Directors' Review Report

Dear Shareholders

The Directors of Arif Habib Corporation Limited (AHCL) are pleased to present the Directors' report of the Company together with interim condensed consolidated and consolidated financial statements for the quarter ended 30th September 2017.

The Economy

During the first quarter of fiscal year 2018, performance of Pakistan's economy has been mixed. GDP growth, inflation, policy bank rates and FBR revenue growth has been on track, whereas current account deficit due to imports rising at faster pace and exports rising at slower pace was the root cause for dampening investors' sentiments. During the quarter under review, KSE-100 index has declined by 8.93%.

Financial Results

During the quarter, on an unconsolidated basis, AHCL recorded operating revenue of PKR 807.16 million, which includes dividend income, realised capital gain on sale of securities and unrealised gain on remeasurement of investments. After accounting for operating, administrative, financial and other expenses of PKR 59.95 million, the Company earned a profit before tax of PKR 747.92 million. The Company has reported an after-tax profit of PKR 657.11 million for the quarter under review as compared with PKR 1,147.95 million for the corresponding quarter ended 30th September 2016. Earnings per share during the quarter ended 30th September 2017 was PKR 1.45 as compared to PKR 2.53 in the corresponding quarter during 2016-17.

During the quarter under review, on a consolidated basis, your Company posted a profit-after-tax (attributable to owners) of PKR 597.51 million as opposed to PKR 637.55 million during corresponding period in 2016-17. This translates to an earning of PKR 1.32 per share as compared with PKR 1.41 per share in corresponding period.

Performance of Subsidiaries and Associates

Wind Power energy project, Sachal Energy, which was commissioned in the last quarter of FY 2017 has posted impressive after tax profit of PKR 449.22 million for the quarter ended 30th September 2017. Additionally, steel, real estate and fertilizer plants on Mari Gas (Fatima Fertilizer) have done well. Whereas, fertilizer businesses on LNG (SNGPL), Pakarab Fertilizers and Fatimafert have suffered losses during the quarter under review.

Financial services and cement businesses have recorded minor profits. Black Gold Power Limited, a subsidiary of the Company, had applied for its allocation to be upgraded from 330MW coal power plant to a 660MW power plant. Your Company is pleased to announce that the application has been approved and the coal to be allocated to it from Sindh Engro Coal Mining Company will be for a 660MW power plant.

Expansion projects of Aisha Steel and Power Cement are progressing satisfactorily.

Future outlook

Businesses in the power, fertilizers, cement, steel and real estate sectors are expected to perform better. Whereas, financial services businesses are expected to face challenges in shorter term due to decline in value of investments in listed shares. On an overall basis, your Company is expected to do better in medium term.

For and on behalf of the Board

Arif Habib

There were no changes in composition of the Group during the three months period ended 30 September 2017.

2. BASIS OF PREPARATION

2.1 Statement of compliance

This condensed interim unconsolidated financial information for the three months period ended 30 September 2017 has been prepared in accordance with the requirements of International Accounting Standards 34 “Interim Financial Reporting” and provisions of or directives issued under the repealed Companies Ordinance, 1984. In case where requirements differ, the provisions of or directives issued under the repealed Companies Ordinance, 1984, have been followed.

This condensed interim unconsolidated financial information is unaudited and does not include all the information required for full annual financial statements and should be read in conjunction with the annual audited unconsolidated financial statements of the Company as at and for the year ended 30 June 2017.

Notes to the Condensed Interim Unconsolidated Financial Information (Unaudited)

For the three months period ended 30th September 2017

The comparative balance sheet presented in this condensed interim unconsolidated financial information has been extracted from the audited annual unconsolidated financial statements of the Company for the year ended 30 June 2017, whereas the comparative condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement and condensed interim statement of changes in equity are extracted from the unaudited condensed interim unconsolidated financial information for the period ended 30 September 2016.

This condensed interim unconsolidated financial information is presented in Pakistan Rupees which is also the Company's functional currency and all financial information presented has been rounded off to the nearest rupee.

This condensed interim unconsolidated financial information has been prepared on the basis of a single reportable segment.

The Companies Act, 2017 was enacted on 30 May 2017 and is applicable with immediate effect. However, owing to the practical difficulty being faced by the companies in the preparation of the Financial Statements, Circular No. 17 of 2017 dated 6 October 2017 issued by Institute of Chartered Accountants of Pakistan to be read with Circular No. 23 of 2017 dated 4 October 2017 issued by Securities and Exchange of Pakistan (SECP) have notified that the companies whose interim period ends on or before 31 December 2017, shall prepare their financial statements in accordance with the provision of the repealed Companies Ordinance, 1984.

