## Addition of Mapping Types “Partner” and “Director” in NCSS UIN Registration Screen

Dear Broker Clearing Members,

In order to further enhance the scope of Unique Identification Number (“UIN”) registration through National Clearing & Settlement System (“NCSS”), following modifications have been made whereby Broker Clearing Members (“BCM’s) can also mark their existing or new client codes with Mapping Type “Partner” or “Director” through UIN Registration Screen in NCSS:

Detailed mechanism for the above mentioned registration in NCSS:

- Presently, Mapping Types “Client”, ”Proprietary” and “Employee” are maintained in the UIN Registration Screen in NCSS. However, with the aforementioned modifications, additional Mapping Types “**Director**” and “**Partner**” will also be made available in the UIN Registration Screen in NCSS effective from **July 04, 2011**.
- BCMs can change the Mapping Type of already posted records by searching specific Client Codes and then modify its Mapping Type “Director ”or “Partner” as the case may be.
- Once client code is marked as Partner or Director by a BCM all other client codes of the same UIN, tagged by such BCM, shall automatically be marked with respective Mapping Type i.e. Director or Partner as the case may be. However, if same UIN is registered with any other BCM, the Mapping Type as given by such BCM will remain same.
- BCMs will also be allowed to change the Mapping Type of their existing clients from Director/Partner to “Client” or “Employee” as the case may be.

Aforementioned modification in NCSS UIN Registration will be implemented effective from **July 04, 2011**.

For any further information or queries please feel free to contact the **Customer Support Department** of your respective locations:
