اصل خطرہ اور بے یقینی

کمپنی ایک اسلامی انکم فنڈ برقرار رکھے ہوئے ہے، جسے 1786-مارٹ فنڈ کہا جاتا ہے، مارکیٹ کے خطرے کا مقابلہ کرنے کے لئے فنڈ کی زیادہ تر قیمت تجارتی ٹیکوں میں لگائی جا رہی ہے جو مارکیٹ خطرہ کو کم کرنے کے لئے کمپنی کے لئے غیر معمولی اچھا کام کرتی ہے لیکن کوویڈ-19 کے بعد سود کی شرحیں بہتر ہوئیں ہم اچھا منافع فراہم کرتے ہوئے مختصر مدت میں A+ ریٹنگ سکوک مختص کرنے پر غور کر رہے ہیں۔

کمپنی کی رسک منیجمنٹ پالیسیاں اور پروسیجرز یقینی بناتے ہیں کہ رسک کی موثر طریقہ سے شناخت، تشخیص، نگرانی اور انتظام کیا گیا ہے۔ رسک منیجمنٹ ایک متحرک فنکشن ہے اور منیجمنٹ آمدنی میں تغیر کو کم کرنے کے لئے اپنے داخلی رسک پروسیجرز اور عوامل کی مسلسل نگرانی لازمی بناتی ہے۔

بورڈ کی تشخیص

لسٹڈ کمپنیز (کارپوریٹ گورننس کا ضابطہ) ریگولیشن، 2019 کے تحت تمام بورڈ آف ڈائریکٹرز اور اس کی کمیٹیوں کی تشخیص ضروری ہوتی ہے۔ اس سلسلے میں، کمپنی کے بورڈ آف ڈائریکٹرز اور بورڈ کمیٹی کی کارکردگی کا جائزہ لینے کے لئے کمپنی میں اوبلیویشن سروے کی ایک وسیع رینج منعقد کی گئی تھی۔ بورڈ کے تمام ارکان کے تاثرات اسٹریٹجک وضاحت اور عقائد، کاروباری منصوبہ کی سمت اور اس کے کردار کی فعال کفایت کے شعبوں پر تسلیم بخش تھے۔

کارپوریٹ گورننس اور مالیاتی رپورٹنگ کا دائرہ کار

ڈائریکٹرز بخوشی بیان کرتے ہیں کہ:

- کمپنی کی انتظامیہ کی طرف سے تیار کردہ، مالیاتی حسابات، اس کے امور، آپریٹنگ نتائج، نقدی بہاؤ اور ایکٹیوٹی میں تبدیلیوں کو منصفانہ طور پر ظاہر کرتے ہیں۔
- کمپنی کے کھاتہ جات بالکل صحیح طور سے بنائے گئے ہیں۔
- مالی حسابات کی تیاری میں مناسب اکاؤنٹنگ پالیسیوں کو تسلسل کے ساتھ لاگو کیا گیا ہے اور اکاؤنٹنگ کے تخمینہ جات مناسب اور دانشمندانہ فیصلوں پر مبنی ہیں۔
- مالی حسابات کی تیاری میں پاکستان میں لاگو بین الاقوامی مالیاتی رپورٹنگ کے معیارات کی بیروی کی گئی ہے اور کسی انحراف کا واضح انکشاف اور وضاحت کی گئی ہے۔
- اندرونی کنٹرول کے نظام کا ڈیزائن مستحکم ہے اور اسکی موثر طریقے سے عملدرآمد اور نگرانی کی جاتی ہے۔
- کمپنی کے گورننگ کنٹرن ہونے کی صلاحیت پر کوئی قابل ذکر شکوک و شبہات نہیں ہیں۔
- کارپوریٹ گورننس کے بہترین عمل سے کوئی مادی انحراف نہیں کیا گیا ہے سوائے جن کامی گوٹواروں کے ساتھ منسلک تعمیلی بیان میں انکشاف کیا گیا۔
- فنڈ کے پونٹ میں کسی ڈائریکٹر، چیف ایگزیکٹو آفیسر، کمپنی سیکرٹری اور ان کے زوج اور ان کے نابالغ بچوں کی طرف سے سال کے دوران کوئی تجارت نہیں کی گئی سوائے جن کامی گوٹواروں سے متعلقہ نوٹس میں انکشاف کیا گیا۔

• میکسر، ڈیویڈ، لیویز اور بقایا چارجز کی مد میں کوئی قانونی ادائیگی نہیں ہے۔

کمپنی کے ڈائریکٹرز کی یہ ذمہ داری ہے کہ اس بات کو یقینی بنائیں کہ کمپنی کا داخلی مالی کنٹرول سسٹم کافی اور موثر طریقے سے کام کر رہا ہے۔

سال 2022 کے دوران 786 انویسٹمنٹ لمیٹڈ نے "ایسٹ میںجنت سروس" اور "انویسٹمنٹ ایڈوائزری سروسز" کے دونوں لائسنس کی بروئے عمل درآمد کی۔

