent 625bps decrease in interest rates has provided stimulus to the economy. The State Bank of Pakistan expects country's core inflation to hover between 7 to 9 percent during FY21. The current negative real interest rates cannot be sustainable for long considering the country under an International Monetary Fund program. Moreover, negative real interest rates also pose risk to flight of capital, resulting in devaluation of the currency. We expect the SBP to opt for contractionary monetary policy during 2HFY21.

Equity benchmarks are likely to remain in the bull-run trajectory in the medium run with liquidity being the pivotal driving force while also gaining assistance from potential shift towards heavy weight sectors like Banks and E&Ps where valuations appear to be stretched elsewhere. Future expected growth in corporate earnings due to recently announced packaged will justify upward re-rating Price to Earning of Benchmark KSE-100 index which is currently trading at a forward Price to Earnings Multiple of 7.49x (September 16, 2020).

# INDEPENDENT AUDITORS' REVIEW REPORT

**TO THE MEMBERS' OF AKD INVESTMENT MANAGEMENT LIMITED**

**Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019**

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **AKD INVESTMENT MANAGEMENT COMPANY** (the Company) for and on behalf of its Funds (the AKD Funds) for the year ended June 30, 2020 in accordance with the requirements of Regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the AKD Fund's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the AMC to comply with the Regulations.

As a part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2020.

**MACRO PERSPECTIVE**

Stringent measures adopted by the PTI led government during its initial two years cultivated fruits during FY20 as both the Fiscal and Current Account Deficits were restricted to 8.1% and 1.1% of Gross Domestic Product (GDP) respectively, as compared to 8.9 % and 4.8% in FY19. Improvement in former can be attributed to austerity measures taken by the government while latter improved on the back of a decrease in balance of trade and improvement in remittances during the period. However, the government's precautionary approach to COVID19 led to a country wide lockdown which brought almost all economic activities to a halt, resulting in a decline in GDP by 0.38% YoY.

The Current Account Deficit (CAD) for FY20 stood at \$2.97 billion (1.1% of GDP) as compared to \$13.43 billion (4.8% of GDP) in the same period last year (SPLY), exhibiting a decline of 77.89% YoY. This improved performance is attributed to decrease in the imports of goods by 18.22% YoY to \$42.42 billion from \$51.87 billion, along with an increase in remittances of 6.35% YoY to \$23.12 billion. However, due to the shutdown in export destinations coupled with lockdowns in Pakistan amid spread of COVID-19 pandemic, exports of goods remained depressed and declined by 7.21% YoY to \$22.51 billion from \$24.26 billion, SPLY. Foreign Direct Investment (FDI) registered a growth of 88.03% YoY to \$2.56 billion which helped the Central Bank in building country's Foreign Exchange Reserves up by \$4.40 billion to \$18.89 billion.

On fiscal front, the Federal Board of Revenue (FBR) managed to collect around PKR 3.998 trillion during FY20, i.e. PKR 89 billion above its revised target of PKR 3.908 trillion, as compared to PKR 3.83 trillion in the same period last year. The tax collection remained below the initial target of PKR 5.55 trillion (12.6% of GDP), making it difficult for the government to execute development spending. Moreover, the government has set a revenue collection target of PKR 4.96 trillion for FY21, up by 24.16% as compared to FY20 collection, which appears ambitious keeping in view the current economic slowdown despite an encouraging improvement in economic numbers as COVID-19 cases recede.

As per Pakistan Bureau of Statistics (PBS), the average National Consumer Price Index (NCPI) in FY20 was recorded at 10.74% YoY as compared to 6.80% YoY, SPLY. Core Inflation, calculated by excluding food and energy, clocked in at 7.09% YoY and 6.34% YoY for Urban and Rural areas respectively, as compared to 5.10% YoY and 4.08% YoY, SPLY. Following a decrease in the economic activity due to the country-wide lockdown amidst Covid-19, the State Bank of Pakistan (SBP) took an unorthodox step of slashing the policy rate by 625 bps cumulatively to 7.00% from 13.25% in order to revive halted economic activities in the country.

According to the Economic Survey of FY20, the agriculture sector grew by 2.67%YoY. The crops witnessed a positive growth of 2.98% during FY20 mainly due to positive growth of 2.90% YoY in key agricultural crops. Wheat being the most important crop of Rabi, showed growth of 2.5% to reach 24.95 million tons. Rice production increased by 2.9% to 7.41 million tons and Maize production by 6.0% to 7.24 million tons. However, Cotton production declined by 6.9% to 9.18 million bales while the Sugarcane production declined by 0.4% to 66.88 million tons.

The Large Scale Manufacturing (LSM) sector, which constitutes 77.05% of the total Manufacturing and 8.9% of GDP, witnessed a decrease of 10.17% for FY20. During the period under review, major contribution towards the negative growth came from Automobile (Weight: 4.613%), Textile (Weight: 20.92%), Electronics (Weight: 1.96%) and Coke and Petroleum Products (Weight: 5.514%) as the sectors decreased by 43.78%, 10.37%, 34.82% and 20.10% respectively. However, some of the decrease was compensated by positive performance from Fertilizer (Weight: 4.441%), Paper and Board (Weight: 2.314%) and Rubber Products (Weight: 0.262%) which grew by 4.39%, 2.25% and 2.91% respectively during FY20.

Furthermore, Pakistan was able to attract net \$2.56 billion in Foreign Direct Investment (FDI) during FY20, up by 88.03% YoY as compared to \$1.36 billion recorded during FY19 owing to low base effect. This was on the back of a number of reasons including uncertainty of PKR/US, delay in finalization of IMF program, vulnerable twin deficit, downgrading of Pakistan's credit rating by Fitch Ratings in December 2018 and dampened investor confidence. Major increase in FDI came in the Power sector (majorly coal fired power plant) and Communication sector with increase in net inflows by \$1.09 billion (~336% YoY) and \$719.61 million (~1292% YoY) respectively. On the other hand, Personal Services, Beverages, Chemicals, and Transport Equipment-cars, witnessed a cumulative net decrease in FDI of \$346.12 million during FY20. As far as investing countries were concerned, major increase in FDI was witnessed from China, Malta and Norway by \$713.33 million (+60% YoY), \$362.15 million (+30% YoY) and 286.06 million (24% YoY).

During the period under review, the local currency had a volatile year as PKR appreciated by 4.15% during 1QFY20 owing to expected inflows from the International Monetary Fund and multilateral lenders. However, PKR depreciated by 7.74% during 2HFY20 after shutdown of economic activities as provinces announced lockdown to contain the spread of Corona Virus in the country. USD PKR rate closed at PKR 167.86 during FY20 as compared to previous year closing rate PKR 163.75, registering depreciation of 2.45% YoY.

### **MONEY MARKET REVIEW**

During FY20, twenty-seven (27) T-Bill auctions were conducted, where the State Bank of Pakistan managed to raise PKR 14.35 trillion cumulatively. Weighted average yield of the 3 months, 6 months, and 12 months period were 12.23%, 12.13%, and 11.98% respectively, as compared to 9.69%, 9.76%, and 6.57% respectively for same period last year. It is pertinent to note however that the yield curve has been on a declining trend since touching its high of 13.75%, 13.95% and 14.22% for 3 months, 6 months and 12 months T-Bills respectively, depicting an inversion in the yield curve within the short tenure papers as well.

To further address demand for liquidity, the SBP conducted twelve (12) auctions of Pakistan Investment Bonds (PIBs) and was successful in raising PKR 2.07 trillion during FY20 with weighted average yield of the 3 years, 5 years, and 10 years of 11.59%, 11.29%, and 11.18%, as compared to 9.97%, 10.02%, and 10.93% respectively, during the same period last year. It is pertinent to note that bids were accepted in 20 years PIB with the weighted average yield of 11.02%. Moreover, the SBP carried out a fresh issue of the 15 years PIB with a weighted average yield of 12.80%. During 1QFY21, weighted average yields for 3 years, 5 years, 10 years, and 20 years PIBs rose by 37.77 bps, 9.46 bps, 11.9 bps, and 3.98 bps respectively to 8.20%, 8.45%, 8.99%, and 10.55%.

During FY20, the Monetary Policy Committee (MPC) cut the policy rate cumulatively by 525 bps to 7.00% amid the Covid-19 pandemic with an aim to cushion the slowdown in growth rate while maintaining its inflation outlook. The SBP conducted 106 Open Market Operations (OMO) in FY20 of different maturities, in which it injected an average amount of PKR 625.10 billion per OMO at an average cut-off yield of 12.36%, and mopped up an average amount of PKR 202.37 billion per OMO at an average cut-off yield of 11.05%.