2.2 Basis of measurement

This condensed interim unconsolidated financial information has been prepared under the historical cost convention, except for investment property, derivatives, investments classified as 'held for trading' and 'available for sale' which are stated at fair value and assets classified as 'held for sale' which are measured at lower of fair value less cost to sell and carrying amount.

3. ACCOUNTING POLICIES

3.1 The accounting policies and the methods of computation adopted in the preparation of this condensed interim unconsolidated financial information are the same as those applied in the preparation of annual audited unconsolidated financial statements of the Company as at and for the year ended 30 June 2017.

During the period, amendments to certain standards became effective which were not relevant or not having significant impact on Company's accounting policies.

4. ACCOUNTING ESTIMATES AND JUDGEMENTS

4.1 The preparation of this condensed interim unconsolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reporting amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience. Actual results may differ from these estimates.

4.2 The significant judgements made by the management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited unconsolidated financial statements as at and for the year ended 30 June 2017.

16. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. This condensed interim unconsolidated financial information does not include all financial risk management information and disclosures required in the annual audited unconsolidated financial statements; they should be read in conjunction with the Company's annual audited unconsolidated financial statements as at 30 June 2017 as financial risk management objectives and policies are consistent with the prior year.

17. FAIR VALUE MEASUREMENTS

A number of the Company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and financial liabilities.

Management engages independent external experts / valuers to carry out valuation of its non-financial assets (i.e. Investment Property) elected to be measured at fair value and financial assets where prices are not quoted or readily available in the market. Involvement of external valuers is decided by management. Selection criteria include market knowledge, reputation, relevant experience, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Company determine fair values using valuation techniques unless the fair value cannot be reliably measured.

Valuation techniques used by the Company include discounted cash flow model for valuation of unquoted equity securities. Assumptions and inputs used in valuation techniques include risk-free rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the balance sheet date that would have been determined by market participants acting at arm's length.

Valuation models for valuing securities for which there is no active market requires significant unobservable inputs and a higher degree of management judgement and estimation in the determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued and selection of appropriate discount rates, etc.

Notes to the Condensed Interim Unconsolidated Financial Information (Unaudited)

For the three months period ended 30th September 2017

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

17.1 The below table shows the carrying amounts and fair values of financial assets and financial liabilities including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include the fair value information of financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Notes to the Condensed Interim Unconsolidated Financial Information (Unaudited)

For the three months period ended 30th September 2017

* This represents investment in a subsidiary company, Arif Habib Limited, which is quoted on the Pakistan Stock Exchange Limited. It is carried at cost and fair value is determined for disclosure purposes.

Management assessed that the fair values of loans, other receivable and cash & cash equivalent, trade payables, short term borrowing and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. For long term deposit asset and long term liabilities, managements consider that their carrying values approximates fair value.

The fair value of quoted equity securities categorised in level 1 in fair value hierarchy is determined using quotation from the Pakistan Stock Exchange Limited on the reporting date. Unquoted equity securities measured at fair value is derived using discounted cash flow method. The valuation method considers the present value of future cash flows of investee company discounted with risk adjusted discount rate. The significant unobservable input comprises long-term growth rate, long-term return on equity and weighted average cost of capital. Changes in the input would increase or decrease the fair value of investee company.

18. TRANSACTIONS AND BALANCES WITH RELATED PARTIES

Notes to the Condensed Interim Consolidated Financial Information (Unaudited)

For the three months period ended 30th September 2017

- 12.2** The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies in the annual audited consolidated financial statements for the year ended 30 June 2017. The group evaluates performance on the basis of profit or loss from operations before tax expense not including non-recurring gains and losses and foreign exchange gains and losses. The group accounts for intersegment sales and transfers as if the sales or transfers were to third parties, i.e. at current market price unless disclosed otherwise.
- 12.3** The group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology, professional skills and marketing strategies. Most of the businesses were acquired as individual units, and the management at the time of the acquisition was retained.
- 12.4** The group does not allocate tax expense / tax income or non-recurring gains and losses to reportable segments. In addition, not all reportable segments have material non-cash items other than depreciation, amortisation and remeasurement of equity and debt instruments in profit or loss.
