Re: **Material Information**

Dear Sir,

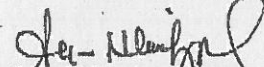

In accordance with the Listing Regulations, we convey the following information:

We are pleased to inform you that Makori Gas Processing Plant has successfully been commissioned for production. This is an on-going process and has so far contributed to an incremental daily production of around of 23 ~ 25 million cubic feet of gas per day (mmscfd) and 4,500 ~ 5,500 barrels per day of crude oil/condensate (bpd). In addition, production of around 200 metric tons per day of liquefied petroleum gas (LPG) has also been added to the production inventory since March 3, 2014.

This is to inform you further that POL has acquired rights to purchase LPG production share of MOL Pakistan (which holds 8.4210% interest in the TAL block) for three years from the said plant.

MOL Pakistan is operator in the Tal Block with the other four (4) Pakistani Companies i.e. OGDCL, PPL, POL and GHPL. The pre-commerciality working interest of Pakistan Oilfields Limited is 25%.

Yours faithfully,
For Pakistan Oilfields Limited

Syed Khalid Matees
Company Secretary
