 - (2) ڈاٹیمینڈ انڈسٹریز اور شفیع کیمیکل انڈسٹریز کے مشترکہ مالی اکاؤنٹس پیش نہیں کئے گئے۔
- مشاہدہ نمبر 1 سے متعلق منجمنٹ نے سٹرن ہولڈرز کو پہلے ہی سرکلر جاری کر دیا ہے کا یہ رقم سرکاری خزانے میں جمع کر دی جائے گی۔
- مشاہدہ نمبر 2 سے متعلق منجمنٹ کا ارادہ تھا کہ وہ بورڈ میٹنگ میں DIL کے اثر کو کم کرے گی۔ لیکن سٹرن کی تجارت نہ ہونے کی وجہ سے موجودہ مالیاتی سال میں یہ عمل نہ کر سکی۔ اس عمل کو آنے والے وقت میں پورا کیا جائے گا لہذا مشترکہ اکاؤنٹس کو بنانے کی ضرورت نہیں ہوگی۔

INDEPENDENT AUDITOR'S REPORT
To the members of Shaffi Chemicals Limited
Report on the Audit of the Financial Statements

Adverse Opinion

We have audited the annexed financial statements of Shaffi Chemicals Limited (the Company), which comprise the statement of financial position as at June 30, 2019, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion because of the matters described in paragraph 1 to 2 **Basis for adverse opinion** section of our report and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and do not give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively do not give a true and fair view of the state of the Company's affairs as at June 30, 2019 and of the loss and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Adverse opinion

1. Unclaimed Dividend amounting to Rupees 2.690 million (overdue) of previous years has not been deposited into the Government treasury nor has any notification been issued to shareholders.
2. It is evident that Board of Daimond Industries Limited has significant influence in board of Shaffi Chemical Industries Limited, therefore as per para 13 of IAS 27 consolidation is required for both companies but management is of the view that consolidation is not necessary.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty relating to Going Concern

During the year company has accumulated losses and shareholders' equity amounting to Rupees 155.758 Million and Rupees (35.722) Million respectively as on June 30, 2019. Sales of company was Nil. Company remained closed for the whole year. Management of the company had decided to go for delisting therefore all the employees were laid off in the year ended June 30, 2015. Deputy registrar of company has initiated the winding up proceeding in Peshawar high court in current financial year. These factors have raised uncertainties that the company may not be able to continue as a going concern. Therefore these financial statements have been prepared on the basis of estimated realizable/ settlement values of assets and liabilities

respectively in addition to historical cost convention. All assets and liabilities in these financial statements have been presented in the order of liquidity.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matter:

Key Audit Matters	How our audit addressed the key audit matters
1. Investment in associated companies under equity method	
Shafi Chemical Industries (SCIL) owns 15.80% in Diamond Industries Limited (DIL), an entity listed on the Pakistan Stock Exchange and remained black listed as on June 30 2019. The investments in associated companies are accounted for under the equity method as quoted value of investment is undeterminable to reasons that PSX has black listed DIL. Therefor breakup value of share is considered to valuate investment in associate without any impairment. The investment in DIL is key audit matter due to significant amount of investment. At June 30, 2019, the Investments in associates amounted to Rs. 14.224 million at cost, and Rs. 30.202 million. Share in loss from investments in associates amounted to Rs. 1.429 million and shares in de-recognition of financial liability is Rs. 27.626 Million.	Our key audit procedure include the following: <ul style="list-style-type: none"> • Identification and understanding of the significant controls implemented by the Company over the impairment testing process. • Verification that the carrying amount of the investment was determined properly and comparison with the value in use resulting from the impairment test.
• Valuation and presentation of Loan from Associated undertaking and persons.	
Refer to note no. 12 & 13 annexed, the company has taken loan from directors and associated companies. The loan from directors are interest free whereas loan from associates is subject to interest rate of Kibor+2.5% with undetermined period of repayment. As the liability is significant therefore it is key audit matter.	Our key audit procedure include the following: <ul style="list-style-type: none"> • Inquiry from management and board meetings and confirmation circulated to the party. • Adequacy of presentation and disclosure as per IAS 24 "Related Party disclosures" • Evaluated the appropriateness of arm's length transactions.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of

accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
4. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the

matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) Proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income or the income and expenditure account, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

- d) No zakat is deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Muhammad Aslam Tabussum.

