CHIEF EXECUTIVE

DIRECTOR

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

1 LEGAL STATUS AND OPERATIONS

Power Holding Limited ("the Company") was incorporated in Pakistan on June 24, 2009, as a private limited company under the Companies Ordinance, 1984 (now Companies Act, 2017). The company is established under the administrative control of Ministry of Energy (Power Division) and is wholly owned by the Government of Pakistan. The registered office of the company is situated at Room # 602, Shaheed-e-Millat Secretariat, Jinnah Avenue, Blue Area, Islamabad. The status of the company was converted from private limited to public limited with effect from April 01, 2019.

The company was incorporated as a result of decision by Ministry of Finance in the meeting held on May 21, 2009 under the Chairmanship of the then Advisor to the Prime Minister on Finance to remove the bank borrowings of the power sector companies (National Transmission and Despatch Company Limited (NTDC), Water and Power Development Authority (WAPDA) and Power Distribution Companies (DISCOs)) alongwith mark-up as a consequence of unpaid subsidies by the Government of Pakistan. The, then Prime Minister of Pakistan also granted approval for the establishment of the company solely for the purpose of facilitation and not to earn profits or undertake any other business. Thus, the company, although public limited, functions as a not for profit entity.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards, as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of :

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 (the 'Act'); and
- Provisions of and directives issued under the Act.

Where provisions of and directives issued under the Act differ from IFRS, the provisions of and directives issued under the Act have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention.

2.3 Functional and presentational currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Pak Rupees, which is the Company's functional and presentational currency.

2.4 Significant accounting estimates

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

The preparation of financial statements in conformity with approved Accounting and Financial Reporting Standard requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, results of which form the basis of making judgment about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which estimates are revised, if the revision affects only that period, or in the period of revision and future periods, if revision affects current period and future periods.

Significant areas requiring the use of management estimates in the financial statements relate to property & equipment and provision for taxation.

a) Property and equipment

The company reviews useful lives and residual value of property and equipment on regular basis. Any change in estimates in future years might effect the carrying amounts of the respective items of property and equipment with a corresponding effect on the depreciation charge and impairment.

b) Impairment of assets

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. Any change in estimates in future years might effect the carrying amounts of the respective assets with a corresponding effect on depreciation/ amortization charge and impairment

c) Provisions

Provisions are recognized when the Company has a present, legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each year end date and adjusted to reflect the current best estimates.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently in the preparation of these financial statements:

3.1 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand, balances with bank that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in values.

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

3.2 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Cost signifies historical cost, directly attributable cost of bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Depreciation

Depreciation is charged to statement of profit or loss applying the reducing balance method at the rates specified in note 5 to these financial statements, so as to write off the cost less residual value of assets over their estimated useful lives. Full month's depreciation is charged in the month of purchase and no depreciation is charged in the month of disposal.

Subsequent costs are included in the asset's carrying amount when it is probable that future economic benefits associated with the item will flow to the Company and the cost of item can be measured reliably. Carrying amount of the replaced asset is derecognized. All other repair and maintenance, if any, is charged to statement of profit or loss during the period. The gain or loss on disposal or retirement of assets represented by the difference between the sale proceeds and the carrying amount of the asset is recognized in statement of profit or loss.

Assets are derecognized when disposed off or when no future economic benefits are expected to flow from its use. Gains or losses on disposal of an item of Property and equipment are determined by comparing the proceeds from disposal with the carrying amount of Property and equipment, and are recognized net within "other income" in statement of profit or loss.

3.3 Impairment

The Company assesses at each statement of financial position date whether there is any indication that assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in statement of profit or loss. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognized for the asset in prior years. Reversal of impairment loss is charged to income.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

3.4 Taxation

Current

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantially enacted at the reporting date.

Deferred

Deferred income tax is provided using the liability method for all temporary differences arising at the statement of financial position date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred income tax assets are recognized for all deductible temporary differences and carry forward of unused tax losses, if any, to the extent that it is probable that taxable profit will be available against which such deductible temporary differences and tax losses can be utilized. Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the statement of financial position date.

3.5 Staff retirement benefits

The Company does not operate any staff retirement scheme for its employees. All the employees of the company are contractual and/or hired on contingent basis. No provision for gratuity has been made by the company as at year end and therefore IAS 19 is not applicable.

3.6 Financial instruments

(i) Recognition and initial measurement

All financial assets and liabilities are recognized in the statement of financial position when the Company becomes a party to the contractual provisions of an instrument.

A financial asset (unless it is a trade debt without significant financing component) or financial liability is initially measured at fair value, plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

(ii) Classification and subsequent measurement

(a) Financial assets

On initial recognition, a financial asset is classified and measured at amortized cost, FVTOCI or FVTPL.

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest of the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest method. The amortized cost is reduced by impairment losses. Foreign exchange gains and losses and impairment are recognized in profit or loss.

(b) Financial assets

The Company classified its financial assets into one or more of the following categories:

- FVTPL
- Loans and receivables

Loans and receivables and held to maturity financial assets were subsequently measured at amortized cost using effective interest method.

Financial liabilities-Classification and subsequent measurement

Financial liabilities are measured at amortized cost or FVTPL. A Financial liability is classified as FVTPL if it is classified as held-for-trading, it is derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss.

(iii) Derecognition

(a) Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

(b) Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expired. The Company also derecognizes a financial liability when its terms are modified and the cash flows of modified liability are substantially different, in which case a new financial liability is recognized at the fair value.

POWER HOLDING LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED SEPTEMBER 30, 2024

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid is recognized in profit or loss.

(iv) Off-setting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position, if the Company has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

3.7 Receivables

Receivable from the Finance Division, GOP / power sector, GOP through CPPA-G is recognized on the basis of finance facilities availed by the Company for the purposes of funding of the repayment liabilities of the DISCOs. Other receivables are carried at original invoice amount less impairment, if any.

3.8 Other payables

Liabilities for amounts payable are measured at cost which is the fair value of the consideration to be paid in the future for goods and services received whether billed to the company or not.

3.9 Grant from power sector, GOP through CPPA-G/ Finance Division, GOP

Grant/receipts from the power sector, GOP through CPPA-G and Finance Division, GOP is recognized when the related markup on term finance facilities is recognized. The grant is charged to statement of profit or loss as and when due, whether received or not.

3.10 Other income

Profit on bank deposits is recognized on time proportion basis taking into account principal outstanding and rates of profit applicable thereon.

3.11 Transactions with related parties

Transactions with related parties are carried out on commercial terms and conditions.

3.12 Provisions

Provisions are recognized when the Company has a present, legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each year end date and adjusted to reflect the current best estimates.

3.13 Borrowing costs

All borrowing costs are charged to profit or loss in the period in which they are incurred.