As per the auction target calendar for September - November 2020, the SBP targets to raise PKR 420 billion by issuing 3 -20 years Fixed Rate PIBs and PKR 2.35 trillion by issuing 3 -12-months T-Bills to pay back the maturing debt of PKR 3.12 trillion. In addition, SBP targets to raise another PKR 660 billion through the auction of a 3 - 10 years Floating Rate PIBs.

**FUTURE OUTLOOK**

During 2MFY21, Current Account balance witnessed a surplus of \$805 million. Turnaround in the situation can be attributed to an increase in remittances on the back of hindrance over informal channel owing to closure of air travel and lockdown. Going forward, textile exports are expected to increase owing to various incentives offered to the sector in the form of low energy tariff which will provide further cushion to the Current Account balance. Resultantly, pressure on the Current Account will lessen the chances of any ad-hoc devaluations, however, gradual devaluation of ~5% cannot be ruled out.

After Torrential Rain and floods in Karachi, The Prime Minister announced a historic PKR1.1 trillion development package to transform Karachi in the next 3 years to tackle the city's civic issues and includes key projects relating to cleaning of drains, sewerage treatment and disposal, water supply, roads, and mass transit. The breakup of the package includes: 1) Water supply of PKR 92 billion 2) Solid Waste Management, storm water drains clearance and resettlement projects of PKR 267 billion 3) Sewage treatment plans of PKR 141 billion, 4) Road Projects of PKR 41 billion and 5) mass transit including rail and road of PKR 572 billion. The announced Package along with Construction Package announced at start of 4th quarter will bode well for the economy. Primary beneficiaries of the announced package will be the cement and steel sectors.

As per the World Health Organization (WHO) briefing, Pakistan is among the top five Countries which have taken successful and effective measures combating the Covid-19 pandemic in a timely manner. WHO Director-General Dr. Tedros Adhanom Ghebreyesus in a recent press briefing remarked that Pakistan has used the infrastructure it developed in its fight against polio to tackle COVID-19. Pakistan has seen a steady decline in the number of positive cases in the past few weeks after which the government lifted most of the country's remaining corona virus restrictions. By mid of September, Pakistan recovery percentage stood at 96% with total recoveries and confirmed cases of 289,806 and 302,020 respectively. Daily Infection ratio has also been decreasing where current active cases stood at 5,831.

Due to increasing concern over ballooning circular Debt, Government of Pakistan has been in talks with Independent Power Producers (IPPs) to re-negotiate the contractual terms of their respective power purchase agreements. In a more encouraging development followed by an "in-principal/MoU" understanding, many IPPs have agreed to revise down their capacity payments and share efficiency gains above the benchmark tariff efficiency levels. Moreover, IPPs have also agreed to convert their contract to "Take and Pay basis" from "Take or Pay" after development of Competitive trading agreement. Such extraordinary reforms in the power sector will limit the increase of circular debt and increase the efficiency of energy chain in the country. It is further pertinent to note that the key issue of outstanding dues has also been addressed in the same principle agreement in which the government would pay all dues.

The Supreme Court (SC) of Pakistan announced its verdict for the long awaited decision of Gas Infrastructure Cess (GIDC). The SC decision was in favor of the Government and Industries were thereby directed to pay the whole amount due till July 31st, 2020 within 24 months of the date. SC also restrained the government from charging any further GIDC until the amount collected till date is spent on projects as defined in the GIDC Act, 2015. While the SC had ruled in favor of the Government there remained contentious issues as far as industries were concerned including applicability of this decision on exporters and more importantly the timeline provided by the SC to ensure receipt of all dues. In this connection, the Government for example, rejected the request of fertilizer manufacturer to extend the deadline to 10 years. Fertilizer manufacturers have warned about increasing the urea price by PKR 100/bag and PKR 500/bag depending upon the installment time of 2 year and 10 years respectively. Moreover, any increase in the urea prices can exert a potentially high inflationary pressure on the food inflation of the country. The recent developments and the verdict of the decision will put the sector under limelight during the upcoming year.

With a significant reduction in the interest rates, and the overall slowdown in the economy, Pakistan's equity market has become attractive for many investors and thus managed to attract liquidity where all other asset classes were selectively unable to excite fresh liquidity during the initial widespread of the Covid-19 pandemic. With that, PSX may continue to attract further liquidity compared to other asset classes through mutual funds and insurance companies. Foreign interest has rejuvenated where FIPI has witnessed inflow of USD 6.85mn during the month of August where we remain optimistic about future inflows due to our current PKR/USD parity and interest rate scenarios globally.

During FY21, output of major crops is likely to decrease due to the locust attacks and seasonal rains. Industrial sector is expected to resume growth after two years of a consecutive decline (FY19-20)

contributing positively to our expected real GDP growth of 2.0% for FY21, as per State Bank of Pakistan. We expect that the current negative interest rate regime will be helpful in providing soft financing to the corporate sector. Moreover, the Real Effective Exchange Rate (REER) of 93.02 implies stable Dollar parity, and a very low probability of further Rupee depreciation.

On the Fixed Income Front, Recent 625bps decrease in interest rates has provided stimulus to the economy. The State Bank of Pakistan expects country's core inflation to hover between 7 to 9 percent during FY21. The current negative real interest rates cannot be sustainable for long considering the country under an International Monetary Fund program. Moreover, negative real interest rates also pose risk to flight of capital, resulting in devaluation of the currency. We expect the SBP to opt for contractionary monetary policy during 2HFY21.

Equity benchmarks are likely to remain in the bull-run trajectory in the medium run with liquidity being the pivotal driving force while also gaining assistance from potential shift towards heavy weight sectors like Banks and E&Ps where valuations appear to be stretched elsewhere. Future expected growth in corporate earnings due to recently announced packaged will justify upward re-rating Price to Earning of Benchmark KSE-100 index which is currently trading at a forward Price to Earnings Multiple of 7.49x (September 16, 2020).

## REPORT OF THE SHARIAH ADVISOR

September 15, 2020

The purpose of this report is to provide an opinion on the Shariah Compliance of the Fund's investment and operational activities with respect to Shariah guidelines provided.

It is the core responsibility of the Management Company to operate the Fund and invest the amount of money in such a manner which is in compliance with the Shariah principles as laid out in the Shariah guidelines.

In the capacity of the Shariah Advisor, our responsibility lies in providing Shariah guidelines and ensuring compliance with the same by review of activities of the fund. We express our opinion based on the review of the information, provided by the management company, to an extent where compliance with the Shariah guidelines can be objectively verified.

Our review of Fund's activities is limited to enquiries of the personnel of Management Company and various documents prepared and provided by the management company.

Keeping in view the above; we certify that:

We have reviewed all the investment and operational activities of the fund including all transactions and found them to comply with the Shariah guidelines. On the basis of information provided by the management company, all operations of the fund for the year ended June 30, 2020 comply with the provided Shariah guidelines. Therefore, it is resolved that investments in AKD Islamic Income Fund (AKD-IIF) managed by AKD Investments Management Limited are halal and in accordance with Shariah principles.

May Allah (SWT) bless us and forgive our mistakes and accept our sincere efforts in accomplishment of cherished tasks and keep us away from sinful acts.

For and on behalf of Shariah Supervisory Council of Al-Hilal Shariah Advisors (Pvt.) Limited.

# INDEPENDENT AUDITORS' REPORT

**To the unit holders of AKD Islamic Income Fund**

**Report on the Audit of the Financial Statements**

## Opinion

We have audited the financial statements of **AKD Islamic Income Fund** (the Fund), which comprise the statement of assets and liabilities as at June 30, 2020, and the related income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2020, and of its financial performance, cash flows and transactions for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund and Management Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted by the Institute of Chartered Accountants of Pakistan together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key Audit Matter:

Key audit matter	How the matter was addressed in our audit
<p><b>Valuation and existence of investments at fair value</b></p> <p>As disclosed in note 6 to the financial statements, investments amounted to Rs. 47.911 million as at June 30, 2020.</p> <p>These investments represent a significant item on the statement of assets and liabilities. This is a main driver of the Fund's performance. The Fund invests principally in listed and unlisted sukuk certificates and there is a risk that appropriate quoted prices may not be used to determine fair value.</p> <p>Further, the Fund may have included investments in its financial statements which were not owned by Fund.</p>	<p>We performed the following steps during our audit of investments at fair value:</p> <ul style="list-style-type: none"> <li>● Obtained understanding of relevant controls placed by Management Company applicable to the balances;</li> <li>● independently checked valuations with the prices quoted on Mutual Funds Association of Pakistan (MUFAP);</li> <li>● independently matched securities held by the Fund with the securities appearing in the Central Depository Company account to verify existence;</li> <li>● performed purchases and sales testing on a sample of trades made during the year regarding movement of the securities;</li> <li>● any differences identified during our testing that were over our acceptable threshold were investigated further.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our audit report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have not received this information and therefore cannot report in this regard.