There are other amendments to published approved accounting standards that are mandatory for accounting periods beginning on or after 01 July 2017 but are considered not to be relevant or do not have any significant impact on the Company's financial statements and are therefore not detailed in these financial statements.

c) Standards, Interpretations and amendments to approved accounting standards that are not yet effective

Following standards, interpretations and amendments to existing standards have been published and are mandatory for the Company's accounting periods beginning on or after 01 July 2018 or later periods:

IFRS 9 'Financial Instruments' (effective for annual periods beginning on or after 01 July 2018). A finalized version of IFRS 9 which contains accounting requirements for financial instruments, replacing IAS 39 'Financial Instruments: Recognition and Measurement'. Financial assets are classified by reference to the business model within which they are held and their contractual cash flow characteristics. The 2014 version of IFRS 9 introduces a 'fair value through other comprehensive income' category for certain debt instruments. Financial liabilities are classified in a similar manner to under IAS 39, however there are differences in the requirements applying to the measurement of an entity's own credit risk. The 2014 version of IFRS 9 introduces an 'expected credit loss' model for the measurement of the impairment of financial assets, so it is no longer necessary for a credit event to have occurred before a credit loss is recognized. It introduces a new hedge accounting model that is designed to be more closely aligned with how entities undertake risk management activities when hedging financial and non-financial risk exposures. The requirements for the derecognition of financial assets and liabilities are carried forward from IAS 39. The management of the Company is in the process of evaluating the impacts of the aforesaid standard on the Company's financial statements.

IFRS 15 'Revenue from Contracts with Customers' (effective for annual periods beginning on or after 01 July 2018). IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers. The five steps in the model are: identify the contract with the customer; identify the performance obligations in the contract; determine the transaction price; allocate the transaction price to the performance obligations in the contracts; and recognize revenue when (or as) the entity satisfies a performance obligation. Guidance is provided on topics such as the point in which revenue is recognized, accounting for variable consideration, costs of fulfilling and obtaining a contract and various related matters. New disclosures about revenue are also introduced. The aforesaid standard is not expected to have a material impact on the Company's financial statements.

IFRS 16 'Lease' (effective for annual periods beginning on or after 01 January 2019). IFRS 16 specifies how an entity will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16 approach to lessor accounting substantially unchanged from its predecessor, IAS 17 'Leases'. IFRS 16 replaces IAS 17 'Leases', IFRIC 4 'Determining Whether an Arrangement Contains a Lease', SIC-15 'Operating Leases-Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. The management of the Company is in the process of evaluating the impacts of the aforesaid standard on the Company's financial statements.

Amendments to IFRS 9 (effective for annual periods beginning on or after 01 January 2019) clarify that for the purpose of assessing whether a prepayment feature meets the solely payments of principal and interest ('SPPI') condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason for prepayment. In other words, prepayment features with negative compensation do not automatically fail SPPI. The amendments are not likely to have significant impact on the Company's financial statements.

IFRS 15 (Amendments), 'Revenue from Contracts with Customers' (effective for annual periods beginning on or after 01 July 2018). Amendments clarify three aspects of the standard (identifying performance obligations, principal versus agent considerations, and licensing) and to provide some transition relief for modified contracts and completed contracts. The aforesaid amendments are not expected to have a material impact on the Company's financial statements.

IAS 28 (Amendments) 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after 01 January 2019). The IASB has clarified that IFRS 9, including its impairment requirements, applies to long-term interests. Furthermore, in applying IFRS 9 to long-term interests, an entity does not take into account adjustments to their carrying amount required by IAS 28 (i.e., adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with IAS 28). The amendments are not likely to have significant impact on the Company's financial statements.

IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after 01 January 2018). IFRIC 22 clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration. The interpretation is not expected to have a material impact on the Company's financial statements.

IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 01 January 2019). The interpretation addresses the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12 'Income Taxes'. It specifically considers: whether tax treatments should be considered collectively; assumptions for taxation authorities' examinations; the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and the effect of changes in facts and circumstances. The interpretation is not expected to have a material impact on the Company's financial statements.

