### **WINDOW RE-TAKAFUL OPERATION**

Takaful, the Islamic alternative to conventional insurance has grown from a regional business to a global one, over the past 5 years. The gross Takaful contributions nearly doubled during this period. The Takaful industry worldwide has enjoyed growth rates between 15% and 20% which is much higher than the worldwide growth observed for conventional insurance.

According to the annual results of 2015, the market share of Takaful by gross contributions in the industry is around 5%. With only three dedicated General Takaful companies present in the industry having a complete monopoly on Takaful for over 7 years, the penetration of Takaful is still limited.

The entrance of the window Takaful operators in Pakistan has continuously been demanding a local Re-Takaful operator because the Takaful Rules place a condition that the Takaful business can only be ceded to the Re-Takaful Operators whereas no such local Re-Takaful operator is available in Pakistan. Due to this condition and absence of any local Re-Takaful operator, many foreign Re-Takaful operators are taking advantage of the current situation and they have entered into the market and got all the business from Pakistan upon their own monopolistic terms and conditions.

In view of this continuous market loss, the PRCL has initiated the exercise to establish a Window Retakaful function in the Company. This plan has been approved by the PRCL Board of Directors in its 118<sup>th</sup> Meeting held on 2<sup>nd</sup> December, 2016. Consequently approval from shareholders has been

obtained in the Extraordinary General Meeting held on 31-12-2016. The rest of the operational steps are actively in process and will hopefully completed by the end of half year.