### Responsibilities of Management Company and Those Charged with Governance for the Financial Statements

Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance of the Management Company are responsible for overseeing the Fund's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Those Charged with Governance of Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Those Charges with Governance of Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Nadeem Yousuf Adil.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2020

### 1. LEGAL STATUS AND NATURE OF BUSINESS

AKD Islamic Income Fund (the Fund) was established under a Trust Deed, dated August 30, 2017, executed between AKD Investment Management Limited (AKDIML) as the Management Company and MCB Financial Services Limited (MCBFSL) as the Trustee. The Fund was authorised by the Securities and Exchange Commission of Pakistan (SECP) as a unit trust scheme on May 30, 2017. The initial Public Offering (IPO) of the Fund was made during the period from February 19, 2018 to February 20, 2018 and the Fund commenced operations from February 21, 2018. In accordance with the Trust Deed, the first accounting period of the Fund commenced on the date on which the Fund property was first transferred to the Trustee i.e. February 19, 2018.

The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules, 2003 and has obtained the requisite license from the SECP to undertake Asset Management Services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.

The Fund is an open-ended collective investment scheme and offers units for public subscription on a continuous basis. The units are transferable and can also be redeemed by surrendering to the Fund. The Fund is listed on the Pakistan Stock Exchange Limited.

The Fund is categorised as an open end Shariah Complaint (Islamic) Income Scheme in accordance with Circular 7 of 2009, issued by the Securities and Exchange Commission of Pakistan (SECP). Al-Hilal Shariah Advisors (Private) Limited acts as its Shariah Advisor to ensure that the activities of the Fund are in compliance with the principles of Shariah.

The Management Company has been assigned a quality rating of "AM3++" by Pakistan Credit Rating Agency Limited (PACRA) on February 08, 2020. The Fund has been given stability rating of 'A+(f)' by PACRA on April 24, 2020.

Title to the assets of the Fund are held in the name of MCB Financial Services Limited as Trustee of the Fund.

### 2. BASIS OF PREPARATION

#### 2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of :

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017; and
- Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and requirement of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017, the NBFC Rules, the NBFC Regulation and requirements of the Trust Deed have been followed.

The SECP/Commission through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated November 21, 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Currently, the Asset Management Companies are required to continue to follow the requirements of Circular 33 of 2012 for impairment of debt securities.

#### 2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention, except that certain investments are measured at fair value.

**2.3 Functional and presentation currency**

These financial statements are presented in Pakistani Rupees, which is the Fund's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except stated otherwise.

**2.4 Critical accounting estimates and judgments**

The preparation of the financial statements in conformity with the approved accounting and reporting standards requires the management to make estimates, judgements and assumptions that affect the reported amount of assets, liabilities, income and expenses. It also requires the management to exercise judgement in application of its accounting policies. The estimates, judgements and associated assumptions are based on the historical experience and various other factors that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

Areas involving a higher degree of judgement or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

- (i) Classification and valuation of financial assets (Note 4.1.1 & 6.1); and
- (ii) Impairment of financial assets (Note 4.1.5)
- (iii) Taxation (Note 4.5 & 17)

**3. NEW ACCOUNTING STANDARDS / AMENDMENTS AND IFRS INTERPRETATIONS**

**3.1 New accounting standards / amendments and IFRS interpretations that are effective for the year ended June 30, 2020**

**4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

**4.1 Financial Instruments**

**4.1.1 Classification of financial assets**

IFRS 9 contains three principal classification categories for financial assets:

- Measured at amortized cost ("AC"),
- Fair value through other comprehensive income ("FVOCI") and
- Fair value through profit or loss ("FVTPL").

**Financial assets at amortized cost**

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

**Financial assets at FVOCI**

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in other comprehensive income (OCI), only dividend income is recognised in income statement. This election is made on an investment-by-investment basis.

FVOCI financial assets are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI.

**Financial assets at FVTPL**

All other financial assets are classified at FVTPL (for example: equity held for trading and debt securities not classified either as AC or FVOCI).

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Fund changes its business model for managing financial assets.

**4.1.2 Recognition and initial measurement of financial instruments**

Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### 4.1.3 Subsequent measurement of financial assets

#### Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

#### Financial assets at FVOCI

All financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in other comprehensive income.

For debt instruments classified as financial assets at FVOCI, the amounts in other comprehensive income are reclassified to income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVOCI, where there is no reclassification on derecognition.

#### Financial assets at FVTPL

### 4.1.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

#### Basis of valuation of debt securities

- Debt securities are initially recognise at cost excluding any transaction costs which are charged to profit or loss and subsequently measured at fair value through profit or loss. The fair value of investments is determined by using closing rate of securities at day end available on the MUFAP website.
- Appreciation / diminution arising from changes in fair value of financial assets classified as fair value through profit or loss are recognised Income Statement.

### 4.1.5 Impairment

Under expected credit loss (ECL) model of IFRS 9, the Fund recognises loss allowances for ECLs on financial assets other than debt securities. The Fund measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- Financial assets that are determined to have low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

As disclosed in note 2.1.2 of these financial statements, the Fund follows requirements of circular 33 of 2012 (the "circular") for impairment of debt securities. Under the circular, provision for non performing debt securities is made on the basis of time based criteria as prescribed under the circular. Impairment losses recognised on debt securities can be reversed through the income statement.

As allowed under circular no. 13 of 2009 dated May 04, 2009 issued by the SECP, the Management Company may also make provision against debt securities over and above minimum provision requirement prescribed in aforesaid circular, in accordance with the provisioning policy approved by the Board of Directors and disseminated by the Management Company on its website.

**4.1.6 Classification and measurement of financial liabilities**

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

**4.1.7 Derecognition**

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or where the entity has transferred substantially all risks and rewards of ownership.

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expired.

**4.1.8 Regular way contracts**

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention are recognised at the trade date. Trade date is the date on which the Fund commits to purchase or sell assets.

**4.1.9 Offsetting of financial assets and liabilities**

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Assets and Liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

**4.2 Cash and cash equivalents**

Cash and cash equivalents comprise balances with banks and short-term highly liquid investments with original maturities of three months or less. Cash and cash equivalents are carried in the statement of assets and liabilities at cost.

**4.3 Preliminary expenses and floatation costs**

Preliminary expenses and floatation costs represent expenditure incurred prior to the commencement of operations of the Fund. These costs are being amortised over a period of five years in accordance with the requirements set out in the Trust Deed of the Fund and the NBFC Regulations.

**4.4 Provisions**

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions, if any, are regularly reviewed and adjusted to reflect the current best estimate.

**4.5 Taxation**

The income of the Fund is exempt from income tax under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders as cash dividend.

The Fund is also exempt from the Provisions of Section 113 (minimum tax) and section 113C (Alternative Corporate Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

The Fund does not account for deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing in cash at least 90% of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders.

**4.6 Dividend distribution and appropriations**

Dividend distributions and appropriations are recorded in the period in which these are approved by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines (duly consented by the SECP) distribution for the year is deemed to comprise of the portion of income already paid on units redeemed during the year and cash distribution for the year.

The distribution per unit is announced based on units that were held for the entire period. The rate of distribution is adjusted for the effect of refund of capital, if any, based on the period of investment made during the year. Resultantly the rate of distribution per unit may vary depending on the year of investment.

**4.7 Issue and redemption of units**

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

**4.8 Element of income / (loss) included in prices of units issued less those in units redeemed**

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

**4.9 Net assets value per unit**

The net asset value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net asset of the Fund by the number of units in issue at the year end.

**4.10 Revenue recognition**

- Realised capital gains / (losses) arising on sale of investments are included operating income in the income statement on the date at which the sale transaction takes place.
- Mark-up / return on bank profits and investment in debt securities are recognised on a time proportionate basis using the effective yield method.
- Unrealised gains / (losses) arising on remeasurement of investments classified as 'at fair value through profit or loss' is included in the income statement in the period in which it arises.

**4.11 Expenses**

All expenses including NAV based expenses (namely management fee, trustee fee, annual fee payable to the SECP, and selling and marketing expense) are recognised in the income statement on an accrual basis.

### 13.1 Provision for Sindh Workers' Welfare Fund (SWWF)

As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, was required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by the MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments but were pass through investment vehicles and did not employ workers. The SRB held that mutual funds were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act. Thereafter, MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on CISs/mutual funds, the MUFAP recommended that as a matter of abundant caution provision in respect of SWWF should be made with effect from the date of enactment of the SWWF Act, 2014 (i.e. starting from May 21, 2015).

In view of the above developments regarding the applicability of Federal and Sindh WWF on Mutual Funds, the MUFAP obtained a legal opinion on these matters during financial year ended June 30, 2017. Based on such legal advice (which also stated that even if a review petition is filed by any party, such petition can only be based on very limited grounds and the chances of any major change in the SCP judgement are very limited), MUFAP had recommended to all its members to reverse the Federal WWF and start recording of Sindh WWF. Consequently, the Fund has recorded provision of Rs. 0.572 million (2019: 0.281 million) for the year and Rs. 0.905 million (2019: Rs. 0.333 million) in aggregate in respect of SWWF.

