Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period, These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters,

Following are the Key Audit Matters:

S.No,	Key Audit Matters	How the matter was addressed in our audit
1.	<p>Compliance with Laws and Regulations - Changes in 4th Schedule</p> <p>The Companies Act , 2017 (the Act, 2017) promulgated on May 30,2017, The Act, 2017 revised and replaced and replaced the Fourth Schedule of the Companies Ordinance, 1984 and brought changes in the presentation and disclosures of the financial statements by elimination of duplicative disclosure with IFRS disclosure requirements and incorporation of significant additional disclosures.</p> <p>These changes are applicable first time to the Company's financial statements for the year ended June 30, 2018</p> <p>The changes are considered as a key audit matter because failure to comply with the requirements of the Act, 2017 could have financial and reputational impact on the Company</p>	<p>We assessed the procedures applied by the management for identification of the changes required in the financial statements due to the application of the Act, We considered the adequacy and appropriateness of the additional disclosures and charges to the previous disclosures based on the new requirements. We also evaluated the sources of information used by the management for the preparation of the above referred disclosure.</p>

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information, The other information comprises of the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon,

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated, If , based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error,

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so,

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists, Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit We also;

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery intentional omissions, misrepresentations, or override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion, Our conclusions are based on the audit evidence obtained up to the date of our Auditors' report, However, future events or conditions may cause the Company to cease to continue as a going concern,
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters, We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented except for change in accounting policy as mentioned in note 3.17 to these financial statements.

3.1 Retirement Benefit Obligation

Defined Benefit Plan - Gratuity

Defined benefit plans define an amount of pension or gratuity that an employee will receive on or after retirement, usually dependent on one or more factors such as age, years of service and compensation.

A defined benefit plan is a plan that is not a defined contribution plan. The liability recognized in the Statement of Financial Position in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds or the market rates on government bonds. These are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

The company operates an Unfunded Gratuity Scheme for all its permanent employees who attain the minimum qualification period for entitlement to gratuity. The provision is made on the basis of actuarial valuation to cover the obligation under the scheme for all employees eligible to gratuity benefits. The latest actuarial valuation for gratuity scheme was carried out as on June 30, 2018.

3.2 Borrowings

Mark-up bearing borrowings are recognized initially at cost, less attributable transaction cost. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the income statement over the period of the borrowings on an effective interest basis.

3.3 Trade and Other Payables

Liabilities for trade and other amounts payable are recognized and carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the company.

All repairs and maintenance are charged to the statement of profit or loss as and when incurred except major repairs which are capitalized.

Depreciation on all property, plant and equipment is charged using the reducing balance method in accordance with the rates specified in note 4 to these financial statements and after taking into account residual values, if significant. The revalued amount of buildings on freehold land is depreciated over its estimated useful life. The residual values, useful lives and depreciation methods are reviewed and adjusted, if appropriate, at each statement of financial position date. Depreciation on additions is charged from the month in which the assets become available for use, while no depreciation is charged in the month of disposal.

To the extent that increase reverses a decrease previously recognised in the statement of profit or loss, the increase is first recognised in the statement of profit or loss. Decreases that reverse previous increases of the same asset are first recognised in other comprehensive income to the extent of the remaining surplus attributable to the asset; all other decreases are charged to the statement of profit or loss. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to the statement of profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from revaluation surplus on property, plant and equipment to unappropriated profit.

Gains / losses on disposal of property, plant and equipment are charged to the statement of profit or loss.

Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to the statement of profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from revaluation surplus on property, plant and equipment to unappropriated profit.

The change in accounting policy has been accounted for retrospectively in accordance with the requirements of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and comparative figures have been restated.

17.8 Sensitivity analysis for actuarial assumptions

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	Impact on defined benefit obligation		
	Change in assumption	Increase in assumption Rupees	Decrease in assumption Rupees
Discount rate at June 30	1%	6,975,844	7,132,954
Future salary increases	1%	7,132,954	7,093,236

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the gratuity liability recognized within the Statement of Financial Position.

17.9 As per actuarial advice, the expected charge for the next year is Rs. 12,819,840.

(i) Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties fail to perform as contracted. Out of the total financial assets of Rs. 43,425,035 (2017: Rs. 144,457,099), trade debts, loans and advances amounting in aggregate to Rs. 38,834,001 (2017: Rs. 141,280,152) are subject to credit risk. The Company manages its credit risk by limiting significant exposure to any individual customers.

Due to the Company's long standing business relationships with counter parties and after giving due consideration to their strong financial standing, management does not expect non-performance by counterparties on their obligations to the Company.

For trade receivables, internal risk assessments process determines the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are fixed based on internal or external ratings in accordance with limits set by the management. The utilization of credit limits is regularly monitored. Accordingly the credit risk is minimal and the Company also believes that it is not exposed to major concentration of credit risk.

(ii) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulties in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash and bank balances and the availability of financing through banking arrangements.

(iii) Market risk

a) Price risk

Price risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

b) Currency risk

Currency risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises mainly where receivables and payables exist in foreign currency. The Company primarily has foreign currency exposure in US Dollars (USD) and Euro (€). As at June 30, 2018, if the Pak Rupee had weakened / strengthened by 5% against US Dollars (USD) and Euro (€) with all other variables held constant, profit before tax for the year would have been lower / higher by Rs. 1,667,172 (2017: Rs. 1,945,661), mainly as a result of foreign exchange losses / gains on translation of US Dollars (USD) and Euro (€) denominated financial assets and liabilities.

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company's interest rate risk arises from borrowings which includes short term borrowings (note 20) and long term financing (note 16). Borrowings availed at variable rates expose the Company to cash flow interest rate risk.

At June 30, 2018, the Company had variable interest bearing financial liabilities of Rs. 290,841,663 (2017: Rs. 492,886,837), and had the interest rate varied by 100 basis points with all the other variables held constant, profit before tax for the year would have been lower / higher by approximately Rs. 2,908,416 (2017: Rs. 4,928,868), mainly as a result of higher / lower interest expense on floating rate borrowings.

(iv) Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market condition (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

At June 30, 2018, the net fair value of all financial assets and financial liabilities are estimated to approximate their carrying values.

36. CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefit for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company manages its capital risk by monitoring its debt levels and liquid assets and keeping in view future investment requirements and expectation of shareholders. Debt and capital comprise of long term financing and shareholder's equity respectively.
