Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan, (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. Material Uncertainty relating to Going Concern

Note 1.2 to the financial statements states that the Company incurred loss of Rs. 2.90 million (2021: Rs. 8.70 million) during the year. As at the reporting date, its equity is negative by Rs. 202.27 million (2021: Rs. 206.03 million) and current liabilities exceeds its current assets by Rs. 220.25 million (2021: Rs. 222.33 million). These events and conditions, along with other matters as set forth in Note 1.2, indicate the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified with respect to this matter.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PAK LEATHER CRAFTS LIMITED
REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Emphasis of Matter

We draw attention towards Note 19 to the financial statements which indicates that no provision is made in respect of any cost of funds since initiation of cases, as the same depends on the ultimate decision by the relevant forums and the quantum of cost of funds cannot be determined at this stage.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report except those discussed in material uncertainty related to going concern and emphasis of matter sections of the report.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work have performed, conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF

PAK LEATHER CRAFTS LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit, we also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PAK LEATHER CRAFTS LIMITED

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.
- IAS 41 Agriculture - The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in IFRS 13.

The amendments are applicable for annual periods beginning on or after 1 January 2022. Application of these amendments is not expected to have any significant impact on the Company's financial statements.

ii. IAS 1 – Presentation of Financial Statements

The IASB has issued 'Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)' with amendments that are intended to help preparers in deciding which accounting policies to disclose in their financial statements in the following ways:

- an entity is now required to disclose its material accounting policy information instead of its significant accounting policies;
- several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- the amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- the amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- the amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

In addition, IFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information in order to support the amendments to IAS 1. Once the entity applies the amendments to IAS 1, it is also permitted to apply the amendments to IFRS Practice Statement 2.

The amendments to IAS 1 are effective for annual periods beginning on or after 1 January 2023. The amendments are expected to affect disclosure of policies in the financial statements.

iii. IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The IASB has published 'Definition of Accounting Estimates' to help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".

The IASB clarifies that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

The amendments are effective for annual periods beginning on or after 1 January 2023. Application of these amendments is not expected to have any significant impact on the Company's financial statements.

iv. IAS 12 – Income Taxes

The IASB has published 'Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)' that clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. Accordingly, the initial recognition exemption, provided in IAS 12.15(b) and IAS 12.24, does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition. The amendments are effective for annual reporting periods beginning on or after 1 January 2023

Application of these amendments is not expected to have any significant impact on the Company's financial statements.

v. IAS 16 – Property, Plant and Equipment

Notes to the Financial Statements for the year ended June 30, 2022

The IASB has published 'Property, Plant and Equipment — Proceeds before Intended Use (Amendments to IAS 16)' from selling items produced while bringing an asset into the location and condition necessary for it to be capable of operating in the manner intended by management.

The standard to prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss. An entity applies the amendments retrospectively only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments.

The amendments are applicable for annual periods beginning on or after 1 January 2022. Application of these amendments is not expected to have any significant impact on the Company's financial statements.

vi. IAS 37 – Provisions, Contingent Liabilities and Contingent Assets

The IASB has published 'Onerous Contracts — Cost of Fulfilling a Contract' amending the standard regarding costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.

The changes in Onerous Contracts — Cost of Fulfilling a Contract specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendments published today are effective for annual periods beginning on or after 1 January 2022. Application of these amendments is not expected to have any significant impact on the Company's financial statements.

3.4 Standards, amendments to standards and interpretations becoming effective in future periods but not relevant

There are certain new standards, amendments to standards and interpretations that are effective from different future periods but are considered not to be relevant to the Company's operations, therefore, not disclosed in these financial statements.

3.5 Standards issued by IASB but not applicable in Pakistan

Following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan:

IFRS 1 - First-time adoption of International Financial Reporting Standards
IFRS 17 - Insurance Contracts

4. BASIS OF PREPARATION

These financial statements have been prepared on the basis of 'historical cost convention.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

5.1 Property, plant and equipment

Property, plant and equipment except leasehold land and capital work in progress are stated at cost/valuation less accumulated depreciation and impairment in value, if any. Leasehold land is stated at cost less accumulated amortization and impairment in value, if any.

Depreciation is charged to statement of profit or loss applying the reducing balance method at the rates specified in property, plant and equipment note.

Depreciation on additions during the year is charged from the month in which asset is acquired or capitalised, while no depreciation is charged for the month in which asset is disposed off. The assets' residual values and useful lives are reviewed at each financial year end and adjusted if impact on depreciation is significant.

