Financial Highlights

Energy Exported (GWH)

Future Outlook

- No impediment in the ability of the Company to generate electricity, subject to certain regulatory and formal legal formalities;
- Participation in the Competitive Trading Bilateral Contracts Market (CTBCM) once implemented by the Government of Pakistan (GoP) through wheeling arrangements;
- Several cost reduction measures,
 - rationalization of workers and employees through Voluntary Severance Scheme (VSS)
 - Reduction / optimization of plant maintenance costs
- Rupees 9,774.393 million surplus funds as on 31 December 2024, to generate sufficient income to support the operations of the Company.
- Exploration of other avenues of income generation including establishment of new businesses

A photograph of an industrial facility, likely a power plant or refinery, featuring two prominent tall smokestacks with red and white horizontal bands. The scene is hazy, and a metal fence is visible in the foreground. The text "Questions and Answers" is overlaid in the center.

Questions and Answers

A photograph of an industrial facility, likely a power plant or refinery, featuring several tall, cylindrical smokestacks. The stacks are painted with alternating horizontal bands of red and white. Thick plumes of white smoke or steam are rising from the stacks into a hazy, overcast sky. In the foreground, a metal fence runs across the frame, and various industrial buildings and structures are visible in the background. The overall scene is somewhat desaturated and has a soft, hazy quality.

Thank You