Had the provision for SWWF not been recorded in the financial statements of the Fund, the net asset value of the Fund as at June 30, 2020 would have been higher by Re. 0.153 per unit (2019: 0.074 per unit).

**17. TAXATION**

The Fund's income is exempt from Income Tax as per clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains whether realised or unrealised is distributed to the unit holders in cash. The Fund is also exempt from the provisions of section 113 (Minimum Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. During the year, Fund has distributed cash dividend of at least 90% of the aforementioned accounting income to the unit holders. Accordingly, no provision for taxation has been recognised in these financial statements.

**18. EARNINGS PER UNIT**

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

**19. TOTAL EXPENSE RATIO**

The Total Expense Ratio (TER) of the Fund as at June 30, 2020 is 1.31% (2019: 1.14%) which includes 0.33% (2019: 0.30%) representing government levies on the Fund such as provision for Sindh Workers' Welfare Fund, Sales Taxes, Annual fee to the SECP. This ratio is within the maximum limit of 2.5% (2019: 2.5%) prescribed under the NBFC Regulations for a collective investment scheme categorised as "Shariah Compliant Income Scheme".

**20. TRANSACTIONS WITH RELATED PARTIES / CONNECTED PERSONS**

Related parties / connected persons of the Fund include the Management Company, other collective investment schemes managed by the Management Company, the Trustee, directors and key management personnel, other associated undertakings and unit holders holding more than 10% units of the Fund.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provision of the NBFC Regulations 2008 and Constitutive documents of the Fund.

The transactions with connected persons / related parties are in the normal course of business, and are carried out on agreed terms at contracted rates.

Details of transactions and balances at period end with related parties / connected persons, other than those which have been disclosed elsewhere in these financial statements, are as follows:

## 22. FINANCIAL RISK MANAGEMENT

The Fund's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance.

The Fund's activities expose it to a variety of financial risks: market risk (including currency risk, profit rate and other price risk), credit risk and liquidity risk. Risks of the Fund are being managed by the Management Company in accordance with the approved policies of the investment committee which provides broad guidelines for management of above mentioned risks. The Board of Directors of Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework.

The Fund's financial assets primarily comprise of balances with banks and investment in debt instruments classified at 'fair value through profit or loss'. The Fund also has profit receivable on bank deposit & commercial papers, deposits, prepayments and other receivables. The Fund's principal financial liabilities include remuneration payable to the Management Company, the Trustee and accrued and other liabilities.

### 22.1 Market risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices.

The Management Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Board and regulations laid down by the SECP, the NBFC Regulations and the NBFC Rules.

Market risk comprises of three types of risk: currency risk, profit rate risk and price risk.

#### 22.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. At present, the fund is not exposed to currency risk as all transactions are carried out in Pakistani Rupees.

#### 22.1.2 Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market profit rates. As of June 30, 2020, the Fund is exposed to such risk on its balances held with banks and investment in sukuk certificates and commercial paper. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

As of June 30, details of Fund's profit bearing financial instruments were as follows:

	<b>Note</b>	<b>2020</b>	<b>2019</b>
		<b>----- (Rupees in '000) -----</b>	
<b>Variable rate instruments (financial asset)</b>			
Balances with banks	5	<b>232,235</b>	178,015
Sukuk certificates- Listed	6.1.1	<b>22,911</b>	31,554
Sukuk certificates- Unlisted	6.1.2	<b>25,000</b>	15,000
		<b>280,146</b>	224,569
<b>Fixed rate instruments (financial asset)</b>			
Commercial papers - Unlisted	6.2	<b>16,775</b>	-

**a) Sensitivity analysis for variable rate instruments**

A change of 100 basis points in profit rates on bank balances and on sukuk certificates at the reporting date would have increased / decreased net income before taxation and total comprehensive income by Rs 2.80 million (2019: Rs 2.25 million) and consequently statement of movement in unit holders' fund would be affected by the same amount. The analysis assumes that all other variables remain constant.

**b) Sensitivity analysis for fixed rate instruments**

A reasonably possible change of 100 basis points in profit rate (i.e. 14.64%) on commercial paper at the reporting date would have increased / decreased the net income before taxation and total comprehensive income by Rs. 0.168 million (2019: Nil) and consequently statement of movement in unit holders' fund would be affected by the same amount. The analysis assumes that all other variables remain constant.

The composition of the Fund's investment portfolio, KIBOR rates and rates announced by Financial Market Association is expected to change over time. Therefore, the sensitivity analysis prepared as of June 30, 2020 is not necessarily indicative of the effect on the Fund's net assets and net income due to future movements in interest rates.

**Exposure to profit rate risk and maturity**

Profit rate sensitivity position for on balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

### 22.1.3 Price Risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as result of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are cost by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. Since the Fund is not allowed to invest in equity securities, hence it is not exposed to equity price risk.

### 22.2 Credit risk

Credit risk represents the risk of loss if counterparties fail to perform as contracted. The Fund is exposed to counter party credit risks on investments in term finance certificates and sukuk certificates, commercial papers, bank balances and other financial assets at amortised cost. The credit risk on the fund is limited because the counterparties are financial institutions with reasonably high credit ratings.

"The Fund keeps deposits and performs transactions with reputed financial institutions with reasonably high credit ratings. The Fund has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies, where available, and if not available, the Fund uses other publicly available financial information and its own trading records to rate its major customers. The Fund's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Fund's maximum exposure to credit risk is the carrying amounts of following financial assets.

	2020		2019	
	Balance as per statement of assets and liabilities	Maximum exposure	Balance as per statement of assets and liabilities	Maximum exposure
----- (Rupees in '000) -----

	<b>300,675</b>	<b>300,675</b>	227,192	227,192

The analysis below summarises the credit quality of the Fund's financial assets as at June 30, 2020 and June 30, 2019:

			<b>49,261</b>	46,554
<b>Investment in fixed income securities including profit receivable</b>				
K-Electric Limited	VIS	A-1+	17,704	-

Above ratings are on the basis of latest available ratings assigned by PACRA and VIS Credit Rating Company Limited (Formerly JCR-VIS Credit Rating Company Limited) as of June 30, 2020.

Balance with bank is assessed to have low credit risk of default since the banks are highly regulated by the State Bank of Pakistan. Accordingly, management of the Fund estimates that loss allowance on balance with banks at the end of the reporting period at an amount equal to 12 month Expected Credit Loss (ECL). None of the balance with banks at the end of the reporting period is past due, and taking into account the historical default experience and the current credit ratings of the banks, the management of the Fund have assessed that there is no impairment, and hence have not recorded any loss allowance on this balance.

### Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is mainly concentrated in debt securities which are diversified and relate to various sectors. The Fund's portfolio of other financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

**Settlement risk**

"The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed.

**22.3 Liquidity risk**

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to daily cash redemptions, if any, at the option of unit holders. The Fund approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund also has the ability to withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. However, no such instances were witnessed by the Fund during the current year .

The table below analyses the Fund's financial instruments into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

**23. UNIT HOLDERS' FUND RISK MANAGEMENT**

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holders' fund.

The Fund's objective when managing unit holders' fund is to safeguard the Fund's ability to continue as a going concern in order to provide returns for the benefits of the unit holders to maintain a strong base of assets to support the development of the investment activities of the Fund and to meet unexpected losses or opportunities. As required under the NBFC Regulations, every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of scheme. In order to comply with the requirement and to maintain or adjust the Unit Holders' Fund, the Fund's policy is to perform the following:

- Monitor the level of daily issuance and redemptions relative to the liquid assets and adjust the amount of distributions the Fund pays to the unit holders;
- Redeem and issue units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and
- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors of the Management Company is updated regarding key performance indicators, e.g., yield and movement of NAV and total Fund size at the end of each quarter.

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

**24. FAIR VALUE OF FINANCIAL INSTRUMENTS**

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. period end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognized at fair value, based on:

**Level 1:** quoted prices in active markets for identical assets or liabilities;

**Level 2:** those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

**Level 3:** those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The table below provides information on financial assets carried at fair values, by valuation methods.

	<b>As at June 30, 2020</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

During the year ended June 30, 2020, there were no transfers between level 1 and level 2 fair value measurements, and no transfers into and out of level 3 fair value measurements.

