

KSE/4526

NOTICE

Dated: OCT 1st, 2012

**PRESENTATION ON UPCOMING CHANGE IN THE COMPUTATION
METHODOLOGY OF KSE-100 INDEX (FREE-FLOAT)**

This is with reference to the KSE Notice N-3650 dated August 8, 2012 on the KSE-100 Free Float migration. KSE-100 Index is currently being computed using full market capitalization weighted methodology. With an objective to make the KSE indices more qualitative and in-line with the global standards, KSE has decided to shift the KSE-100 Index to the 'free-float methodology' shortly.

KSE 100 Index is a market capitalization-based index maintained by the KSE. The KSE 100 Index was introduced in 1991 it comprises of 100 companies selected on the basis of sector representation and highest market capitalization, which captures over 85% of the total market capitalization of the company listed on the Exchange. Due to its wide acceptance amongst the investors; KSE - 100 is regarded to be the pulse of the Pakistan's stock market..

The presentation will outline the modalities of the Free-Float Migration, benefits for Members, Investors and Fund Managers and its implications for investors and fund managers. The presentation is scheduled for **02 & 03 October 2012 at 4:00 pm in KSE Auditorium**. Members and their senior sales staff are invited to attend this presentation.

The above is submitted for information and record.