Amendments to IFRS 10 'Consolidated Financial Statements' and IAS 28 (deferred indefinitely) to clarify the treatment of the sale or contribution of assets from an investor to its associates or joint venture, as follows: require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 'Business Combinations'); require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognized only to the extent of the unrelated investors' interests in that associate or joint venture. These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occur by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves. The management of the Company is in the process of evaluating the impacts of the aforesaid amendments on the Company's financial statements.

On 8 December 2016, IASB issued Annual Improvements to IFRSs: 2014 – 2016 Cycle, incorporating amendments to three IFRSs more specifically in IAS 28. These amendments are effective for annual periods beginning on or after 01 January 2018. These amendments have no significant impact on the Company's financial statements and have therefore not been analyzed in detail.

On 12 December 2017, IASB issued Annual Improvements to IFRSs: 2015 – 2017 Cycle, incorporating amendments to four IFRSs more specifically in IFRS 3 'Business Combinations', IFRS 11 'Joint Arrangements', IAS 12 'Income Taxes' and IAS 23 'Borrowing Costs'. The amendments are effective for annual periods beginning on or after 01 January 2019. The amendments have no significant impact on the Company's financial statements and have therefore not been analyzed in detail.

On 29 March 2018, the International Accounting Standards Board (the IASB) has issued a revised Conceptual Framework. The new Framework: reintroduces the terms stewardship and prudence; introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument; removes from the asset and liability definitions references to the expected flow of economic benefits—this lowers the hurdle for identifying the existence of an asset or liability and puts more emphasis on reflecting uncertainty in measurement; discusses historical cost and current value measures, and provides some guidance on how the IASB would go about selecting a measurement basis for a particular asset or liability; states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances will the IASB use other comprehensive income and only for income or expenses that arise from a change in the current value of an asset or liability; and discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements. The Framework is not an IFRS standard and does not override any standard, so nothing will change in the short term. The revised Framework will be used in future standard-setting decisions, but no changes will be made to current IFRS. Preparers might also use the Framework to assist them in developing accounting policies where an issue is not addressed by an IFRS. It is effective for annual periods beginning on or after 1 January 2020 for preparers that develop an accounting policy based on the Framework.

d) Standards and amendments to approved published standards that are not yet effective and not considered relevant to the Company

There are other standards and amendments to published standards that are mandatory for accounting periods beginning on or after 01 July 2018 but are considered not to be relevant or do not have any significant impact on the Company's financial statements and are therefore not detailed in these financial statements

2.5 Property, Plant and Equipment

Property, Plant and Equipment except for lease-hold land are stated at cost or revalued amounts less accumulated depreciation and impairment loss, if any. Depreciation is charged to income applying the reducing balance method at the rates given in **Note 8**.

Depreciation on additions is charged from the month in which the assets become available for use, while on disposal depreciation is charged up to the month of disposal.

Residual values are determined by the management as the amount it expects it would receive currently for the item of property plant and equipment if it were already of the age and in the condition expected at the end of its useful life based on the prevailing market prices of similar assets already at the end of their useful life.

Useful lives are determined by the management based on expected usage of the assets, expected physical wear and tear, technical and commercial obsolescence and other similar factors.

Gains or losses on disposal of fixed assets are recognized in income.

Maintenance and normal repairs are charged to revenue as and when incurred. Major renewals and improvements are capitalized.

2.6 Investments

The investments made by the company are classified for the purpose of measurement into the following categories:

a) Held to maturity

Investments with fixed maturity that the management has the intent and ability to hold to maturity are classified as held to maturity and are initially measured at cost and at subsequent reporting dates measured at amortized cost using the effective yield method.

b) Investment in associated companies

Long term investments in associated companies are valued using equity method.

c) Available at fair value through profit or loss

Investments at fair value through profit or loss are initially measured at cost, being the fair value of consideration given. At subsequent reporting dates, these investments are remeasured at fair value (quoted market price), unless fair value cannot be reliably measured. The investments, for which a quoted market price is not available, are measured at cost as it is not possible to apply any other valuation methodology. Realized and unrealized gains and losses arising from the changes in fair value are included in the net profit or loss for the period in which they arise. Investments intended to be held for less than twelve months from the balance sheet date are included in current assets, all other investments are classified as non-current asset. Management determines the appropriate classification of its investments at the time of the purchase and reevaluates such designation periodically.

All purchases and sales of investments are recognized on the trade date which is the date that the company commits to purchase or sell the investment. Cost of purchase includes transaction cost.