**28. GENERAL**

**28.1** Figures have been rounded off to the nearest thousand Rupees.

**28.2** Comparative figures have been reclassified where necessary for better presentation and comparison

**28.3** On March 11, 2020, the World Health Organisation made an assessment that the outbreak of a coronavirus (COVID-19) can be characterised as a pandemic. As a result, businesses have subsequently been affected amongst others with temporary suspension of travel, and closure of recreation and public facilities

To alleviate the negative impact of the COVID-19 pandemic, the Government, Central Banks including financial institutions affiliated to those banks, and regulators have taken measures and issued directives to support businesses, including extensions of deadlines, facilitating continued business through social-distancing and easing pressure on credit and liquidity in the market.

The Management Company has made an assessment in order to evaluate the impact of COVID-19 pandemic over the financial performance of the Fund as well as the going concern assessment. As a result of such assessment, the management has not identified any material adverse impact on its financial performance due to COVID-19 pandemic situation.

**وسیع نقطہ نظر**

ابتدائی دو سالوں میں پی پی پی کی زیر قیادت حکومت کی طرف سے اپنائے گئے سخت اقدامات کا مالی سال 20 کے دوران پھل حاصل کرنا شروع کیا کیونکہ مالی اور کرنٹ اکاؤنٹ خسارے دونوں بالترتیب 8.1 فیصد اور مجموعی مقامی مصنوعات (جی ڈی پی) 1.1 فیصد تک محدود تھے جبکہ مالی سال 19 میں 8.9 فیصد اور 4.8 فیصد تھی۔ اس بہتری کو حکومت کی طرف سے کئے جانے والے سادگی کے اقدامات سے منسوب کیا جاسکتا ہے جبکہ اس عرصے کے دوران تجارت میں توازن میں کمی اور ترسیلات زر میں بہتری کی وجہ سے مزید بہتری آئی ہے۔ تاہم، COVID-19 پر حکومت کی احتیاطی تدابیر کے نتیجے میں ملک بھر میں لاک ڈاؤن کرنا پڑا جس سے تقریباً تمام معاشی سرگرمیاں رک گئیں، جس کے نتیجے میں جی ڈی پی میں 0.38 فیصد تک کی سالانہ کمی واقع ہوئی۔

مالی سال 20 کے لئے کرنٹ اکاؤنٹ خسارہ (سی اے ڈی) گزشتہ سال کی اسی مدت (SPLY) میں 13.43 بلین ڈالر (جی ڈی پی کی 4.8 فیصد) کے مقابلہ میں 2.97 بلین ڈالر (جی ڈی پی کی 1.1 فیصد) رہا، جو سالانہ 77.89 فیصد کم رہا۔ اس بہتر کارکردگی کی وجہ ایشیا کی درآمدات میں 18.22 فیصد سالانہ کمی کے باعث 51.87 بلین ڈالر سے 42.42 بلین ڈالر تک کمی اور اس کے ساتھ ساتھ ترسیلات زر میں 6.35 فیصد سالانہ اضافہ ہے۔ تاہم، COVID-19 وبائی بیماری کے پھیلاؤ کے درمیان برآمد مقامات میں شٹ ڈاؤن کے ساتھ ساتھ پاکستان میں لاک ڈاؤن کی وجہ سے، سامان کی درآمدات 7.21 فیصد سالانہ کم ہو کر 24.26 بلین ڈالر سے 22.51 بلین ڈالر ہو گئی۔ براہ راست غیر ملکی سرمایہ کاری (FDI) میں 88.03 فیصد کے اضافے سے 2.56 بلین ڈالر تک بڑھ گئے جس نے مرکزی بینک کو ملک کے غیر ملکی زرمبادلہ کے ذخائر کی تعمیر میں 4.40 بلین ڈالر اضافے سے 18.89 بلین ڈالر کرنے میں مدد کی ہے۔

مالی ماہ ذریعہ، فیڈرل بورڈ آف ریونیو (FBR) مالی سال 20 کے دوران تقریباً 3.998 ٹریلین روپے جمع کرنے میں کامیاب رہا، یعنی اپنے ترمیم شدہ ہدف 3.908 ٹریلین روپے سے 89 بلین روپے زیادہ، جبکہ پچھلے سال کی اسی مدت میں 3.83 ٹریلین روپے جمع کئے تھے۔ ٹیکس کی وصولی ابتدائی ہدف 5.55 ٹریلین (جی ڈی پی کی 12.66 فیصد) سے بھی کم رہی جس کی وجہ سے حکومت کو ترقیاتی اخراجات پورا کرنا مشکل ہو گیا۔ مزید یہ کہ حکومت نے مالی سال 21 کے لئے 4.96 ٹریلین روپے ریونیو کو ٹیکس کا ہدف مقرر کیا ہے، جو مالی سال 20 کے مقابلے میں 24.16 فیصد زیادہ ہے، جو معاشی تعداد میں حوصلہ افزاء بہتری کے باوجود موجودہ معاشی ست روئی مد نظر رکھتے ہوئے مشکل دکھائی دیتا ہے کیونکہ کوویڈ 19 کے کثیر دو بارہ بڑھتے شروع ہو گئیں۔

پاکستان پیور آف اسٹیکس (PBS) کے مطابق، مالی سال 20 میں اوسطاً پیشکش کنندہ پر انس انڈیکس (NCPI) گزشتہ سالانہ 6.80 فیصد سالانہ کے مقابلے میں 10.74 فیصد سالانہ ریکارڈ کیا گیا۔ خوراک اور توانائی کے علاوہ بنیادی افراط زر، شہری اور دیہی علاقوں کے لئے بالترتیب 7.09 فیصد سالانہ اور 6.34 فیصد سالانہ اضافہ ہوا، جبکہ گزشتہ سال میں 5.10 فیصد سالانہ اور 4.08 فیصد سالانہ تھی۔ کوویڈ-19 کے درمیان ملک بھر میں لاک ڈاؤن کی وجہ سے معاشی سرگرمیوں میں کمی کے بعد، اسٹیٹ بینک آف پاکستان (ایس بی پی) نے ملک میں رکی ہوئی معاشی سرگرمیوں کی بحالی کے لئے پالیسی شرح میں 625bps کمی کرتے ہوئے مجموعی طور پر 13.25 فیصد سے 7.00 فیصد تک کم کرنے کا فیصلہ روایتی اقدام اٹھایا۔

مالی سال 20 کے اقتصادی سروے کے مطابق، زراعت کے شعبے میں 2.67 فیصد سالانہ اضافہ ہوا ہے۔ مالی سال 20 کے دوران فصلوں میں 2.98 فیصد کی مثبت نمو دیکھی گئی، اس کی بنیادی وجہ اہم زرعی فصلوں میں 2.90 فیصد سالانہ کی مثبت نمو ہے۔ گندم ریف کی سب سے اہم فصل ہونے کی وجہ سے، 2.5 فیصد اضافے سے 24.95 بلین ٹن تک پہنچ گئی۔ چاول کی پیداوار میں 2.9 فیصد اضافے سے 7.41 بلین ٹن اور کئی پیداوار 6.0 فیصد اضافے سے 7.24 بلین ٹن ہو گئی۔ تاہم، کپاس کی پیداوار 6.9 فیصد کم ہو کر 9.18 بلین گانٹھوں تک رہی جبکہ گنے کی پیداوار 0.4 فیصد کم ہو کر 66.88 بلین ٹن رہی۔

لارج سیل میٹو پیکچرنگ (LSM) سیکٹر، جوکل میٹو پیکچرنگ کا 77.05 فیصد اور جی ڈی پی کا 8.9 فیصد ہے، جس میں مالی سال 20 میں 10.17 فیصد کمی دیکھی گئی۔ زیر جائزہ مدت کے دوران، منفی نمو میں اہم شراکت آٹوموٹو پائل (ویٹ: 4.613 فیصد)، ٹیکسٹائل (ویٹ: 20.92 فیصد)، الیکٹریٹریٹس (ویٹ: 1.96 فیصد) اور کونسلڈ اور پیٹریولیم مصنوعات (ویٹ: 5.514 فیصد) کی ہوئی سکٹروں میں بالترتیب 43.78 فیصد، 10.37 فیصد، 34.82 فیصد اور 20.10 فیصد کمی واقع ہوئی ہے۔ تاہم، مالی سال 20 کے دوران کچھ کمی کو فریٹلائزر (ویٹ: 4.441 فیصد)، کانڈ اور بورڈ (ویٹ: 2.314 فیصد) اور زرعی مصنوعات (ویٹ: 0.262 فیصد) کی بالترتیب 4.39 فیصد، 2.25 فیصد اور 2.91 فیصد کی مثبت کارکردگی سے پورا کیا گیا۔