کمپنی کی توجہ زیر انتظام اثاثوں (AUMs) کو بڑھانے پر مرکوز کر رہی ہے۔ کمپنی ایک فنڈ کو منظم کرتی ہے جس کو اسلامی انکم فنڈ کا درجہ دیا گیا ہے، جو 1786-سارٹ فنڈ کہلاتا ہے، مالی سال کے دوران، AUM میں 867 ملین روپے کا اضافہ واقع ہوا ہے۔ جس میں ریڈمپشن اور منافع منقسمہ کی ادائیگی کی وجہ سے 30 جون 2022 کو ختم ہونے والے سال تک (AUMs) 589 ملین روپے تک کم ہو گیا ہے۔

مستقبل کے منصوبے:

کمپنی اپنی حکمت عملی پر نظر ثانی اور معیشت کی صورتحال اور کمپنی کو دستیاب وسائل کا تجزیہ کر رہی ہے۔ کمپنی کے مالیاتی اور آپریشنل پہلوؤں کو نمایاں طور پر تبدیل کرنے کے عمل کی منصوبہ بندی بھی کی گئی ہے کیونکہ کاروبار کو گزشتہ سال مالی دباؤ کا سامنا تھا۔

کمپنی نے فنڈ کے سائز کو بڑھانے کے لیے ایک نیا فنڈ متعارف کرانے کا منصوبہ بھی بنایا اور لاگت کو کم کرنے کی حکمت عملی جاری کی تاکہ کمپنی کا رخ موڑنے کا غیر موثر طریقہ ہو۔ اس سال ہمارا مقصد زیر انتظام اثاثوں (AUMs) کو بڑھانا ہے۔

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account;

5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the presentation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

5.1 Property and equipment

5.1.1 Owned assets

These are stated at cost less accumulated depreciation and impairment, if any. Such costs include the cost of replacing parts of fixed assets when that cost is incurred. Maintenance and normal repairs are charged to profit and loss account as and when incurred. Depreciation is charged to profit and loss account over the useful life of the asset on a systematic basis applying the straight line method at the rates specified in note 6 to the financial statements.

Depreciation on additions is charged from the month in which the assets are put to use while no depreciation is charged in the month in which the assets are disposed off.

The carrying amounts are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed estimated recoverable amount, assets are written down to their estimated recoverable amount.

An item of fixed asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

The residual values and useful lives of assets are reviewed at each financial year end and adjusted, if appropriate.

Gains and losses on disposals, if any, are included in the profit and loss account.

5.2 Intangible assets

Intangible assets includes software with a finite useful life and are stated at cost less accumulated amortization and accumulated impairment losses, if any. Such intangible assets are amortized using the straight-line method taking into account residual value, if any, at the rate specified in note 7 to these financial statements. Amortization is charged from the date the asset is available for use while in the case of assets disposed off, it is charged till the date of disposal. The useful lives and amortization method are reviewed and adjusted, if appropriate, at each reporting date.

5.3 Financial instruments

All financial assets and liabilities are initially measured at cost which is the fair value of the consideration given or received. These are subsequently measured at fair value, amortized cost of cost as the case may be.

5.3.1 Classification - IFRS 9

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be 'at fair value through profit or loss' if:

- i) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- ii) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- iii) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Financial assets

The Company classifies its financial assets as subsequently measured 'at amortised cost' or measured 'at fair value through profit or loss' on the basis of both:

- The entity's business model for managing of the financial assets
- The contractual cash flow characteristics of the financial asset

Financial assets measured 'at amortised cost'

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company includes in this category short-term non-financing receivables, accrued income and other receivables.

Financial assets measured 'at fair value through profit or loss'

A financial asset is measured 'at fair value through profit or loss' if:

- a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding; or
- b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial liabilities

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured 'at fair value through profit or loss'. The Company includes in this category short-term payables, including accrued and other liabilities.

5.3.2 Measurement of financial asset

Initial measurement

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Subsequent measurement

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, and impairment are recognised in the statement of profit or loss. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit and loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the statement of profit and loss.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in the statement of profit and loss.

Financial assets measured at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest / markup income, and impairment are recognised in the statement of profit and loss.

5.3.3 Non-derivative financial assets

All non-derivative financial assets are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets. The Company derecognises the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retain substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

5.3.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the unconsolidated financial statements only when the Company has a legally enforceable right to offset and the Company intends to either settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the unconsolidated financial statements only when permitted by the accounting and reporting standards as applicable in Pakistan.

5.3.5 Financial liabilities

Financial liabilities are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial liabilities include mark-up bearing borrowings and trade and other payables. The Company derecognises the financial liabilities when contractual obligations are discharged, cancelled or expire. Financial liability other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortised cost using effective interest rate method.

5.3.6 Derecognition

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognised where the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Company has:

- a) Transferred substantially all of the risks and rewards of the asset; or
- b) Neither transferred nor retained substantially all of the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

5.3.7 Impairment

5.3.7.1 Financial assets

The Company recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the Gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Based on the management assessment no ECL was required since the Company's financial assets at amortized cost are held with related parties or counterparties with low credit risk. Further, ECL calculated on Trade Debts was not required as the amount assessed was immaterial to the unconsolidated financial statement.

