Dear Sir,

PROGRESS REPORT FOR THE QUARTER ENDED 30 SEPTEMBER 2022

We are pleased to provide you with a progress report in respect of Suhail Jute Mills Ltd., for the quarter ended 30 September 2022.

As we have stated in our previous communications, the restart of commercial operations hinges entirely upon our ability to raise adequate financing for working capital and the discharge of outstanding obligations to creditors, principal among which is the settlement of obligations to institutions who have secured Decrees from the Courts.

The principal sponsors continue to substantially increase their financial stake in the Company and have injected further funds to keep the Company afloat during the period under report. As is evident from the record, the sponsors have financially sustained the Company during the entire time it has remained non-operational and are obviously most interested in being able to restart operations so as to recoup their investment.

The Company has surplus assets that have become available for disposal, as a consequence of the Merger of (Colony) Sarhad Textile Mills Ltd, with and into, Suhail Jute Mills Limited. The Company owns a fully functional Jute Manufacturing facility, which has been maintained in a running order. The existing unit will be capable of generating revenue, once working capital becomes available, enabling commercial production to be recommenced.

Since the finalization of the merger, we have made strenuous efforts to sell such surplus assets so as to raise the required amount of funding. However, we have not been able to secure suitable transaction terms for the same, particularly the front-loading of the consideration for the sale of surplus assets.

It is to be appreciated that much of the period in question has been negatively impacted by crisis-like economic and political conditions. Moreover, because part of the available assets includes Land, we have also faced issues relating to the end use of the Land, which has further shrunk the pool of potential buyers.

The quarter ended 30 September 2022, under report, was characterized by severe political instability, and crisis-like economic uncertainty including record declines in the value of the Rupee which negatively impacted our efforts. The prevailing uncertainties continue to hinder potential buyers/ investors from making long term commitments.

During the previous quarter, the Company had explored the viability of entering into joint ventures with potential buyers. We have been encouraged by the favorable feedback from potentially interested parties and remain actively engaged with them. We shall continue to keep you apprised of any developments in this regard.

We trust the above is in order.

Yours truly,

For, SUHAIL JUTE MILLS LIMITED