مزید برآں، پاکستان مالی سال 20 کے دوران براہ راست غیر ملکی سرمایہ کاری (ایف ڈی آئی) میں 2.56 بلین ڈالر کا اضافہ حاصل کرنے میں کامیاب رہا، جو 88.03 فیصد سالانہ اضافہ ہوا جبکہ مالی سال 19 کے دوران کم جس اثر کی وجہ سے 1.36 بلین ڈالر ریکارڈ ہوئی۔ یہ امریکی ڈالر کے برعکس پاکستانی روپیہ کی غیر یقینی صورتحال، آئی ایم ایف پروگرام کو حتیٰ شکل دینے میں تاخیر، کمزور جزواں خسارے، دسمبر 2018 میں فٹو ریکٹور کی طرف سے پاکستان کے کریڈٹ ریٹنگ میں کمی اور سرمایہ کاروں کے کم اعتماد سمیت متعدد وجوہات کی بنا پر تھا۔ بجلی کے شعبے (بڑے پیمانے پر کوئلے سے چلنے والے بجلی گھر) اور مواصلات کے شعبے میں FDI میں بڑے پیمانے پر اضافہ ہوا جس میں بالترتیب 1.09 بلین ڈالر (336 فیصد سالانہ) اور 719.61 بلین (12929 فیصد سالانہ) کا اضافہ ہوا ہے۔ دوسری جانب، ذاتی خدمات و مشروبات، کیٹیجز اور ٹرانسپورٹ کے آلات - کاروں نے مالی سال 20 کے دوران FDI میں 346.12 بلین ڈالر کی مجموعی خالص کمی دیکھی۔ جہاں تک سرمایہ کاری کرنے والے ممالک کا تعلق ہے تو، FDI میں اہم اضافہ چین، مالٹا اور ناروے سے 713.3313 بلین (+60 فیصد سالانہ)، 362.152 بلین (+30 فیصد سالانہ) اور 286.06 بلین (+24 فیصد سالانہ) دیکھا گیا۔

زیر جائزہ سال کے دوران، مقامی کرنسی سال میں غیر مستحکم رہی کیونکہ بین الاقوامی مالیاتی فنڈ اور کثیرالجہتی قرض دہندگان سے متوقع آمدنی وجہ سے مالی سال 20 کی پہلی سہ ماہی کے دوران پاکستانی روپیہ کی قدر 4.15 فیصد تک بڑھی۔ تاہم، اقتصادی سرگرمیاں بند ہونے کے بعد مالی سال 20 کی دوسری سہ ماہی کے دوران پاکستانی روپیہ کی قدر 7.74 فیصد کم ہوئی کیونکہ صوبوں نے ملک میں گورنر ناواؤزس کے پھیلاؤ پر قابو پانے کے لئے لاک ڈاؤن کا اعلان کیا۔ گزشتہ سال کی اختتامی شرح 163.75 پاکستانی روپے کے مقابلہ میں، مالی سال 20 کے دوران امریکی ڈالر کے برعکس پاکستانی روپیہ کی شرح 167.86 روپے پر بند ہوئی۔

#### ایکویٹی مارکیٹ کا جائزہ

مالی سال 18 اور مالی سال 19 کے لئے دو سالوں کی مجموعی 27.20 فیصد تک نیچے آنے کے بعد، مقامی بورس مالی سال 20 کے دوران 1.53 فیصد (ڈالر کے لحاظ سے 3.1 فیصد) کے مایوس کن ریٹرن کے ساتھ کلیٹ رہا اور 34,422 پوائنٹس پر بند ہوا، جبکہ گزشتہ سال 33,902 پوائنٹس پر بند ہوا تھا۔ مالی سال 20 کی پہلی ششماہی کے دوران، اقتصادی نمبر میں بہتری کی وجہ سے مارکیٹ نے 20.16 فیصد ریٹرن درج کرایا۔ تاہم، مالی سال 20 کی دوسری ششماہی کے دوران، کوویڈ 19 وبائی بیماری کے KSE-100 انڈیکس پر اثرات کے باعث لاک ڈاؤن میں معاشی سرگرمیاں بند ہونے کی وجہ سے فروخت کا دباؤ دوڑ گیا۔ ملک میں کوویڈ 19 پھیلنے پر، مالی سال کی تیسری سہ ماہی کے دوران مارکیٹ میں سہ ماہی بنیاد پر 28.24 فیصد کمی واقع ہوئی۔ مزید یہ کہ سنٹرل بینک کی طرف سے بروقت مانیٹری زمی (پالیسی شرح میں 625bps تک مجموعی طور پر کمی)، اور تعمیراتی شعبے کے لئے حکومت کارمائی ٹیکس اور کاروبار دوسٹانہ پالیسیوں نے مالی سال 20 کی چوتھی سہ ماہی میں مقامی بورس کو محرک فراہم کیا، اور اس کے نتیجے میں مالی سال کی تیسری سہ ماہی کے سرمایہ کاروں کے نقصانات کی بحالی ہوئی۔

مالی سال 20 کے دوران یومیٹرن اور اوور-سٹاپ 196.53 ملین حصص رہا، جو مالی سال 19 کے دوران ریکارڈ 155.21 ملین حصص کے مقابلے میں 26.63 فیصد سالانہ اضافہ ہے۔ مالی سال 20 میں گزشتہ سال کے 62.26 فیصد کے مقابلے KSE-100 کے ٹرن اور کاتاسب 62.26 فیصد بہتر ہونے کے باوجود سرمایہ کاروں کی توجہ اپنی درجے کے اسٹاک کی منتقل ہو گئی۔ اوسط پومیٹری تجارت کی مالیت 7.22 ملین روپے ہوئی، جو مالی سال 19 کے دوران ریکارڈ 6.36 ملین روپے کے مقابلے میں 13.44 فیصد زیادہ ہے۔ غیر ملکی سرمایہ کاروں نے مالی سال 20 کے دوران ایکویٹی مارکیٹ میں 284.83 ملین ڈالر کی خالص فروخت کے ساتھ خالص فروخت کنندگان کی حیثیت برقرار رکھی، جو مالی سال 16 سے مجموعی اخراج سے 1.86 ملین ڈالر تک تھی۔ مالی سال 20 کے دوران ٹیکوں / ڈی ایف آئی اور میڈیٹل فنڈز کی پوزیشن میں بھی کمی آئی جن کی خالص فروخت بالترتیب 55.40 ملین ڈالر اور 50.22 ملین ڈالر ہوئی۔ بالترتیب 213.23 ملین ڈالر اور 127.64 ملین ڈالر کی خالص خریداری کے ساتھ زیادہ تر افراد اور انشورنس کمپنیاں خریدار ہیں۔

مالی سال 20 کے دوران مختلف شعبوں نے بڑی کارکردگی دیکھائی جس نے KSE-100 انڈیکس کو اپنی رفتار برقرار رکھنے میں مدد فراہم کی۔ سینٹ، فارماسیوٹیکلز، فوڈ اینڈ پراسسنگ کیمیکلز، کیمیکلی، فریٹ لائزر اینڈ ٹیکنالوجی اور مواصلات جیسے شعبوں نے بیچ مارک انڈیکس کی بہتر کارکردگی ظاہر کی کیونکہ مارکیٹ کچھلاؤ ترمیم کے دوران 33.31 فیصد، 56.42 فیصد، 10.78 فیصد، 12.34 فیصد، 7.31 فیصد اور 35.31 فیصد بڑھ گئی۔ دوسری طرف تھاباکو، کمرشل بینک، آئل اینڈ گیس ایکسپلوریشن کمپنیاں، بجلی کی پیداوار اور تقسیم اور ٹیکسٹائل کمپوزٹ سیکٹرز نے بالترتیب 40.41 فیصد، 16.70 فیصد، 14.26 فیصد اور 19.19 فیصد اور 8.15 فیصد کی اتر کارکردگی ظاہر کی۔ جی ڈی پی میں مجموعی مارکیٹ کچھلاؤ ترمیم کا تناسب مالی سال 19 اور مالی سال 18 کے دوران بالترتیب 18.14 فیصد اور 24.90 فیصد کے مقابلے میں کم ہو کر 15.65 فیصد رہ گیا ہے۔

ملک میں کوویڈ-19 کے پھیل جانے اور معاشی سرگرمیوں کی بندش کے بعد حکومت پاکستان نے غیر معمولی اقدامات اٹھائے اور مالی سال 21 کے بجٹ میں نئے اضافی ٹیکس عائد نہیں کیے۔ اس سے قبل حکومت پنجاب نے ایک 1.2 ٹریلین روپے کے ریلیف ٹیکسٹ کا اعلان کیا جس میں 100 ملین روپے برآمد کنندگان کو ادائیگی، 150 ملین روپے SMEs کے لئے مؤخر سود کی ادائیگی، اور 300 سے کم پونٹ استعمال کرنے والے صارفین کے لئے اعانتی بجلی کی فراہمی شامل ہے۔ مزید یہ کہ حکومت نے مالی سال 19 میں 187 ملین روپے کے مقابلے میں 208 ملین روپے تک مختص رقم میں اضافہ کر کے وزیراعظم کے "احسان پروگرام" کی رسائی کو وسعت دی ہے۔ طلب میں متوقع اضافے کی بدولت ان تمام اقدامات سے سرمایہ کاروں کا اعتماد بحال ہوا۔

