Availability of “Biometric Verification Application” on Android version 10

Dear Market Participants/AI's,

With the release of Android version 10 by Google Inc., new security controls were introduced owing to which third party applications were restricted to access devices IMEI number. As National Clearing Company of Pakistan (NCCPL) Biometric Android Application is based on IMEI number to recognize registered devices, this caused an inconsistency of the NCCPL Biometric Android Application to work with devices bearing Android version 10.

NCCPL has now updated and configured its Biometric application and releasing new support for Android version 10 which is available for Biometric Verification through scanner based mobile application for AIs. From now onwards, mobile IMEI number will be replaced by **Mobile Key Number** for all mobile users using Android version 10 while for mobile users using Android version below 10, IMEI authentication will still be intact and remain the same.

Prerequisite for Android version 10:

To obtain **Mobile Key Number**, AIs must install updated “APK” file. Upon launching the app, it will display **Mobile Key Number** on app screen and AIs will be require to share **Mobile Key Number** with NCCPL through the same procedure as applicable for Binding IMEI numbers as before.

In this respect, AIs can start using this service effective from **Monday November 2, 2020**. The updated application version “APK” file will now be available on below mentioned password protected secure link hosted by NCCPL: <https://download.nccpl.com.pk:441/nccpl.apk>

Moreover, AIs may contact our Customer Support Service on below given numbers for obtaining the User ID/ Password of the aforementioned link to download the mobile application.

Notes:

- All AIs are advised to remove previously installed mobile application before installing the new version.
- User Id and Password shall remain the same for the mobile application as currently being used by AIs for “CKO Biometric System”.
- Updated User Manual is available at NCCPL website under CKO page “User Manual of NCCPL Mobile Biometric App”.

For any further queries or concerns, please feel free to contact the Customer Support Department at UAN No. 021-111-111-622.

Regards,