5.3.7.2 Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the unconsolidated statement of profit or loss.

5.4 Settlement date accounting

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention such as 'T+2' purchases and sales are recognized at the settlement date. Trade date is the date on which the Company commits to purchase or sale an asset.

5.5 Financial instruments

5.5.1 Financial assets and liabilities

Financial assets include investments, deposits, loans, advances, other receivables, receivable from funds and cash and bank balances.

Financial liabilities include accrued expenses and other liabilities and liabilities against assets subject to finance lease. Financial liabilities are classified according to the substance of the contractual agreement entered into.

At the time of initial recognition, all the financial assets and liabilities are measured at cost, which is the fair value of the consideration given or received for it. Transaction costs are included in the initial measurement of all financial assets and liabilities except for transaction costs that may be incurred on disposal. The particular recognition method adopted for recognition of financial assets and liabilities subsequent to initial recognition is disclosed in the policy statement associated with each item.

5.5.2 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to set off the recognised amounts and the Company intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously. Corresponding income on the asset and charge on the liability is also off-set.

5.5.3 Related party transactions and transfer pricing

Transactions and contracts with the related parties are based on the policy that all transactions between the Company and related parties are carried out at arm's length prices which are determined in accordance with the methods prescribed in the Companies Act, 2017.

5.6 Employee retirement benefits-defined contribution plan

The Company operates recognised provident fund scheme for all its eligible employees. Equal monthly contributions are made, both by the Company and its employees, to the fund at the rate of 10 percent of basic salary.

5.7 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalent consist of bank balances and running finances under mark-up arrangements.

5.8 Trade debts, loans, deposits, interest accrued and other receivables

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

5.9 Subordinated loan from sponsors

Subordinated loans are classified as per the terms and conditions of loan agreements and in accordance with the classification criteria provided in NBFC Rules and TR-32 of ICAP.

5.10 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

5.11 Proposed dividend and transfer between reserves

Dividends declared and transfer between reserves, except appropriations which are required by the law, made subsequent to the balance sheet date are considered as non adjusting events and are recognized in the financial statements in the year in which such dividends are declared or transfers between reserves are made.

5.12 Revenue recognition

Remuneration for investment advisory and asset management services are recognised on accrual basis.

Management fee is recognized on accrual basis when relevant services are rendered.

Gains and losses on sale of marketable securities are recognised on the trade debt.

Dividend income is recorded when the right to receive the dividend is established. Return on securities other than shares is recognised on accrual basis.

Return on bank deposits are recognised on accrual basis. Other income is recognised as and when earned.

5.13 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, if it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

5.14 Operating Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incurred expenses. Board of Directors has been identified as chief operating decision maker and is responsible for performance, allocation of resources and assessment of results.

5.15 Taxation

Current

The charge for current taxation is based on taxable income at current rates of taxation after taking into consideration available tax credits, rebates and tax losses, if any. However, for income covered under final tax regime, taxation is based on applicable tax rules under such regime. The charge for current tax also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.

Deferred

Deferred tax is accounted for using the statement of financial position liability method in respect of all temporary timing differences arising from difference between the carrying amount of the assets and liabilities in the financial statements and corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

During the year, Silk Bank Limited (the issuer) has not made its payment of principal and mark-up due on February 10, 2022, as issuer informed the investors the status of minimum capital requirement and invoked lock-in clause governed by Terms and Conditions of the Trust Deed till minimum capital requirement is met and does not constitute a breach of issuer's redemption obligations pursuant to the Trust Deed as per the legal opinion sought by the issuer. Due the above fact the management has prudently recorded an impairment of 10% on the amount of investments based on the Company's policy. Further, the accrual of markup on the same was also suspended. The management is actively looking the matter for the redemption of the same.

19.2 This represents amount payable against Federal Excise Duty (FED) on management fees received/receivable from the Funds under management. The amount is being held for payment to Federal Board of Revenue on the basis of stay order of the Honorable High Court of Sindh dated September 04, 2013. The stay order was granted as a result of petition filed by asset management companies on the forum of MUFAP against the amendment in Finance Act, 2013 which levied FED on the fees received by asset management companies from funds under management.

The Honorable Sindh High Court in its decision dated July 16, 2016 maintained the previous order passed against other constitutional petition whereby levy of FED is declared to be 'Ultra Vires' the Constitution. On September 23, 2016, the Federal Government has filed an appeal against the said order in the Honorable Supreme Court of Pakistan (SCP) and thus, the previous balance of FED has not been reversed.

Further, the Federal Government vide Finance Act, 2016 has excluded asset management companies and other non-banking finance companies from charge of FED on their services. Accordingly, no provision for FED is made from July 01, 2016 onwards.

35 FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the balance sheet date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book value.

The following table shows financial instruments recognised at fair value, analyzed between those whose fair value is based on:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3: Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The table shown below analyses the financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:
