

Tri-Pack Films Limited

A PAKISTAN - JAPAN JOINT VENTURE

FAX # 111 573 329

Sec/82/TPFL

Karachi
28 February 2013

The Manager
Karachi Stock Exchange Limited
Stock Exchange Building
Stock Exchange Road
Karachi.

Dear Sir,

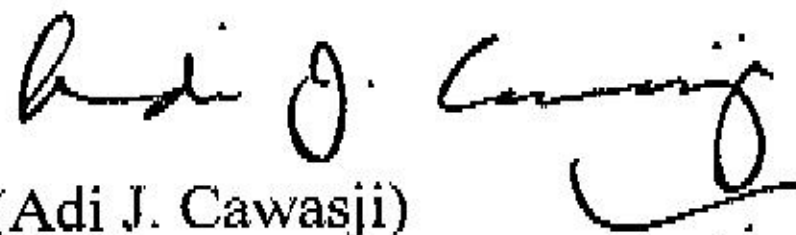

Tri-Pack Films Limited (the Company) is pleased to announce that the new Biaxially Oriented Polypropylene Plant (BOPP) with a capacity of 40,000 metric tons per annum has now been commissioned and the commercial production will commence from 1 March 2013.

The new plant shall increase the BOPP production capacity of the Company from 30,000 tons per annum to 70,000 tons per annum. This investment demonstrates commitment of the Company towards catering the increased demand of BOPP films in Pakistan and offering faster delivery, better quality, greater convenience and increased flexibility. Besides this, the capacity in excess of the local demand will be exported, which will generate foreign exchange for the country. As communicated earlier vide our letter No. Sec/182/TPFL dated 7 May 2012, this project is financed with a mix of debt and internal cash generation.

You are requested to kindly make necessary notings in your record.

Best regards.

Yours sincerely,
For TRI-PACK FILMS LIMITED

(Adi J. Cawasji)
Company Secretary