At each reporting date, the company reviews the carrying amounts of the investment to assess whether there is any indication that such investments have suffered an impairment loss. If any such indication exists, the recoverable amount is estimated in order to determine the extent of the impairment loss, if any. Impairment losses are recognized as expense. Where an impairment loss is subsequently reversed, the carrying amount of the investment is increased to the revised recoverable amount but limited to the extent of initial cost of the investment. A reversal of the impairment loss is recognized in income.

2.7 Stock - in - Trade

These are valued at lower of cost or net realizable value. Cost is determined as follows:

Raw-Material	Weighted Average Cost
Work in Process and Finished Goods	Average Manufacturing Cost or Net Realizable value

Net realizable value signifies the estimated selling prices in the ordinary course of business less cost necessary to be incurred in order to make a sale.

2.8 Stores, Spares and Loose Tools

These are stated at lower of cost and net realizable value. The cost of inventory is based on weighted average cost. Items in transit are stated at cost accumulated to balance sheet date.

2.9 Financial instruments

Financial assets and financial liabilities are recognized when the company becomes a party to the contractual provision of the instruments. The particular measurements method adopted are disclosed in the individual policy statements associated with each item.

2.10 Trade debts

Trade debts originated by the company are recognized and carried at original invoice amount less an allowance for any uncollectible amount. An estimate for doubtful debts is made when collection of full amount is no longer probable. Bad debts are written off as incurred and become bad in actual sense.

2.11 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement cash and cash equivalents comprise of cash in hand and bank balances.

2.12 Taxation

Current

Charge for current taxation is based on taxable income at current tax rates after taking into account all tax credits and rebates available, if any. In case of loss minimum tax liability is provided in these accounts based on liability worked out under section 113 or under sections 154 and 153 of the Income Tax Ordinance, 2001, whichever of these liabilities is higher.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all taxable temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that is the probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the year when the differences reverse based on the tax rates that have been enacted.

2.13 Revenue Recognition

Revenue is recognized on dispatch of goods. Dividend income on equity investments is recognized as income when the right of receipt is established. Interest income is recognized on the time proportion basis.

2.14 Retirement Benefits

The company operates an unfunded and unapproved gratuity scheme for its employees, which is a defined benefit plan based upon the last salary drawn by an employee. Present value of defined benefit obligation is calculated on the basis of actuarial valuation at the end of the year. The valuation in these accounts is worked out on the Projected Unit Credit Actuarial Cost method basis.

Actuarial valuation of defined benefit scheme was not conducted because there was no employee in the company as at September 30, 2017.

Actuarial gains and losses are accounted for in accordance with the revised IAS-19 "Employee benefits".

2.15 Provisions

Transactions in foreign currencies are translated into rupees at the rate of exchange approximating those prevailing on the dates of transaction. Exchange gains and losses are included in the profit and loss account currently.

2.18 Related party transactions

All transactions with related parties are carried out by the Company at arm's length prices using the method prescribed under the Companies Act 2017.

2.19 Loans, Advances and other Receivables

Loans, advances and other receivables are recognized initially at cost and subsequently measured at amortized cost.

2.20 Long Term Loans and Short Term Borrowings

Financial charges are accounted for on accrual basis and are either added to the carrying amount of the instruments or included in the creditors, accrued and other liabilities to the extent of the amount remaining unpaid. Exchange gain and losses (if any) arising in respect of loan or borrowings in foreign currency are added to the carrying amount of the instrument.

2.21 Trade and Other Payables

However company has vehemently contested in court that certain amount were deposited in company current account have been adjusted by bank as markup & bank charges instead of adjusting principal amount ,if all such amounts/deposits have been adjusted against principal amount payable to Allied Bank, then final amount shall be Rs. 12.89(M). The Honourable Court passed interim decree of said amount and order the bank to adjust the amount deposited by company from time to time and adjusted by bank as markup/bank charges. The bank filed a statement with the Court as per court orders , stating that the net payable by company after taking effect of court order arrives at Rs.12.89(M). The suit continued till the Honorable Court passed final decree. However the Court also allowed cost of funds to the tune of Rs.13.31 (M) to Allied bank. The company has filed a revision application with the court against these cost of funds. However the management accrued these expenses in its accounts and net final figure of Rs.19.831(M) shown as income in profit & Loss Account in year2016. In the current year 2018, before the final decree of court ABL made final settlement agreement with managment of the Company for the payment of Rs. 49.9(M) toward entire liabilities. Further, the company and Bank have agreed to withdraw all their pending allegations, claims, counterclaims, litigations against each other. Therefore, Bank issued NOC on May 05, 2018 confirming that company has discharged all its obligations to the entire satisfactions of the bank as per settlement agreement. To cope with the current situation management recongnized its fianancial liabilities amounting to Rs 19.831(M) which was derecognised in 2016 , the impact on financial statement for year 2018 of which is hereuner:-