قیمت کے لحاظ سے، KSE-100 انڈیکس 6.22x کی کثیر آمدنی تک اگلی قیمت پر بند ہوا، جو 12.45x کی MSCI امیر جنگ مارکیٹ P/E کے مقابلے میں 50 فیصد ڈس کاؤنٹ ہے اور 6.86 فیصد کی صحت مند منافع پیداوار کی پیش کش کر رہا ہے۔ مزید یہ کہ، 1.41x کی MSCI امیر جنگ مارکیٹ P/B کے مقابلے میں، بیچ مارک انڈیکس 0.85x کی ہگ ٹی پل تک اگلی قیمت پر بند ہوا جو 40 تک زیادہ ہے۔

#### مٹی مارکیٹ کا جائزہ

مالی سال 20 کے دوران سٹاکس (27) ٹی بی ٹیلا میاں منعقد ہوئیں، جس میں اسٹیٹ بینک آف پاکستان نے مجموعی طور پر 14.35 ٹریلین روپے جمع کئے۔ 3 ماہ، 6 ماہ اور 12 ماہ کی اوسط پیداوار بالترتیب 12.23 فیصد، 12.13 فیصد اور 11.98 فیصد تھی جبکہ گزشتہ سال کے اسی عرصے کے لئے بالترتیب 9.69 فیصد، 9.76 فیصد اور 6.57 فیصد تھی۔ تاہم یہ بات قابل ذکر ہے کہ پیداوار میں کمی کی کارخانہ پانا جا رہا ہے چونکہ 3 ماہ، 6 ماہ اور 12 ماہ کے ٹی بلز بالترتیب 13.75 فیصد، 13.95 فیصد اور 14.22 فیصد تک پہنچنے سے مختصر مدت کے کاغذات میں بھی پیداوار کرنے کی نشاندہی ہوتی ہے۔

لیکویٹی کے مسئلے کو مزید حل کرنے کے لئے، اسٹیٹ بینک نے پاکستان انویسٹمنٹ بانڈ (PIBs) کی بارہ (12) نیلامیاں منعقد کیں اور مالی سال 20 کے دوران 2.07 ٹریلین روپے تک بڑھانے میں کامیاب رہا، جس کی اوسط پیداوار 3 سال، 5 سال، اور 10 سال کی بائترتیب 11.59 فیصد، 11.29 فیصد، اور 11.18 فیصد رہی، جبکہ پچھلے سال کے اسی عرصے کے دوران بائترتیب 9.97 فیصد، 10.02 فیصد، اور 10.93 فیصد تھی۔ یہ قابل ذکر ہے کہ 20 سال PIB میں اوسط وزن 11.02 فیصد پیداوار کے ساتھ بولیاں قبول کی گئیں۔ اس کے علاوہ، اسٹیٹ بینک نے 15 سال PIB کا اجراء کیا جس کی اوسط پیداوار 12.80 فیصد ہے۔ مالی سال 21 کی پہلی سہ ماہی کے دوران، 3 سال، 5 سال، 10 سال، اور 20 سال PIBs کی اوسط پیداوار 37.77bps، 9.46bps، 11.9bps اور 3.98bps تک بڑھنے سے بائترتیب 8.20 فیصد، 8.45 فیصد، 8.99 فیصد اور 10.55 فیصد ہو گئی۔

مالی سال 20 کے دوران، مانیٹری پالیسی کمیٹی (ایم پی سی) نے Covid-19 کے دوران افراط زر کی شرح کو برقرار رکھتے ہوئے شرح نمو میں کمی کو روکنے کے مقصد کے ساتھ 525bps کی کمی کر کے 7.00 فیصد کر دیا۔ اسٹیٹ بینک نے مالی سال 20 میں مختلف مچھور ٹیز کے 106 اوپن مارکیٹ آپریشنز (اوامم او) منعقد کئے، جس میں اس نے اوسطاً 12.36 فیصد کٹ آف پیداوار پر پی او ایم او۔ اوسطاً 625.10 بلین روپے کی رقم کی سرمایہ کاری کی، اور 11.05 فیصد کی اوسط کٹ آف پیداوار پر پی او ایم او 202.37 بلین روپے کی اوسط رقم حاصل کی۔

ستمبر تا نومبر 2020 کے لئے نیلامی کے کیلنڈر ہدف کے مطابق، اسٹیٹ بینک نے 3.12 ٹریلین روپے کے مچھورنگ قرض کی ادائیگی کے لئے 3-12 ماہ کے ٹی بلوں کے ذریعے 2.35 ٹریلین روپے اور 3-20 سال کے گلسڈ ریٹ پی آئی بی کے ذریعے 420 بلین روپے جمع کرنے کا ہدف رکھا ہے۔ اس کے علاوہ، اسٹیٹ بینک نے 3 سے 10 سال کی فلوٹنگ شرح کی پی آئی بی نیلامی کے ذریعے مزید 660 بلین روپے جمع کرنے کا ہدف رکھا ہے۔

#### کارپوریٹ اور مالی رپورٹنگ فریم ورک

اظہار تشکر

ڈائریکٹرز سیکورٹیز اینڈ انویسٹمنٹ کمیشن آف پاکستان، وزارت خزانہ، اسٹیٹ بینک آف پاکستان اور پاکستان اسٹاک ایکسچینج کی انتظامیہ کی مسلسل حمایت اور تعاون پر ان کا شکریہ ادا کرتے ہیں۔ بورڈ AKD انویسٹمنٹ مینجمنٹ لمیٹڈ کے عملے اور افسران کی بھرپور کارکردگی کو بھی سراہتے ہیں۔ بورڈ کمپنی پر اعتماد کے لئے سرمایہ کاروں کے بھی شکریہ ادا کرتے ہیں۔

زاویہ نگاہ

مالی سال 21 کے دو ماہ کے دوران، کرنٹ اکاؤنٹ بیلنس میں 805 ملین ڈالر کا سرپلس دیکھنے میں آیا۔ ہوائی سفر کی بندش اور لاک ڈاؤن کی وجہ سے غیر رسمی چینل کی راہ میں رکاوٹ کی پشت پر ترسیلات زر میں اضافہ کی اس صورتحال کے رد و بدل میں اضافے کا سبب قرار دیا جاسکتا ہے۔ آگے بڑھتے ہوئے توقع ہے کہ ٹیکسٹائل برآمدات میں توانائی کے کم نرخوں کی شکل میں اس شعبے کو پیش کی جانے والی مختلف مراعات کی وجہ سے اضافہ ہوگا جس سے کرنٹ اکاؤنٹ کے توازن کو مزید تقویت ملے گی۔ نتیجہ کے طور پر، کرنٹ اکاؤنٹ پر دباؤ کسی بھی اڈاپک کی قدر میں کمی کے امکانات کو کم کر دے گا، تاہم، 5% کی بتدریج کمی کو مسترد نہیں کیا جاسکتا۔

کراچی میں طوفانی بارش اور سیلاب کے بعد، وزیر اعظم نے شہریوں کے مسائل حل کرنے کے لئے آئندہ 3 سالوں میں کراچی کو تبدیل کرنے کے لئے 1.1 ٹریلین روپے کے ایک تاریخی ڈیولپمنٹ پیکیج کا اعلان کیا اور اس میں نالوں کی صفائی، سیوریج ٹریٹمنٹ اور ڈسپوزل، پانی کی فراہمی، سڑکیں، اور بڑے پیمانے پر آمدورفت سے متعلق اہم منصوبے شامل ہیں۔ پیکیج کے بریک اپ میں شامل ہیں: (1) پانی کی فراہمی 92 بلین روپے (2) سالڈ ویسٹ مینجمنٹ، طوفانی پانی کے نالوں کی صفائی اور بحالی کے منصوبے 267 بلین روپے اور (5) ریل اور سڑک سمیت بڑے پیمانے پر آمدورفت 572 بلین روپے۔ چوتھی سہ ماہی کے آغاز پر ہی اعلان کردہ پیکیج اور تعمیراتی پیکیج معیشت کے لئے فائدہ مند ہوگا۔ اعلان کردہ پیکیج سے بنیادی طور پر سیٹ اور اسٹیل کے شعبے مستفید ہوں گے۔