Repairs and maintenance costs are charged to statement of profit or loss during the period in which they are incurred. Major renewals and improvements are capitalised.

Gains or losses on disposal of assets, if any, are recognised as and when incurred.

All expenditure connected with specific assets incurred during installation and construction period are carried under capital work in progress. These are transferred to specific assets as and when these assets are available for use.

5.2 Impairment

The company assesses at each balance sheet date whether there is any indication that assets except deferred tax assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether these are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is recognised in profit and loss account, unless the relevant assets are carried at revalued amounts, in which case the impairment loss is treated as a revaluation decrease. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use.

Where impairment loss subsequently reverses, the carrying amounts of the assets are increased to the revised recoverable amounts but limited to the carrying amounts that would have been determined had no impairment loss been recognised for the assets in prior years. A reversal of an impairment loss is recognised immediately in profit or loss account.

5.3 Borrowing costs

Borrowing costs directly attributable to the acquisition or construction of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

5.4 Loose tools

Notes to the Financial Statements for the year ended June 30, 2022

These are valued at moving average cost less allowance for obsolete and slow moving items. Items in transit are valued at invoice value plus other charges incurred thereon.

5.5 Stock in trade

Stock in trade except wastes is valued at lower of cost and net realisable value. Cost is determined as follows:

Raw material	Weighted average cost.
Work in process	Average manufacturing cost.
Finished goods	Average manufacturing cost.
Wastes	are valued at net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business less estimated cost of completion and estimated cost necessary to make the sales. Average manufacturing cost includes cost of direct material, labour and appropriate manufacturing overheads.

5.6 Financial Instruments

5.6.1 Measurement of financial asset

Initial measurement

The Company classifies its financial assets into following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortized cost.

A financial asset is initially measured at fair value plus transaction costs that are directly attributable to its acquisition, except FVTPL which is measured at fair value.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification, as follows:

Debt Investments at FVOCI

These assets are subsequently measured at fair value. Changes in fair value are recognized in other comprehensive income. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity Investments at FVOCI

These assets are subsequently measured at fair value. Changes in fair value are recognized in other comprehensive income and are never reclassified to the statement of profit or loss. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery

of part of the cost of the investment.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest markup or dividend income, are recognized in the statement of profit or loss.

Financial assets measured at amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.

Non-derivative financial assets

All non-derivative financial assets are initially recognized on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets and includes trade debts, advances, other receivables and cash and cash equivalents.

Derecognition

The Company derecognizes the financial assets when the contractual rights to the cash flows from the assets expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retain substantially all of the risks and rewards of ownership and does not retain control over the transferred assets.

5.6.2 Financial liabilities

Initial recognition

Financial liabilities are classified in the following categories:

- fair value through profit or loss; and
- other financial liabilities.

The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in case of other financial liabilities also include directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification, as follows:

Fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss. The Company has not designated any financial liability upon recognition as being at fair value through profit or loss.

Notes to the Financial Statements for the year ended June 30, 2022

Other financial liabilities

After initial recognition, other financial liabilities which are interest bearing are subsequently measured at amortized cost using the effective interest rate method. Gain and losses are recognized in statement of profit or loss, when the liabilities are derecognized as well as through effective interest rate amortization process.

Derecognition

The Company derecognizes financial liabilities when and only when the Company's obligations are discharged, cancelled or expire.

5.6.3 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Company has currently legally enforceable right to set-off the recognized amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Company or the counter parties.

5.6.4 Impairment of financial assets

The Company recognizes loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortized cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for receivables are always measured at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a

shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

5.7 Trade debts, Loans, advances and other receivables

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

5.8 Trade and other payables

Liabilities for trade and other payables are carried at cost which is the fair value of the consideration to be paid in future for goods and services received, whether billed to the Company or not.

Contract liability represents advances received from customer for subsequent sales of the Company's products.

5.9 Dividend and other appropriations

Dividend is recognised as a liability in the period in which it is approved. Appropriations of profits are reflected in the statement of changes in equity in the period in which such appropriations are made.

5.10 Provisions

Provisions are recognised when the Company has a present, legal or constructive obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

5.11 Provision for taxation

Current

Provision for current taxation is based on taxable income at the current rate of taxation after taking into account applicable tax credits and tax rebates available under the law.

