Subject: Margin Trading System (MTS) Mock System Installation & Setup

Dear Clearing Members,

We would like to inform that the hosting services of the Margin Trading System (MTS) will be managed by National Clearing Company of Pakistan Limited (NCCPL) data center in future. In order to ensure smooth and seamless transition of this hosting, a MOCK session of MTS has been planned to commence from **June 24, 2019** for all the MTS participants.

In this respect, you are requested to contact our Customer Support (CS) Department from **June 19, 2019** onwards to engage IT Technical Support (ITTS) Team of NCCPL to ensure the installation and setup of MOCK setup and its associated configurations on your respective endpoints, which is required to be completed before the MOCK session commencement date.

Your usual support and co-operation is requested to ensure smooth and timely execution of the process.

Terminal & Connectivity Requirements

Considering client facilitation and ease of use, they can use the existing terminal and connectivity mode for using MTS MOCK system from NCCPL data center.

However, the client still has the following MTS connectivity options to choose from:

1. Pakistan Stock Exchange (PSX) LAN for clients operating from the PSX premises
2. Internet - DSL
3. Fiber Optics - Leased Line Link via **Multinet / Cybernet**

Requirements for PSX Karachi (KHI)-based LAN Clients using MTS via PSX LAN Network

In addition to the MTS client-end installation and setup, KHI-based LAN clients of MTS will be required to have the Forti-client VPN software installed along with the acquisition of Forti-token through the process that will be briefed by our CS / ITTS teams.

For any further queries or concerns, please feel free to contact the Customer Support Department at UAN No. 021-111-111-622.

Regards,