ورلڈ ہیلتھ آرگنائزیشن (ڈبلیو ایچ او) کی بریفنگ کے مطابق، پاکستان ان پانچ ممالک میں شامل ہے جنہوں نے بروقت کوویڈ 19 وبا کی تیاری کا مقابلہ کرنے میں کامیاب اور مندرجہ بالا اقدامات کیے ہیں۔ ڈبلیو ایچ او کے ڈائریکٹر جنرل ڈاکٹر ٹینڈروس ادم گمبریس نے حالیہ پریس بریفنگ میں ریمارکس دیے کہ پاکستان نے کوویڈ 19 پر قابو پانچنے کے لئے پوریوں کے خلاف تیار کردہ بنیادی ڈھانچے کو استعمال کیا ہے۔ پاکستان میں پچھلے چند ہفتوں میں مثبت کیسوں کی تعداد میں مستقل کمی دیکھنے میں آئی ہے جس کے بعد حکومت نے ملک کے بیشتر حصہ میں کوریوٹاؤنز سے متعلق پابندیوں کو ختم کر دیا۔ ستمبر کے وسط تک، پاکستان میں مجموعی طور پر ٹھیک ہونے والوں کے ساتھ بحالی کا تناسب 96 فیصد رہا اور بالترتیب 289,806 اور 302,020 کیسز کی تصدیق ہوئی۔ یومیہ انفیکشن کا تناسب بھی کم ہو رہا ہے جہاں موجودہ فعال کیسز 5,831 ہیں۔

گردشی قرضہ بڑھنے پر زیادہ توشیح کی وجہ سے، حکومت پاکستان آزاد بجلی پروڈیوسرز (آئی پی پی) سے بات چیت کر رہی ہے تاکہ وہ بجلی کی خریداری کے معاہدوں کی شرائط پر نظر ثانی کریں۔ زیادہ حوصلہ افزاء ڈیولپمنٹ "ان پرنسپل/ ایم او" "افہام و تفہیم کے بعد، بہت سے آئی پی پی جیز اپنی صلاحیتیوں کو اپنی صلاحیتوں کو اپنی صلاحیتوں کے ساتھ مارکٹ میں کارکردگی کی سطح سے زیادہ کارکردگی کے حصول میں شریک ہونے پر راضی ہو گئے ہیں۔ مزید یہ کہ، آئی پی پی جیز نے مسابقتی تجارتی معاہدے کی ڈیولپمنٹ کے بعد اپنے معاہدے کو "ٹیک باپے" سے "ٹیک اور پے جیز" میں تبدیل کرنے پر بھی اتفاق کیا ہے۔ بجلی کے شعبے میں اس طرح کی غیر معمولی اصلاحات گردشی قرضوں میں اضافے کو محدود کر دیں گی اور ملک میں انرجی سلسلے کی کارکردگی میں اضافہ ہوگا۔ یہ امر بھی قابل ذکر ہے کہ باہیا جات کے اہم معاملے پر بھی اسی اصولی معاہدے پر توجہ دی گئی ہے جس میں حکومت تمام واجبات ادا کرے گی۔

طویل مدت سے زبرالتوا ایف ایف ایف (GIDC) کے لئے پاکستان کی سپریم کورٹ (ایس سی) نے اپنے فیصلے کا اعلان کیا۔ سپریم کورٹ نے فیصلہ حکومت کے حق میں دیا اور انڈسٹریز کو ہدایت کی گئی کہ وہ آج کی تاریخ سے 31 جولائی 2020 تک تمام رقم 24 ماہ کے اندر ادا کرے۔ ایس سی نے حکومت کو مزید GIDC چارج کرنے سے بھی روک دیا جب تک کہ جمع شدہ رقم آئی سی سی ایکٹ 2015ء میں بیان کردہ منصوبوں پر خرچ نہیں ہو جاتی۔ جبکہ ایس سی نے حکومت کے حق میں فیصلہ دیا، یہاں تک کہ تنازعات کے معاملات ابھی باقی ہیں برآمد کنندگان پر اس فیصلے کا زیادہ اطلاق ہو اور زیادہ اہم بات یہ ہے کہ تمام واجبات کی وصولی کو یقینی بنانے کے لئے سپریم کورٹ نے فراہم کردہ ٹائم لائن کے سلسلے میں، مثال کے طور پر حکومت نے فریٹا نازیمینو پیکر کی آخری تاریخ کو 10 سال تک بڑھانے کی درخواست کو مسترد کر دیا۔ کھادیمینو پیکر نے یورپ کی قیمت میں 100 روپے بیک اور 500 روپے فیویک بالترتیب 2 سال اور 10 سال کی قسط پر مقرر کیا ہے۔ مزید یہ کہ، یورپ کی قیمتوں میں کسی بھی اضافے سے ملک کی فنڈائی افراتر پر ممکن طور پر زیادہ افراتر رکاوٹ باؤ بڑھ سکتا ہے۔ حالیہ چھ مہینوں اور فیصلے آئندہ دو سال کے دوران یہ شعبہ لائٹ لائٹ کے تحت رہے گا۔

سوڈی شرحوں میں نمایاں کمی، اور معیشت میں مجموعی سست روی کے ساتھ، پاکستان کی ایکویٹی مارکیٹ کئی سرمایہ کاروں کے لئے پرکشش بن گئی اور اس طرح لیکویڈیٹی کو اپنی طرف متوجہ کرنے میں کامیاب ہو گئی جہاں دیگر تمام اثاثہ طبقوں کو COVID 19 عالمی وبا کے ابتدائی پھیلاؤ کے دوران لیکویڈیٹی حاصل کرنے میں ناکام رہے تھے۔ اس کے ساتھ، PSX ہائبرڈ زاور انشورنس کمپنیوں کے ذریعہ دیگر اثاثہ کلاسوں کے مقابلے میں مزید لیکویڈیٹی کو راغب کرنا جاری رکھ سکتا ہے۔ غیر ملکی دلچسپی دوبارہ بڑھ گئی جہاں اگست کے مہینے میں FIPI میں 6.85 بلین امریکی ڈالر کی آمدورفت دیکھنے میں آئی ہے، جہاں ہم موجودہ پاکستانی روپیہ/ امریکی ڈالر کی برابری اور عالمی سطح پر شرح سود کے متناظر ناموں کی وجہ سے مستقبل کی آمد کے بارے میں ہر امید ہیں۔

مالی سال 21 کے دوران، نئے یوں کے مملوں اور موسمی بارشوں کی وجہ سے اہم فصلوں کی پیداوار میں کمی کا امکان ہے۔ اسٹیٹ بینک آف پاکستان کے مطابق مالی سال 21 کے لئے ہماری متوقع 2.0% کی ریکل جی ڈی پی نمو کی مثبت شراکت سے صنعتی شعبہ میں متوقع طور پر دو سال (مالی سال 20-19) میں مسلسل کمی کے بعد دوبارہ ترقی کا آغاز ہوگا۔ ہم توقع کرتے ہیں کہ موجودہ منفی شرح سود کو مٹانے کا پورے پیکٹ کو مالی معاونت فراہم کرنے میں معاون ثابت ہوگا۔ مزید یہ کہ، 93.02 کا اصلی مؤثر تبادلہ شرح (REER) کا مطلب ڈالر کی مستحکم برابری، اور روپے کی قدر میں مزید کمی کا بہت کم امکان ہے۔

لکسڈ اگرم حجاز پر، سوڈی حالیہ شرحوں میں 625bps کی کمی نے معیشت کو محرک فراہم کیا ہے۔ اسٹیٹ بینک آف پاکستان کو توقع ہے کہ مالی سال 21 کے دوران ملک کی بنیادی افراتر 7 سے 9 فیصد کے درمیان رہے گی۔ موجودہ منفی حقیقی سوڈی شرحیں بین الاقوامی مالیاتی فنڈ پروگرام کے تحت ملک پر زیادہ روپے پائیکار نہیں ہو سکتی ہیں۔ مزید یہ کہ، منفی حقیقی سوڈی شرحوں سے سرمایہ کی حفاظت کو بھی خطرہ لاحق ہوتا ہے، اور جس کے نتیجے میں کسی قدر میں کمی آتی ہے۔ ہم توقع کرتے ہیں کہ اسٹیٹ بینک پاکستان مالی سال 21 کی دوسری ششماہی کے دوران تنظیمی مالیاتی پالیسی کا انتخاب کرے گا۔

ایکویٹی شیئنگ مارک درمیانی مدت میں تیز رفتاری سے بڑھتے رہنے کا امکان ہے جس میں لیکویڈیٹی ایک اہم محرک ہے جبکہ بینکوں اور E&Ps جیسے اہم شعبوں جہاں قدر کی قیمت کہیں اور بڑھائی جاتی ہے کی طرف مکتدہ تبدیلی سے بھی مدد حاصل کرتی ہے۔ حال ہی میں اعلان کردہ پیکج کی وجہ سے کارپوریٹ آمدنی میں مستقبل کی متوقع نمو شیئنگ مارک KSE-100 انڈیکس کی آمدنی سے زیادہ درجہ بندی کا سبب بنیگی جس کی حالیہ تجارت 7.49% (16 ستمبر 2020) کی کثیر آمدنی تک آگے کی قیمت پر ہے۔
