### Option to avail NCSS / CGT Services over Internet DSL Connection

**Dear Clearing Members / Settling Banks,**

This is with reference to the letter “NCCPL/CM/SEPTEMBER-16/11” dated **September 09, 2016** regarding commencement of National Clearing & Settlement System (NCSS) and the Capital Gain Tax (CGT) Services over Internet DSL.

After commencement of these services over Internet, feedback from Clearing Members (CMs) / Settling Banks (SBs) have been very much positive and they have shown their satisfaction working with NCCPL through this mode of connectivity.

On the other hand, CMs / SBs connecting us through the fiber leased lines from different vendors, have reported frequent disconnections due to fiber cuts resulting in business loss, primarily due to the excavation works going on throughout Karachi by the city government due to their different projects.

In order to address such complains where CMs / SBs are suffering due to vendor based fiber leased line, we suggest that a backup link in the form of Internet DSL be obtained for NCSS & CGT Services so that business can continue as usual in case of fiber failures.

Interested CMs / SBs may avail this facility at any point in time. However, following are few pre-requisites in this regards:

- i. Acquisition of Internet connection from any reliable vendor; preferably with 2 Mbps bandwidth.
- ii. Ensure that static Public IP is provided from Internet service provider for security reasons.
- iii. Request for whitelisting of this static customer end IP should be generated on company's letter head. This implies that services will only be allowed on that specific IP for accessing NCCPL applications.
- iv. Installation of VPN client profiles to ensure security of data moving over the Internet channel.

The connectivity shall be activated in a few days of the request being received but users can login to only one connection at a time i.e. either by using Leased Line or Internet DSL connection. Internet DSL connection, being the backup connection, shall remain disabled and will be required to be activated on request basis in case of primary link failure.

For any further queries or concerns, please feel free to contact the Customer Support Services at your respective locations.