	<u>Principle</u>	<u>Interest</u>
ABL Loan as on June 30, 2015	49,991,574	696,000
ABL Loan as on June 30, 2016	(12,888,289)	12,614,441
Derecognition / Recognition of Financial liability	<u>37,103,285</u>	<u>13,310,441</u>
Net derecognition of Financial liability in 2018	23,792,844	

Therefore an amount of RS. 23.793(M) is recognized as an expense in Profit or Loss Account for the year 2018, And Total Liability is paid off before May 05, 2018.

26 FINANCIAL RISK MANAGEMENT

26.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risks (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors. The Company's finance department evaluates and hedges financial risks. The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk, liquidity risk, use of derivative financial instruments and non derivative financial instruments and investment of excess liquidity.

26.1.1 Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The company is not exposed to currency risks.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is not exposed to commodity price risk.

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is geared only to the extent of borrowings as mentioned in **Note 26** and since these borrowings are under litigation so for the time being the company is exposed to the interest rate risk only to the extent of calculation of mark-up on loan from related party. Financial instruments at variable rates expose the company to cash flow interest rate risk. Financial instruments at fixed rate expose the company to fair value interest rate risk.

At the balance sheet date the interest rate profile of the Company's interest bearing financial instruments was:

	2019 Rupees	2018 Rupees
Floating rate instruments		
Financial liabilities		
Short Term Borrowings - Secured	59,146,924	57,276,924

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

The Company does not account for any variable rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the Company.

26.1.2 Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2019 Rupees	2018 Rupees
Investments	30,248,164	3,893,484
Long Term Deposits	223,560	223,560
Loans and Advances	665,352	553,848
Other Receivables	2,222,882	2,148,166
Cash and Bank Balances	479,439	611,639
	<u>33,839,396</u>	<u>7,430,696</u>

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (If available) or to historical information about counterparty default rate:

	Rating			2019	2018
	Short Term	Long term	Agency	Rupees	Rupees
Banks					
Habib Metropolitan Bank Limited	A1+	AA+	PACRA	25,224	41,170
Allied Bank Limited	A1+	AAA	PACRA	-	39,903
Silk Bank	A-2	A-	JCR-VIS	96,833	181,691
Askari Bank Limited	A1+	AA+	PACRA	2,094	2,094
Bank Alfalah Limited	A1+	AA+	PACRA	970	970
Summit Bank	A-1	A-	JCR-VIS	2,698	2,698
				<u>127,819</u>	<u>268,526</u>

The Company's exposure to credit risk and impairment losses related to trade debts is Nil due to no trade receivable during the year.

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly the credit risk is minimal.

26.1.3 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The company manages liquidity risk by maintaining sufficient cash. The company follows an effective cash management and planning policy to ensure availability of funds and to take appropriate measures for new requirements. Following are the contractual maturities of financial liabilities. The amounts disclosed in the table are undiscounted cash flows.

27 RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements At 30 June 2019	Level 1	Level 2	Level 3	Total
Rupees.....			
Financial assets				
Fair value through profit & loss financial asset	30,202,091	-	-	30,202,091
Available for sale financial asset	46,073	-	-	46,073
Total financial assets	<u>30,248,164</u>	<u>-</u>	<u>-</u>	<u>30,248,164</u>

Recurring fair value measurements At 30 June 2018	Level 1	Level 2	Level 3	Total
.....Rupees.....				
Financial assets				
Fair value through profit & loss financial asset	3,827,038	-	-	3,827,038
Available for sale financial asset	66,446	-	-	66,446
Total financial assets	3,893,484	-	-	3,893,484

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further, there was no transfer in and out of level 3 measurements.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include the use of quoted market prices.

28 CAPITAL RISK MANAGEMENT