Notes to the Financial Statements for the year ended June 30, 2022

Deferred

Deferred tax is provided using the liability method for all temporary differences at the balance sheet date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In this regard, the effect on deferred taxation of the portion of income subject to final tax regime is also considered in accordance with the requirement of Technical Release – 27 of the Institute of Chartered Accountants of Pakistan.

Deferred tax asset is recognised for all deductible temporary differences and carry forward of unused tax losses, if any, to the extent that it is probable that taxable profit will be available against which such temporary differences and tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax charged or credited in the income statement, except in case of items charged or credited to equity in which case it is included in equity.

5.12 Revenue recognition

Revenue is recognized at an amount that reflects the consideration to which the company is expected to be entitled in exchange for transferring goods or services to a customer. For this purpose, the company:

- identifies the contract with a customer;
- identifies the performance obligations in the contract;
- determines the transaction price which takes into account estimates of variable consideration, if any, and the time value of money;
- allocates the transaction price to the separate performance obligations, if applicable, on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and
- recognizes revenue when or as each performance obligation is satisfied in a manner that depicts the transfer of control of the goods or services promised to the customer.

Determining the timing of the transfer of control – at a point in time or over time – requires judgement.

The Company is engaged in leather tanning, export and sale of leather garments, which generally include single performance obligation. Management has concluded that revenue from sale of goods be recognised at the point in time when control of the asset is transferred to the customer, which is upon the delivery of goods. Delivery occurs when the products have been shipped to the specific location and the risks of loss have been transferred to the customers. The transfer can be either in the form of acceptance by the customer of products as per the sales contract or lapse of acceptance provision or the Company has objective evidence that all criteria for acceptance have been satisfied.

Invoices are generated at the point in time when control of the asset is transferred and revenue is recognised at that point in time. Receivable is also recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

5.13 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand, balances with banks, books overdrawn and highly liquid short-term investments that are convertible to known amounts of cash and are subject to insignificant risk of change in value.

5.14 Foreign currencies

Transactions in currencies other than Pakistani Rupee are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date except where forward exchange contracts have been entered into for repayment of liabilities, in that case, the rates contracted for are used.

Gains and losses arising on retranslation are included in net profit or loss for the period.

5.15 Related party transactions

Transactions with related parties are priced on arm's length basis. Prices for these transactions are determined on the basis of comparable uncontrolled price method, which sets the price by reference to comparable goods and services sold in an economically comparable market to a buyer unrelated to the seller.

5.16 Critical accounting estimates and judgments

The preparation of financial statements in conformity with IASs / IFRSs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, incomes and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

Significant areas, other than those specifically discussed in these financial statements, requiring the use of management estimates are as follows ;

- (a) Determining the useful lives of property, plant and equipment.
- (b) Provision for slow moving and obsolete stores and spares.
- (c) Write down of stock in trade.
- (d) Provision for taxation.
- (e) Provision for doubtful receivables.

5.17 Functional and presentation currency

These financial statements are presented in Pakistani Rupee which is the company's functional and presentation currency.

29.1.1 Credit risk exposure and concentration of credit risk

Credit risk is the risk which arises with the possibility that one party to a financial instrument will fail to discharge its obligations and cause the other party to incur a financial loss. The company attempts to control credit risk and concentration of credit risk by monitoring credit exposure, limiting transaction with specific counterparties and continually assessing the credit worthiness of counterparties.

Concentration of credit risk arise when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

The maximum exposure to credit risk at the reporting date is as follows:

	2022	2021
	Rupees	Rupees
Financial assets at amortized cost		
Long term deposits	1,409,612	1,409,612

Bank balances	2,441,735	4,283,168
	<u>26,330,111</u>	<u>20,863,909</u>

Due to Company's long standing relations with counter parties and after giving due consideration to their financial standing, the management does not expect non performance by these counter parties on their obligations to the Company.

For trade debts, credit quality of customers is assessed taking into consideration their financial position and previous

Notes to the Financial Statements for the year ended June 30, 2022

dealings and on that basis, individual credit limits are set. Moreover, the management regularly monitors and reviews customers' credit exposure. The credit risk exposure is limited in respect of bank balances as these are placed with the banks having good credit rating from international and local credit rating agencies. Trade debts considered good are not past due.

29.1.2 Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting its financial obligations as they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions without incurring unacceptable losses of risking damage to the company's reputation. But due to nature of business, unavailability of proper export orders and bad economic conditions, the management of the company is making their effort for recoveries from parties and assure that they provide financial support to Company in meeting its obligations.
